Music, Dance and Translation Helen Julia Minors, 2023-10-05 How is music affected by its translation interpretation and adaptation with through and by dance How might notation of dance and music act as a form of translation How does music influence the creation of dance How might dance and music be understood to exchange and transfer their content sense and process during both the creative process and the interpretative process Bringing together chapters that explore theory and practice this book questions the process and role translation has to play in the context of music and dance It provides a range of case studies across this interdisciplinary field and is not restricted by genre style or cultural location As one of very few volumes to explore translation in relation to music and to overtly tackle this topic in terms of dance it moves the argument from a broad notion of text and translation to think critically about the sound and movement arts of music and dance using translation as a model to better understand the collaboration of these art forms , Modernism after the Ballets Russes Gabriela

Minden, 2025-07-14 Serge Diaghilev's Ballets Russes holds a renowned position in the history of modernism across various arts The company's daring productions brought together leading artists working in diverse fields from Igor Stravinsky to Pablo Picasso from Bronislava Nijinska to Coco Chanel redefining the possibilities of artistic collaboration and shaping the trajectories of dance music fashion and the visual arts But what of the Ballets Russes's role in the text based theatre Despite the intrinsic link between dance and theatre as performance arts the company's contributions to dramatic literature and dramaturgy have remained surprisingly elusive This book establishes the Ballets Russes as a powerful force in the development of modernist theatre in Britain revealing how the company's avant garde repertoire inspired the creation of new composition strategies and performance techniques that privileged the immediacy of expression offered by the moving dancing body Modernism after the Ballets Russes examines the philosophical conditions of early twentieth century Britain's

theatrical landscape marked by growing interest in Nietzschean interpretations of classical drama and Wagnerian notions of the Gesamtkunstwerk to illuminate the allure of the Ballets Russes's re-centring of dance as the foundation of theatre art. It shows that Diaghilev ballets provided new ways of thinking about the relationship between the literary and embodied aspects of dramatic performance, fueling collaborations between eminent dramatists and theatre practitioners: Harley Granville Barker, J. M. Barrie, Terence Gray and W. H. Auden, and lesser-known choreographers Cecil Sharp, Tamara Karsavina, Ninette de Valois and Rupert Doone. Through the prism of the Ballets Russes, this group of artists crafted distinctive new theatrical forms, including a whimsical terpsichorean fantasia and a politically subversive poetic dramatic satire, as well as new methods of staging Shakespearean comedy and Attic tragedy. Together, this book contends that these literary and dramaturgical innovations represent a previously neglected strand of modernism, one that saw the dramatic power of the moving body expand the expressive resources of the period's theatrical arts.
