## **Loosing The Bonds:**

**Loosing the Bonds** Robert Massie, 1997 In the aftermath of World War II South Africa's white government decreed a brutal system of segregation at the very moment when the United States began wrestling with the civil rights movement In *Loosing the Bonds* Robert Massie recreates the passions and struggles of these years deftly exposing the way politics and personalities money and morality interact in modern America 40 photos National print ads media

**Between Homeland and Motherland** Alvin B. Tillery, Jr., 2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe's back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America's black elite and Tillery's analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book shows how black leaders continuously balanced national transnational and community impulses whether distancing themselves from Marcus Garvey's back to Africa movement supporting the anticolonialism movements of the 1950s or opposing South African apartheid in the 1980s

**Undoing the Liberal World Order** Leon Fink, 2022-01-18 In the decades following World War II American liberals had a vision for the world Their ambitions would not stop at the water's edge progressive internationalism they believed could help peoples everywhere achieve democracy prosperity and freedom Chastened in part by the failures of these grand aspirations in recent years liberals and the Left have retreated from such idealism Today as a beleaguered United States confronts a series of crises does the postwar liberal tradition offer any useful lessons for American engagement with the world The historian Leon Fink examines key cases of progressive influence on postwar U S foreign policy tracing the tension between liberal aspirations and the political realities that stymie them From the reconstruction of post Nazi West Germany to the struggle against apartheid he shows how American liberals joined global allies in pursuit of an expansive political social and economic vision Even as liberal internationalism brought such successes to the world it also stumbled against domestic politics or was blind to the contradictions in capitalist development and the power of competing nationalist identities A diplomatic history that emphasizes the roles of social class labor movements race and grassroots activism *Undoing the Liberal World Order* suggests new directions for a progressive American foreign policy

*Tears, Fire, and*

*Blood* James H. Meriwether, 2021-10-19 In the mid twentieth century the struggle against colonial rule fundamentally reshaped the world and the lives of the majority of the world's population Decolonization Black and Brown freedom movements the establishment of the United Nations and NATO an exploding Cold War a burgeoning world human rights movement all became part of the dramatic events that swept through Africa at a furious pace with fifty nations gaining independence in roughly fifty years Meanwhile the United States emerged as the most powerful and influential nation in the world with the ability politically economically militarily and principles to help or hinder the transformation of the African continent *Tears Fire and Blood* offers a sweeping history of how the United States responded to decolonization in Africa James H Meriwether explores how Washington grappling with national security interests and racial prejudices veered between strengthening African nationalist movements seeking majority rule and independence and bolstering anticommunist European allies seeking to maintain white rule Events in Africa helped propel the Black freedom struggle around the world and ultimately forced the United States to confront its support for national ideals abroad as it fought over how to achieve equality at home

John Chrysostom* Saint John Chrysostom, 1840 **Commentary on the Epistle to the Galatians and Homilies on the Epistles to the Ephesians, of S. *Sharpeville* Tom Lodge, 2011-05-12 On 21 March 1960 several hundred black Africans were injured and 69 killed when South African police opened fire on demonstrators in the township of Sharpeville protesting against the Apartheid regime's racist pass laws The Sharpeville Massacre as the event has become known signalled the start of armed resistance in South Africa and prompted worldwide condemnation of South Africa's Apartheid policies The events at Sharpeville deeply affected the attitudes of both black and white in South Africa and provided a major stimulus to the development of an international Anti Apartheid movement In *Sharpeville* Tom Lodge explains how and why the Massacre occurred looking at the social and political background to the events of March 1960 as well as the sequence of events that prompted the shootings themselves He then broadens his focus to explain the long term consequences of Sharpeville explaining how it affected South African politics over the following decades both domestically and also in the country's relationship with the rest of the world

*Just Politics* C. William Walldorf, Jr., 2011-08-15 Many foreign policy analysts assume that elite policymakers in liberal democracies consistently ignore humanitarian norms when these norms interfere with commercial and strategic interests Today's endorsement by Western governments of repressive regimes in countries from Kazakhstan to Pakistan and Saudi Arabia in the name of fighting terror only reinforces this opinion In *Just Politics* C William Walldorf Jr challenges this conventional wisdom arguing that human rights concerns have often led

democratic great powers to sever vital strategic partnerships even when it has not been in their interest to do so Walldorf sets out his case in detailed studies of British alliance relationships with the Ottoman Empire and Portugal in the nineteenth century and of U S partnerships with numerous countries ranging from South Africa Turkey Greece and El Salvador to Nicaragua Chile and Argentina during the Cold War He finds that illiberal behavior by partner states varying degrees of pressure by nonstate actors and legislative activism account for the decisions by democracies to terminate strategic partnerships for human rights reasons To demonstrate the central influence of humanitarian considerations and domestic politics in the most vital of strategic moments of great power foreign policy Walldorf argues that Western governments can and must integrate human rights into their foreign policies Failure to take humanitarian concerns into account he contends will only damage their long term strategic objectives     The Sabbath Remembrancer Alexander Fletcher,1835     *Homilies: Commentary on the Epistle to the Galatians, and Homilies on the Epistle to the Ephesians.* 1840 Saint John Chrysostom,1840
