Love At Goon Park Harry Harlow And The Science Of Affection:

Love at Goon Park Deborah Blum, 2011-07-05 In this meticulously researched and masterfully written book Pulitzer Prize winner Deborah Blum examines the history of love through the lens of its strangest unsung hero a brilliant fearless alcoholic psychologist named Harry Frederick Harlow Pursuing the idea that human affection could be understood studied even measured Harlow 1905 1981 arrived at his conclusions by conducting research sometimes beautiful sometimes horrible on the primates in his University of Wisconsin laboratory Paradoxically his darkest experiments may have the brightest legacy for by studying neglect and its life altering consequences Harlow confirmed love s central role in shaping not only how we feel but also how we think His work sparked a psychological revolution The more children experience affection he discovered the more curious they become about the world Love makes people smarter The biography of both a man and an idea The Measure of Love is a powerful and at times disturbing narrative that will forever alter our understanding of human relationships

Love at Goon Park Deborah L. Blum, 2003 Deborah Blum examines the history of love through the lens of its strangest unsung hero a brilliant fearless alcoholic psychologist named Harry Frederick Harlow Pursuing the idea that human affection could be understood studied even measured Harlow 1905 1981 arrived at his conclusions by conducting research sometimes beautiful sometimes horrible on the primates in his University of Wisconsin laboratory Paradoxically his darkest experiments may have the brightest legacy for by studying neglect and its life altering consequences Harlow confirmed love s central role in shaping not only how we feel but also how we think

Understanding Animal Welfare David Fraser, 2023-10-17 The essential text on understanding and improving animal welfare Understanding Animal Welfare 2nd Edition is revised and expanded to incorporate new research and developments in animal welfare Updated with greater accessibility in mind the reader is guided through animal welfare in its cultural and historical context methods of study and applications in practice and policy Drawing examples from farm companion laboratory and zoo animals the text provides an up to date overview of research and its applications while also tracing how concepts and methods have evolved over time Readers of the second edition of Understanding Animal Welfare will also find New developments in understanding positive animal states The importance of human actions in determining animal welfare New content on One Welfare How free living wild animals are affected by human technology and climate change Originally intended for scientists and professionals Understanding Animal Welfare has also found a home in undergraduate classrooms It is now the essential text for students practitioners veterinarians and researchers in animal welfare and related fields

The Celluloid Specimen Benjamin Schultz-Figueroa, 2023-02-28 The Celluloid Specimen examines twentieth century behaviorist films that captured animal experiments revealing the central role of cinema in generating psychosocial definitions of species race identity and culture that continue to shape our contemporary political and scientific discourses Benjami 1n Schultz Figueroa analyzes rarely seen archival films made by Robert Yerkes in the 1930s at the first experimental primate colonies in North America the rat films

made to simulate human society at Yale University in the 1930s and 1940s and the promotional films made by B F Skinner to sell the U S military on his design for a pigeon guided missile during World War II These laboratory films have long been categorized as passive recordings of scientific research but when examined in their own right they become rich historical political and aesthetic texts that played a crucial role in the history of science

Defining Love Thomas Jay Oord,2010-06 Engages cutting edge scientific research on love and altruism to offer a definition of love that is scientifically theologically and philosophically adequate

Understanding Others Dominick LaCapra,2018-09-15 To what extent do we and can we understand others other peoples species times and places What is the role of others within ourselves epitomized in the notion of unconscious forces Can we come to terms with our internalized others in ways that foster mutual understanding and counteract the tendency to scapegoat project victimize and indulge in prejudicial and narcissistic impulses How do various fields or disciplines address or avoid such questions And have these questions become particularly pressing and not in the least confined to other peoples times and places Making selective and critical use of the thought of such important figures as Sigmund Freud Jacques Derrida and Mikhail Bakhtin in *Understanding Others* Dominick LaCapra investigates a series of crucial topics from the current state of deconstruction trauma studies and the humanities to newer fields such as animal studies and posthumanist scholarship LaCapra adroitly brings critical historical thought into a provocative engagement with politics and our current political climate This is LaCapra at his best critically rethinking major currents and exploring the old and the new in combination often suggesting what this means in the age of Trump

Opening Skinner's Box Lauren Slater,2013-04-08 Through ten examples of ingenious experiments by some of psychology s most innovative thinkers Lauren Slater traces the evolution of the century s most pressing concerns free will authoritarianism conformity and morality Beginning with B F Skinner and the legend of a child raised in a box Slater takes us from a deep empathy with Stanley Milgram s obedience subjects to a funny and disturbing re creation of an experiment questioning the validity of psychiatric diagnosis Previously described only in academic journals and textbooks these often daring experiments have never before been narrated as stories chock full of plot wit personality and theme

Curious Kin in Fictions of Posthuman Care Amelia DeFalco,2023-08-27 Over the past decade cultural theory has seen a number of turns the materialist turn the animal turn the affective turn that address the human as an affective embodied and ultimately vulnerable animal embedded in dense webs of more than human relations in short as a posthuman phenomenon Care philosophy shares this

focus on embodiment and vulnerability in its insistence on interdependence as the defining condition of human life making it well positioned for a posthuman turn To this end *Curious Kin in Fictions of Posthuman Care* draws together contemporary narrative fictions that challenge humanist conceptions of care in their imaginative depiction of more than human affective bonds arguing for an expansion care philosophy's central figure the embodied embedded and encumbered human Fictional narratives of care between humans and robots bioengineered creatures clones nonhuman animals aliens or inanimate things highlight the limits of humanist ethical models capacity to register and accommodate posthuman relational intimacies while gesturing towards a model of care able to accommodate networked interdependencies that extend beyond the human realm

Texts by Margaret Atwood Louise Erdrich Louisa Hall Eva Hornung Kazuo Ishiguro Bhanu Kapil and Jesmyn Ward along with films and television programmes like *Robot and Frank* *Under the Skin* and *Real Humans* depict a range of scenarios in which more than human care relations not only supersede human human relationships but suggest new human animal machine ways of being that offer novel insights into the possible presents and futures of posthuman care *Curious Kin in Fictions of Posthuman Care* reveals how these fictions do their own theorizing imagining the politics ethics and aesthetics of specific contextualized scenarios of posthuman contact and companionship Interweaving posthuman theory care philosophy and contemporary fiction *Curious Kin in Fictions of Posthuman Care* offers generative visions of care that make room for the incredible range of affects energies behaviours attachments and dependencies that produce and sustain life in more than human worlds

How to Feel Sushma Subramanian, 2021-02-02 We are out of touch Many people fear that we are trapped inside our screens becoming less in tune with our bodies and losing our connection to the physical world But the sense of touch has been undervalued since long before the days of digital isolation Because of deeply rooted beliefs that favor the cerebral over the corporeal touch is maligned as dirty or sentimental in contrast with supposedly more elevated modes of perceiving the world *How to Feel* explores the scientific physical emotional and cultural aspects of touch reconnecting us to what is arguably our most important sense Sushma Subramanian introduces readers to the scientists whose groundbreaking research is underscoring the role of touch in our lives Through vivid individual stories a man who lost his sense of touch in his late teens a woman who experiences touch emotion synesthesia her own efforts to become less touch averse Subramanian explains the science of the somatosensory system and our philosophical beliefs about it She visits labs that are shaping the textures of objects we use every day from cereal to synthetic fabrics The book highlights the growing field of haptics which is trying to incorporate tactile interactions into devices such as phones that touch us back and prosthetic limbs that can feel *How to Feel* offers a new appreciation for a vital but misunderstood sense and how we can use it to live more fully
