Living Sufism in North America William Rory Dickson,2015-09-14 Offers an overview of Sufism in North America In this book William Rory Dickson explores Sufism as a developing tradition in North America one that exists in diverse and beguiling forms Sufism s broad minded traditions of philosophy poetry and spiritual practice infused Islamic civilization for centuries and drew the attention of interested Westerners By the early twentieth century Sufism was being practiced in North America Today s North American Sufism can appear either explicitly Islamic or seemingly devoid of Islamic religiosity Dickson provides indispensable background on Sufism s relation to Islamic orthodoxy and to Western esoteric traditions and

its historical development in North America The book goes on to chart the directions that North American Sufism is currently taking directions largely chosen by Sufi leaders The views of ten North American Sufi leaders are explored in depth and their perspectives on Islam authority gender and tradition are put in conversation with one another A more detailed picture of North American Sufism emerges challenging previous scholarly classifications of Sufi groups and highlighting Sufism s fluidity diversity and dynamism Living Sufism in North America is the first book of its kind to bridge the gap between Sufi studies and the study of North American contemporary religious movements As such it is a comprehensive pioneering work of potential interest to a wide array of scholars in the field of contemporary religion Patrick Laude author of Pathways to an Inner Islam Massignon Corbin Guenon and Schuon Classical Spirituality in Contemporary America Michael S. Pittman,2012-03-08 G I Gurdjieff d 1949 remains an important if controversial figure in early 20th century Western Esoteric thought Born in the culturally diverse region of the Caucasus Gurdjieff traveled in Asia Africa and elsewhere in search of practical spiritual knowledge Though oftentimes allusive references to Sufi teachings and characters take a prominent position in Gurdjieff s work and writings Since his death a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors J G Bennett began an experimental Fourth Way school in England in the 1970s which included the introduction of Sufi practices and teachings In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers This work does not simply demonstrate the influence of Gurdjieff and his ideas but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings particularly in the United States and highlights some of the adaptive boundary crossing and hybrid features that have led to the continuing influence of Sufism Sufism Deepshikha Shahi,2020-06-22 In an effort to attain a global character the contemporary academic discipline of International Relations IR increasingly seeks to surpass its Eurocentric limits thereby opening up pathways to incorporate non Eurocentric worldviews Lately many of the non Eurocentric worldviews have emerged which either engender a derivative discourse of the same Eurocentric IR theories or construct an exceptionalist discourse which is particularly applicable to the narrow experiential realities of a native time space zone as such they fall short of the ambition to produce a genuinely non derivative and non exceptionalist Global IR theory Against this backdrop Sufism A Theoretical Intervention in Global International Relations performs a multidisciplinary research to explore how Sufism as an established non Western philosophy with a remarkable temporal spatial spread across the globe facilitates a creative intervention in the theoretical understanding of Global IR

Religion and the Subtle Body in Asia and the West Geoffrey Samuel,Jay Johnston,2013-04-12 Subtle body practices are found particularly in Indian Indo Tibetan and East Asian societies but have become increasingly familiar in Western societies especially through the various healing and yogic techniques and exercises associated with them This book explores subtle body practices from a variety of perspectives and includes both studies of these practices in Asian and Western

contexts The book discusses how subtle body practices assume a quasi material level of human existence that is intermediate between conventional concepts of body and mind Often this level is conceived of in terms of an invisible structure of channels associated with the human body through which flows of quasi material substance take place Contributors look at how subtle body concepts form the basic explanatory structure for a wide range of practices These include forms of healing modes of exercise and martial arts as well as religious practices aimed at the refinement and transformation of the human mind/body complex By highlighting how subtle body practices of many kinds have been introduced into Western societies in recent years the book explores the possibilities for new models of understanding which these concepts open up It is a useful contribution to studies on Asian Religion and Philosophy

Custodians Of Truth Tim Wallace-Murphy, Marilyn Hopkins, 2025-09-12 A curious thing happened to Tim Wallace Murphy and Marilyn Hopkins when they published *Rex Deus* their first book on the bloodline of Christ they were contacted by a man from the very lineage they were studying And instead of denying the existence of the bloodline or berating them for revealing secrets he actually confirmed that the *Rex Deus* lineage exists and even disclosed some of its fundamental secrets The story of the *Rex Deus* families direct descendents of Christ who is believed to have survived the crucifixion turns out to be much more extensive than the authors first thought Instead of beginning during the time of Jesus it stretches far back into antiquity to the

Egyptian Mystery Schools Instead of being only a propagation of the holy bloodline the Rex Deus families are also carriers of the secret teachings of Jesus Custodians of Truth reveals the purpose and secrets of the Rex Deus lineage Jesus was not only a holy man but an adept of ancient knowledge which informed his own teachings This secret knowledge was suppressed by the Church in their voracious quest for power and influence in the secular world These teachings have manifested throughout history in different forms Gnostic philosophy around the time of Jesus the Order of the Knights Templar Freemasons and the current resurgence of interest in New Age thought Finally the time is right for the hidden message of Jesus to be revealed a message of tolerance brotherhood and respect for nature The next chapter in the legend of the Holy Grail and the bloodline of Christ from the best selling authors of Rosslyn *What Inspirational Literature Do I Read Next?* Pamela Willwerth Aue, Henry L. Carrigan (Jr), 1999-08-31 Religiously inspired novels inspirational writings and biographical works on people who are models for spiritual growth are among the recommendations found in this reference
