Majesty That Was Islam The Islamic World 661 11:

The Majesty that was Islam William Montgomery Watt, 1976 Surveys the history of the Middle East from 661 to 1100 and the expansion of Islam stressing the relationship between religion and politics and the transformation of the area's Christian culture into an Islamic one

The Islamic World, Russia and the Vikings, 750-900 Thomas S. Noonan, 2024-10-28 Professor Noonan here sets out to examine what Islamic silver coins dirhams reveal about the great trade between the Islamic world European Russia and the Baltic during the early Viking Age Particular attention is devoted to the origins of this international commerce and the role of such peoples as the Vikings and Khazars As he shows the study of these coins also throws new light on mint output in the Abbasid caliphate the historical significance of specific dirham hoards and how the patterns of trade evolved during the course of the ninth century

God Is One Michael F. Kuhn, 2019-05-31 Since the first interactions between Christians and Muslims a central point of contention has been the nature of God in relation to the doctrine of the trinity and divine oneness Yet the belief that God is one is vociferously upheld by Christians Jews and Muslims alike In this detailed historical study and subsequent analysis Dr Michael F Kuhn explores the teaching of two Arab Christian theologians from the Abbasid Era 750 1250 Abd All h Ibn al ayyib and Iliyy of Nisibis and how they defended the Christian view of God as three in one in the Muslim milieu and in reference to the Islamic concept of taw d God s absolute unity The intellectual contribution of these two Christian thinkers can be seen in fact that the concepts they articulated continue to feature in Muslim Christian dialogue to this day Dr Kuhn shows the great lengths that Middle Eastern Christians went to explain their view of God s oneness in the Trinity and the divinity of Christ to their fellow Christians and to commend it to their Muslim counterparts There is much to learn from the historical debates investigated in this book to help Christians today to uphold the truth of the Christian scriptures both in the Muslim context and beyond Readers will appreciate the review of Nestorian Christology in light of recent studies and the important theological background to contemporary Muslim Christian engagement that is provided This book also makes a significant addition to the Christian understanding of the Trinity by linking the eternal attributes of God a common theme in Islamic thought to the three persons of the God head deepening our understanding of the inter relations of Father Son and Holy Spirit Anyone engaging intellectually or academically with Muslims with hopes to dialogue thoughtfully in the area of theology spirituality and ethics will find this book acutely helpful

Islam and Dhimmitude Bat Ye'or, 2002 Dhimmitude is thus discussed from the perspective of Muslim theory and also in regard to divergent Christian attitudes to Jews and Zionism

Islamic Thought Abdullah Saeed, 2006-11-22. *Islamic Thought* is a fresh and contemporary introduction to the philosophies and doctrines of Islam. Abdullah Saeed, a distinguished Muslim scholar, traces the development of religious knowledge in Islam from the pre-modern to the modern period. The book focuses on Muslim thought as well as the development, production, and transmission of religious knowledge and the trends, schools, and movements that have contributed to the production of this knowledge. Key topics in Islamic culture are explored, including the development of the Islamic intellectual tradition, the two foundation texts, the Qur'an and Hadith, legal thought, theological thought, mystical thought, Islamic Art, philosophical thought, political thought, and renewal, reform, and rethinking today. Through this rich and varied discussion, Saeed presents a fascinating depiction of how Islam was lived in the past and how its adherents practise it in the present. *Islamic Thought* is essential reading for students beginning the study of Islam but will also interest anyone seeking to learn more about one of the world's great religions.

Freedom of Religion, Apostasy and Islam Abdullah Saeed, 2017-03-02. Debate on freedom of religion as a human right takes place not only in the Western world but also in Muslim communities throughout the world. For Muslims concerned for this freedom, one of the major difficulties is the punishment for apostasy, death for those who desert Islam. This book argues that the law of apostasy and its punishment by death in Islamic law is untenable in the modern period. Apostasy conflicts with a variety of foundation texts of Islam and with the current ethos of human rights, in particular the freedom to choose one's religion. Demonstrating the early development of the law of apostasy as largely a religio-political tool, the authors show the diversity of opinion among early Muslims on the punishment, highlighting the substantial ambiguities about what constitutes apostasy, the problematic nature of some of the key textual evidence on which the punishment of apostasy is based, and the neglect of a vast amount of clear Qur'anic texts in favour of freedom of religion in the construction of the law of apostasy. Examining the significant challenges the punishment of apostasy faces in the modern period, inside and outside

Muslim communities exploring in particular how apostasy and its punishment is dealt with in a multi religious Muslim majority country Malaysia and the challenges and difficulties it faces there the authors discuss arguments by prominent Muslims today for an absolute freedom of religion and for discarding the punishment of apostasy

Encyclopedia of Islamic Civilisation and Religion Ian Richard Netton, 2013-12-19 The Encyclopedia of Islamic Civilization and Religion provides scholarly coverage of the religion culture and history of the Islamic world at a time when that world is undergoing considerable change and is a focus of international study and debate The non Muslim world s perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements to the extent that many people are unaware of the depth and variety of Islamic thought At the same time many who have had a formal training in Islamic studies have tended to concentrate on the traditional to the exclusion of the contemporary The Encyclopedia of Islamic Civilization and Religion covers the full range of Islamic thought in historical depth but it also provides substantial coverage of contemporary trends across the Muslim world With well over a thousand entries on Islamic theology history arts science law and institutions and coverage of Islam in individual countries and cities around the world the Encyclopedia of Islamic Civilization and Religion provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies Entries are cross referenced and bibliographies are provided There is a full index Routledge published The Quran An Encyclopedia in 2005 an excellent companion to the Encyclopedia of Islamic Civilization and Religion

From Secularism to Jihad Adnan Musallam, 2005-10-30 The modern political idea of jihad a violent struggle against corrupt or anti Islamic regimes is essentially the brainchild of one man who turned traditional Islamic precepts inside out and created the modern radical political Islamist movement Using the evolution of Sayyid Qutb s life and writings Musallam traces and analyzes Qutb s alienation and subsequent emergence as an independent Islamist within the context of his society and the problems that it faced Radicalized following his stay in the United States in the late 1940s and during his imprisonment from 1954 to 1964 Qutb would pen controversial writings that would have a significant impact on young Islamists in Egypt for decades following his death and on global jihadist Islamists for the past quarter century Since September 11 2001 the West has dubbed Qutb the philosopher of Islamic terror and godfather ideologue of al Qaeda This is the first book to examine his life and thought in the wake of the events that ignited the War on Terrorism A secular man of letters in the 1930s and 1940s Qutb s outlook and focus on Quranic studies underwent drastic changes during World War II The Quran became a refuge for his personal needs and for answers to the ills of his society As a result he forsook literature permanently for the Islamic cause and way of life His stay in the United States from 1948 to 1950 reinforced his deeply held belief that Islam is man s only salvation from the abyss of Godless materialism he believed to be manifest in both capitalism and communism Qutb s active opposition to the secular policies of Egyptian President Nasser led to his imprisonment from 1954 to 1964 during which his writings called for the overthrow of Jahili pagan governments and

their replacement with a true and just Islamic society A later arrest and trial resulted in his execution in August 1966

Islam as Education Aaron J. Ghiloni, 2019-08-01 Motivated by the intellectual historian Shahab Ahmed's observation that the history of Islamic paideia has yet to be written *Islam as Education* explores multiple forms that the search for knowledge and the transmission of wisdom have taken in Islam focusing on the classical period 800-1500 CE Ghiloni draws on a wide range of Islamic primary source material ranging from sacred texts and parables to neglected pedagogical literature and paintings He depicts three Islamic religious practices pilgrimage prophecy and jihad as modes of pedagogy embodied ways of defining defusing and defending sacred knowledge *Islam as Education's* educational heuristic not only aids in understanding Islam but also provides guidance for intercultural and interreligious relations Ghiloni argues that Islam's grand knowledge tradition serves as a bridge between Muslims and non-Muslims and compares it with the educational theory of John Dewey the celebrated American pragmatist Based on this discussion a final chapter develops practical tools for learning from cultural and religious difference

Eagle's Nest Peter Willey, 2005-11-25 I B Tauris in association with the Institute of Ismaili Studies Magnificent castles and fortresses in remote mountainous regions were built for refuge by the Ismaili Muslims of Iran and Syria fleeing from persecution during the early middle ages Often superior in construction to those built by the Crusaders these castles withstood numerous offensives for over two centuries until the middle of the 13th century when most were captured and demolished by the Mongols In his new book Peter Willey describes the discoveries he made during the course of more than 20 expeditions to these Ismaili sites spanning the past forty years The book is exceptionally well illustrated with photographs maps and plans As well as being a piece of original scholarship it is also a readable personal account of the challenges encountered in expeditions to remote inaccessible and often hazardous locations

Contemporary Interpretation of Islamic Law Ahmed Affi, Hassan Affi, 2014 This book does not champion some of the popular misconceptions surrounding Islamic law It does not advocate stoning to death amputating the hands of thieves call for the death penalty for those who leave the fold of Islam or urge Muslims to save their souls from Hellfire by shunning bank loans for fear of incurring interest What it does advocate is less sensationalistic but it is in line with the real interpretation of Islamic law *Contemporary Interpretation of Islamic Law* is divided into thirteen chapters The majority of the

chapters concentrate on criminal aspects of Islamic law while the remainder concern themselves with social issues Each chapter where possible provides background information of the topic under discussion and then proceeds to analyse examine and critique the contentious parts of the topic looking at the arguments from all sides and the evidence put forward by each side before arriving at a conclusion The book is accompanied by a glossary Our work differs from other published titles on Islamic law as it takes into account the different aspects of the Qur'an The Qur'an employs many parables allegories and metaphors to highlight important messages for Mankind yet jurists often make the common mistake of either omitting or misinterpreting these devices resulting in inaccurate and often unlawful rulings which have direct and indirect effects on both Muslims and non Muslims alike It is hoped that our work will create a better understanding of the correct interpretation of the Qur'an and Islamic law says authors Ahmed Affi and Hassan Affi Contemporary Interpretation of Islamic Law will appeal to those with an interest in Islam and Islamic law though no specialist knowledge of Arabic or Islamic law is required
