Flirtin' With the Monster Ellen Hopkins, 2009-05-12 Where is the line between truth and fiction Why do love and addiction so often go hand in hand What does the real Kristina think about the

way her story is told in Crank and Glass Crank and Glass have always been more than just stories Join their author Ellen Hopkins and a host of other writers as they delve deep into Kristina s story from the straight truth on the physical effects of methamphetamine addiction to the psychological consequences of keeping secrets and how Hopkins books have encouraged so many teens to reveal theirs With an essay by Ellen s real life daughter the basis for the character of Kristina that tells her version of the events that inspired the books along with perspectives from Scott Jake and 10 year old Hunter the baby from Crank Flirtin with the Monster is a compelling journey through the complexities of Hopkins beloved bestselling works I AM TRECIA POWELL Reflections of Me Trecia Powell,2021-12-17 When I was growing up writing always helped me to express what I was feeling In a sense it allowed me to express whatever was on my heart and mind and it enabled me to move on with the daily tasks that I call life Journaling helps many people like myself because it s an outlet that enables one to express their innermost thoughts and feelings I even journal to this day This book is a motivational and empowerment guide and journal that not only allows you to come in contact with my poetry and inspirational stories but also allow you to write your thoughts and ideas about different empowerment topics and subject matters This a way of reflecting and a way to express your most personal and inner thoughts by journaling This is the Reflections of me *Emotions as Engines of History* Rafał Boryślawski,Alicja Bemben,2021-09-23 Seeking to bridge the gap between various approaches to the study of emotions this volume aims at a multidisciplinary examination of connections between emotions and history and the ways in which these connections have manifested themselves in historiography cultural and literary studies The book offers a selected range of insights into the idea of emotions affects and emotionality as driving forces and agents of change in history The fifteen essays it comprises probe into the emotional motives and dispositions behind both historical phenomena and the ways they were narrated **Critical Modesty in Contemporary Fiction** Thom Dancer,2021-09-09 From climate catastrophe to pandemics and economic crises the problems facing humanity can feel impossible to solve Critical Modesty in Contemporary Fiction argues that contemporary fiction helps those who may feel despair at the enormity of such problems not as usually assumed through the ambitious search for grand solutions but rather by cultivating a temperament of modesty This new temperament of critical modesty locates the fight for freedom and human dignity within the limited and compromised conditions in which we find ourselves Through readings of Ian McEwan Zadie Smith J M Coetzee and David Mitchell Critical Modesty in Contemporary Fiction advances a claim for the value of temperament in general as a crucial analytic for understanding contemporary experience as well as for a particular temperament of critical modesty as crucial in negotiating the limits of critical and human agency that constitute our daily lives Exploring modest forms of entangled human agency that represent an alternative to the novel of the large scale that have been most closely associated with the Anthropocene this volume makes the surprising case that by adopting a modest stance the novel has the potential to play a more important socio cultural role than it has done In doing so it offers an engaging response to the debate over critical and surface readings

bringing novels themselves into the conversation and arguing for a fictional mode that is both critical and modest reminding us how much we are already engaged with the world implicated and compromised before we start developing theories writing stories or acting within it

I'll Have What She's Having Daniel M. Kimmel, 2008-08-01 While film genres go in and out of style the romantic comedy endures from year to year and generation to generation Endlessly adaptable the romantic comedy form has thrived since the invention of film as a medium of entertainment touching on universal predicaments meeting for the first time the battle of the sexes and the bumpy course of true love These films celebrate lovers who play and improvise together no matter how nutty or at what great odds they may appear As Eugene Palette mutters in *My Man Godfrey* 1936 All you need to start an asylum is an empty room and the right kind of people Daniel Kimmel's book about romantic comedy is like watching a truly funny movie with a knowledgeable friend

The Novel and the New Ethics Dorothy J. Hale, 2020-11-24 For a generation of contemporary Anglo American novelists the question Why write has been answered with a renewed will to believe in the ethical value of literature Dissatisfied with postmodernist parody and pastiche a broad array of novelist critics including J M Coetzee Toni Morrison Zadie Smith Gish Jen Ian McEwan and Jonathan Franzen champion the novel as the literary genre most qualified to illuminate individual ethical action and decision making within complex and diverse social worlds Key to this contemporary vision of the novel's ethical power is the task of knowing and being responsible to people different from oneself and so thoroughly have contemporary novelists devoted themselves to the ethics of otherness that this ethics frequently sets the terms for plot characterization and theme In *The Novel and the New Ethics* literary critic Dorothy J Hale investigates how the contemporary emphasis on literature's social relevance sparks a new ethical description of the novel's social value that is in fact rooted in the modernist notion of narrative form This new ethics of the contemporary moment has its origin in the new idea of novelistic form that Henry James inaugurated and which was consolidated through the modernist narrative

experiments and was developed over the course of the twentieth century In Hale s reading the art of the novel becomes defined with increasing explicitness as an aesthetics of alterity made visible as a formalist ethics In fact it is this commitment to otherness as a narrative act which has conferred on the genre an artistic intensity and richness that extends to the novel s every word
