Love Religion And Politics In Fifteenth Century Spain:

Love, Religion and Politics in Fifteenth Century Spain Ian Macpherson, Angus MacKay, 2023-08-21 Ian Macpherson and Angus MacKay bring together versions in English of sixteen articles published in journals and festschrift volumes over the past two decades. The articles are revised and selected from those which deal with questions of love, religion and politics in the fifteenth century Kingdom of Spain. Ian Macpherson is a linguist and literary critic who aims to set his judgements in a historical and social context and Angus MacKay a historian whose writings are informed by an awareness of the social context and literary production of the Spanish fifteenth century. The two authors have collaborated on many occasions and the joint volume provides insights into the complex relationships between real life and imaginative writing in this turbulent period of Spanish history.

Love, Religion and Politics in Fifteenth Century Spain Ian Richard Macpherson, Angus MacKay, 1998 Ian Macpherson and Angus MacKay have collaborated on many occasions and the sixteen articles brought together in this volume provide insights into the complex relationships between real life and imaginative writing in this turbulent period of Spanish history.

Enemies in the Plaza Thomas Devaney, 2015-04-03 Toward the end of the fifteenth century Spanish Christians near the border of Castile and Muslim ruled Granada held complex views about religious tolerance. People living in frontier cities bore much of the cost of war against Granada and faced the greatest risk of retaliation but had to reconcile an ideology of holy war with the genuine admiration many felt for individual members of other religious groups. After a century of near continuous truces a series of political transformations in Castile including those brought about by the civil wars of Enrique IV's reign, the final war with Granada and Fernando and Isabel's efforts to reestablish royal authority incited a broad reaction against religious minorities. As Thomas Devaney shows, this active hostility was triggered by public spectacles that emphasized the foreignness of Muslims, Jews and recent converts to Christianity. *Enemies in the Plaza* traces the changing attitudes toward religious minorities as manifested in public spectacles ranging from knightly tournaments to religious processions to popular festivals. Drawing on contemporary chronicles and municipal records as well as literary and architectural evidence, Devaney explores how public pageantry originally served to dissipate the anxieties fostered by the give and take of frontier culture and how this tradition of pageantry ultimately contributed to the rejection of these compromises. Through vivid depictions of frontier personalities, cities and performances, *Enemies in the Plaza* provides an account of how public spectacle served to negotiate and articulate the boundaries between communities as well as to help Castilian nobles transform the frontier's religious ambivalence into holy war.
