Love And The Soul Creating A Future For Earth:

Love and the Soul Robert Sardello, 2011-06-28 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert Sardello lies with the individual In this timely thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner **Love and the Soul** helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community

Love and the Soul Robert Sardello, Robert J. Sardello, 1994-12 The many readers of Thomas Moore's *Care of the Soul* will extend their understanding of soul work in this new book by Moore's longtime colleague Robert Sardello **Love and the Soul** proposes that inner work must be constantly balanced by a care for soul qualities in the world in order to avoid falling into egotism and self absorption Actively taking up the task of standing in and for the soul realm and bringing what is revealed there to action in the world is described as the creative impulse of love Love here extends beyond feelings sentiments emotions and personal concerns to an abiding interest in the future of the world Such interest in the future from the perspective of soul as love does not involve taking up political social economic or religious programs but rather the act of inner conscious awareness shaping forming and interiorizing the essence of each moment of experience leading to the capacity to experience purpose and create beauty The deeper we can enter into the individuality of soul the more possibilities for creating soul in the world become apparent Drawing on images of the Grail legend and myths of Sophia she who is called the Soul of the World Sardello develops approaches to an intelligence of the heart the world significance of grieving the transformative power of radical receptivity re enlivening the senses the creative power of dreaming and a new basis for relationships and community Based on a synthesis of the writings of C G Jung on the nature of soul James Hillman on the work of soul making and Rudolf Steiner on the formation of a spiritual culture Sardello's book establishes a ground of hope for the approaching millennium and a radically fresh direction for psychology one concerned with what we can be rather than with what has influenced us from the past

Love and the World Robert Sardello, 2001 In this guide to conscious soul practice a psychotherapist reveals the importance of making one's life open and receptive to the spiritual realms

Simple Sayings and Thoughts for the Mind, Heart and Soul Joe Cervantes, 2016-06-08 Wisdom knowledge and understanding are similar to finding a treasure chest full of diamonds and nuggets of gold How can anyone not take advantage of such an abundance of wealth In the midst of so much confusion one needs to take the time to believe that there is wealth in the word of God and from his people to overcome such daily adversaries We are challenged in our everyday lives but may you take that first step of faith living for God and in helping others with love where there is failure I know many books have been written with different opinions and advice by different writers about God and life As the author of this book I've tried to give some simple wisdom and understanding in so many areas of our lives making it simple to understand of course with some sense of humor As one who goes alone through the maze of life sometimes it requires us to learn quickly in order to find the key to the cross So where advice isn't available we are tempted get off course and learn the hard way which gets more complicated if we become stubborn Just like the whole armor of God protects every part of our spiritual and physical bodies taking some good advice and motivation will help us progress as a child of God For those who love to make things possible by taking advice may this book help you to change your route and save you time There are over six thousand thoughts of my personal sayings which can be used as a text starter for a sermon or a conservation piece for inspiration Please enjoy them you've struck it rich with some great wisdom Joe Cervantes
