Place Marketing and Temporality Gary Warnaby, 2024-06-26 Much city marketing and branding activity is future oriented aimed at achieving a forward looking vision for places The aim of this activity is to attract visitors residents and or inward investment and focus on communicating attractive place attributes to create a differentiated spatial product that will appeal to particular target audiences In seeking to achieve this place marketing campaigns have been criticized for emphasizing generic attributes such as accessibility infrastructure and a skilled workforce which can serve to homogenize places which in reality are very different However a city's distinctive character is a consequence of its history and development over time and this book analyses the role of these temporal dimensions in place marketing and branding The book analyses how the past both material i e the historic built environment and intangible i e routines practices and the character of the populace is appropriated in order to sell the city into the future It acknowledges the inherent selectivity involved and discusses the factors influencing what is remembered from the past and equally importantly what is forgotten Adopting a range of theoretical approaches to understanding temporality in this context the book will appeal to advanced students academic researchers and reflexive place branding practitioners by introducing a temporal paradox incorporating both fixity the material and immaterial elements of the city's past and fluidity relating to the creation of the place product as a dynamic assemblage of individual elements and attributes aimed at particular target audiences

A Hard Rain Fell David Barber, 2010-02-17 By the spring of 1969 Students for a Democratic Society SDS had reached its zenith as the largest most radical movement of white youth in American history a genuine New Left Yet less than a year later SDS splintered into warring factions and ceased to exist SDS's development and its dissolution grew directly out of the organization's relations with the black freedom movement the movement against the Vietnam War and the newly emerging struggle for women's liberation For a moment young white people could comprehend their world in new and revolutionary ways But New Leftists did not respond as a tabula rasa On the contrary these young people's consciousnesses their culture their identities had arisen out of a history which for hundreds of years had privileged white over black men over women and America over the rest of the world Such a history could not help but distort the vision and practice of these activists good intentions notwithstanding *A Hard Rain Fell* SDS and Why It Failed traces these activists in their relation to other movements and demonstrates that the New Left's dissolution flowed directly from SDS's failure to break with traditional American notions of race sex and empire
