Love And Politics In Outer Space:

Love and Politics in Outer Space Harvey Stein, 1986

Politics and the Order of Love Eric Gregory, 2008-08-15

Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love s relation to justice is prominent **Politics and the Order of Love** will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

Love and Space in Contemporary African Diasporic Women's Writing Jennifer Leetsch, 2021-07-16

This book sets out to investigate how contemporary African diasporic women writers respond to the imbalances pressures and crises of twenty first century globalization by querying the boundaries between two separate conceptual domains love and space The study breaks new ground by systematically bringing together critical love studies with research into the cultures of migration diaspora and refuge Examining a notable tendency among current black feminist writers poets and performers to insist on the affective dimension of world making the book ponders strategies of reconfiguring postcolonial discourses Indeed the analyses of literary works and intermedia performances by Chimamanda Adichie Zadie Smith Helen Oyeyemi Shailja Patel and Warsan Shire reveal an urge of moving beyond a familiar insistence on processes of alienation or rupture and towards a new reparative emphasis on connection and intimacy to imagine possible inhabitable worlds

Outer Space in Society, Politics and Law

Christian Brünner, Alexander Soucek, 2012-08-30

Spaceflight is a rational undertaking yet full of emotions It is a dream of mankind and a multi billion industry likewise It is subject to a distinct branch of law and moreover part of modern pop culture In short spaceflight is fascinating **Outer Space in society politics and law** is an inter disciplinary approach to the understanding of modern space law Technical cultural and historical aspects lay the foundation for a sound comprehension why space law norms have been established and what they mean in practice The reader will realize the impact space and spaceflight have on society from Stonehenge to climate change A new approach to presenting space law comprehensive and illustrative We live in a society absolutely dependent on science and technology and yet have cleverly arranged things so that almost no one understands science and technology That s a clear prescription for disaster Carl Sagan **Sexual Politics and the Romantic Author** Sonia Hofkosh, 1998-06-18 Exploring a range of early

nineteenth century cultural materials from canonical poetry and critical prose to women's magazines and gift book engravings *Sexual Politics and the Romantic Author* offers new perspectives on the role of gender in Romanticism's defining paradigms of authorship The Romantic author's claim to individual agency is complicated by its articulation in a market system perceived to be impelled in large part by fantasies of female desire by what women read and write what they buy and sell how they look and where they look for pleasure These studies in the contested public spaces of literary labour elaborate the fundamental if invisible function of the woman as embodiment of authorial ambivalence in writing by Austen Byron Coleridge William Hazlitt Sarah Hazlitt Leigh Hunt Keats Mary Shelley William Wordsworth and others *Love and the Politics of Care* Stanislava Dikova, Wendy McMahon, Jordan Savage, 2022-11-03 This edited volume offers a contemporary rethinking of the relationship between love and care in the context of neoliberal practices of professionalization and work Each of the book's three sections interrogates a particular site of care where the affective political legal and economic dimensions of care intersect in challenging ways These sites are located within a variety of institutionally managed contexts such as the contemporary university the theatre hall the prison complex the family home the urban landscape and the care industry The geographical spread of the case studies stretches across India Vietnam Sweden Brazil South Africa the UK and the US and provides broad coverage that crosses the divide between the Global North and the Global South To address this transnational interdisciplinary field of study the collection utilises insights from across the humanities and social sciences and includes contributions from literature sociology cultural and media studies philosophy feminist theory theatre art history and education These inquiries build on a variety of conceptual tools and research methods from data analysis to psychoanalytic reading *Love and the Politics of Care* delivers an attentive and widely relevant examination of the politics of care and makes a compelling case for an urgent reconsideration of the methods that currently structure and regulate it

Literature, Mapping, and the Politics of Space in Early Modern Britain Andrew Gordon, Bernhard Klein, 2001-08-16 In this timely collection an international team of Renaissance scholars analyzes the material practice behind the concept of mapping a particular cognitive mode of gaining control over the world Ranging widely across visual and textual artifacts implicated in the culture of mapping from the literature of Shakespeare Spenser Marlowe and Jonson to representations of body city nation and empire *Literature Mapping and the Politics of Space in Early Modern Britain* argues for a thorough reevaluation of the impact of cartography on the shaping of social and political identities in early modern Britain *Ethics and Politics of Space for the Anthropocene* Anu Valtonen, Outi Rantala, Paolo D. Farah, 2020-10-30 Featuring an international multidisciplinary set of contributors this thought provoking book reimagines established narratives of the Anthropocene to allow differences in regions and contexts to be taken seriously emphasising the importance of localised and situated knowledge It offers critical engagement with the debates around the Anthropocene by challenging the dominant techno rational agenda that often prevails in socio political and academic discussions **Politics of Security** Michael Dillon, 2002-01-31 In this critique of

security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger Politics of Security establishes the relationship between Heidegger's radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis Politics of Security will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger

Silent Cinema and the Politics of Space Jennifer M. Bean, Anupama Kapse, Laura Horak, 2014-04-02 In this cross cultural history of narrative cinema and media from the 1910s to the 1930s leading and emergent scholars explore the transnational crossings and exchanges that occurred in early cinema between the two world wars Drawing on film archives from around the world this volume advances the premise that silent cinema freely crossed national borders and linguistic thresholds in ways that became far less possible after the emergence of sound These essays address important questions about the uneven forces geographic economic political psychological textual and experiential that underscore a non linear approach to film history The messiness of film history as demonstrated here opens a new realm of inquiry into unexpected political social and aesthetic crossings of silent cinema
