Love as Common Ground Paul S. Fiddes, 2021-09-23 This book explores the way in which the study and practice of love creates a common ground for different faiths and different traditions within the same faith For the contributors common ground in this context is not a minimal core of belief or a lowest common denominator of faith but a space or area in which to live together consider together the meaning of the love to which various faiths witness and work together to enable human flourishing Such a space the contributors believe is possible because it is the place of encounter with the divine This book is the fruit of a Project for the Study of Love in Religion which aims to create this space in which different traditions of love converge from Islam
