Looking Into Teaching

Schleicher Andreas

Looking Into Teaching:

Looking Into Primary Headship Geoff Southworth, 2002-11-01 This is both a study of leadership and a research methods text. It offers an analytical description of a primary headteacher at work over the course of one school year. Using a mix of participant observation and interviews, the book provides a portrait of this head's approach to his work, his background, beliefs, the school as a context, what he did, how he dealt with change and development, power, and the personal dimension of headship. The portrait is matched to the contemporary literature, and an hypothesis is formulated about primary headship and is then used to critique existing ideas about school leadership. The book also suggests ways of developing heads and school teachers.

International Summit on the Teaching Profession Learning from the Past, Looking to the Future

Excellence and Equity for all Schleicher Andreas, 2021-10-21 The COVID 19 crisis has amplified the many inadequacies and inequities in education systems. As the future continues to surprise us, the importance of resilience, adaptability, and fairness in education will only grow.

Innovative language teaching and learning at university: a look at new trends Nelson Becerra, Rosalba Biasini, Hanna Magedera-Hofhansl, Ana Reimão, 2019-05-06 The present volume collects papers from InnoConf18 which took place at the University of Liverpool in June 2018. The theme of the conference was New trends in language teaching and learning at university. The contributions collected here aim to reflect on best practice in the sector while at the same time capturing state of the art language teaching and learning methodologies. The short papers in this peer reviewed selection display examples of active learning and student empowerment across all levels of learning and demonstrate the benefits of maximising engagement through a creative and inspiring learning environment. We believe this volume will be of use to language teachers and practitioners in higher education and beyond.

Introduction to Teaching Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2019-01-02 An ideal introductory text for aspiring teachers. Introduction to Teaching Making a

Difference in Student Learning is grounded in the realities and complexities found in today's schools. Acclaimed authors Gene E. Hall, Linda F. Quinn, and Donna M. Gollnick thoroughly prepare students to make a difference as teachers presenting firsthand stories and evidence-based practices while offering a student-centered approach to learning. The authors focus on how to address one of the biggest challenges facing many of today's schools: ensuring that all students are learning and help teachers prioritize student learning as their primary focus. From true-to-life challenges that future teachers will face such as high-stakes testing, reduced funding, low retention, and Common Core State Standards to the inspiration and joy they will experience throughout their teaching careers, the Third Edition paints an importantly authentic picture of the real life of a teacher. This title is accompanied by a complete teaching and learning package.

A Performatory Approach to Teaching, Learning and Technology Jaime E. Martinez, 2012-01-01 Even the most cursory glance at innovation in the field of education will reveal the emerging importance that researchers place on play, performance, and collaboration in the classroom. Concurrently, policy makers and school districts are investing more resources in promoting the development of 21st Century skills and technology use in the classroom. *A Performatory Approach to Teaching, Learning and Technology* integrates technology use in teaching and learning and the use of a Vygotskian performance-based pedagogy. Through the use of ethnographic vignettes and narratives, the development of the author's teaching practice is presented as challenges and contradictions brought about by technology use, and a humanistic perspective on teaching and learning are engaged. The performatory social therapeutic framework that the author's teaching practice is grounded in is richly illustrated with scenes from elementary, middle school, and undergraduate classrooms. The featured technologies include laptops, Internet-based applications, course management systems, discussion forums, e-mail, digital video, Wiki's, and Blogs. Audience: Teachers, first-year graduate students, and researchers will be interested in this book for a practitioner's perspective on the integration of an innovative pedagogy and technology into teaching practices.

Creative Collaboration in Teaching Marcelo Giglio, 2016-04-29 *Creative Collaboration in Teaching* focuses on the question of how best to facilitate creative collaboration among students in the classroom setting with a focus on music composition and from the perspective of social-cultural psychology. This book is comprehensive, cutting-edge, and scholarly in its approach. Marcelo Giglio's attention to music and creativity is detailed enough to satisfy any researcher, educator, or teacher-educator, but at the same time, his research approach, classroom observations, and overriding recommendations can be easily applied to a wide range of subject areas. Giglio combines a rigorous review of the relevant literatures on creativity and social interactions with the reporting and analysis of his own original data across the world and then goes on to support this important work with detailed descriptions of classroom episodes, student-to-student and teacher-to-student interactions. By combining these three elements, this book offers socio-creative and pedagogical models for education in practice as well as teacher education and research.
