Transactions with the World Adam O'Brien, 2016-02-01 In their bold experimentation and bracing engagement with culture and politics the New Hollywood films of the late 1960s and early 1970s are justly celebrated contributions to American cinematic history. Relatively unexplored however has been the profound environmental sensibility that characterized movies such as *The Wild Bunch*, *Chinatown* and *Nashville*. This brisk and engaging study explores how many hallmarks of New Hollywood filmmaking such as the increased reliance on location shooting and the rejection of American self-mythologizing made the era such a vividly grounded cinematic moment. Synthesizing a range of narrative, aesthetic and ecocritical theories it offers a genuinely fresh perspective on one of the most studied periods in film history. *Television's Strangest Moments* Quentin Falk, Ben Falk, 2014-02-25 Ever since John Logie Baird first publicly demonstrated this now all pervasive medium in his small Soho laboratory the history of television has been littered with remarkable but true tales of the unexpected. Ranging from bizarre stories of actors' shenanigans to strange but true executive and marketing decisions and covering over one hundred shows, series and episodes from both behind and in front of the camera in British and American television studios *Television's Strangest Moments* is the ultimate tome of TV trivia. Why did the quintessential English sleuth The Saint drive a Swedish car? What happened when Michael Aspel met Nora Batty on the set of the 1960s drama documentary *The War Game*? Why is the Halloween chiller *Ghostwatch* still unofficially banned by the BBC? From live TV suicide to Ricky Martin's disastrous candid camera style episode involving a young female fan and several cans of dog food *Television's Strangest Moments* will keep you hooked when there's nothing worth watching on the box. *The Moviegoing Experience, 1968-2001* Richard W. Haines, 2010-06-28 The experience of going to the movies be it a single screen theater, twin multiplex or drive in is affected by many different factors that have shifted over the years. Just as movies emerged from silent to talking, black and white to color, there has invariably been change in the way movies are made, copied, distributed and viewed. This change in the moviegoing experience for better or for worse is worth studying. This work examines the American moviegoing experience from 1968 to 2001, the way in which movies are made and regulated including the demise of the Production Code and the emergence of the ratings system as well as changes in lighting, cinematography and coloring techniques. The projection practices of the past and present during and after the presence of the Projectionists Union and the advent of the platter which allowed for automated projection are discussed. How home video and cable affected the content of films after the eighties and the history of computerized special effects leading to the development of digital cinema projection are included. The work also covers the changing types of venues over the last third of a century and other aspects that affect positively or negatively the entire moviegoing experience. *LGBTQ America Today* John Charles Hawley, 2008-11-30 Lesbian, gay, bisexual, transgender and queer culture is a vibrant and rapidly evolving segment of the American mosaic. This book gives students and general readers a current guide to the people and issues at the forefront of contemporary LGBTQ

Children of Light Robert Stone,1992-03-10 By one of the most impressive novelists of his generation The New York Review of Books Children of Light is a searing indelible love story of two ravaged spirits played out under the merciless magnifying prism of Hollywood Gordon Walker screenwriter and actor has systematically ruined his family and his health with cocaine and alcohol Lee Verger is an actress of uncommon and unfulfilled promise whom Gordon has known since the days when they were both young and fearless and whose New Orleans childhood has left her with a tenuous hold on sanity During the shooting of a film on the Pacific coast of Mexico they resume a ritual struggle in which their desperate love for each other will either save or destroy them

Occultus Liber Neil Baker,2014-05-07 The dust roamed and in its midst the code Thus begins the revelations of Occultus Liber an epic tale of the journey of civilization through time and space With its collective cast of extraordinary characters both mythological and real the quest to discover the fate of planet Earth leads to a bizarre odyssey of Biblical proportions Satire abounds as dozens of players join the chase to dismantle God and claim the world as their own in this prophetic novel

The Art of American Screen Acting, 1960 to Today Dan Callahan,2019-01-31 Modern screen acting in English is dominated by two key figures Method acting guru Lee Strasberg who taught the the art of experiencing over the art of representing and English theater titan Laurence Olivier who once said of the Method s immersive approach try acting it s so much easier This book explores in detail the work of such method actors as Al Pacino Ellen Burstyn Jack Nicholson and Jane Fonda and charts the shift away from the more internally focused Strasberg based acting of the 1970s and towards the more external way of working exemplified by the career of Meryl Streep in the 1980s
