Eckert,2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader For South Koreans the twenty years from the early 1960s to late 1970s were the best and worst of times a period of unprecedented economic growth and of political oppression that deepened as prosperity spread In this masterly account Carter J Eckert finds the roots of South Korea s dramatic socioeconomic transformation in the country s long history of militarization a history personified in South Korea s paramount leader Park Chung Hee In Park Chung Hee and Modern Korea Eckert reveals how the foundations

of Park's leadership were established during the period of Japanese occupation. As a cadet in the Manchurian Military Academy, Park and his fellow officers absorbed the Imperial Japanese Army's ethos of victory at all costs and absolute obedience to authority. When Park seized power in 1961, he applied this ethos to the project of Korean modernization. Korean society under Park exuded a distinctively martial character. Eckert shows its hallmarks included the belief that the army should intervene in politics in times of crisis, that a central authority should manage the country's economic system, and that the state should maintain a strong disciplinary presence in society, reserving the right to use violence to maintain order. A milestone in the literature of modern East Asia, Bruce Cumings' author of *Korea's Place in the Sun*.

A History of Korea
Michael J. Seth, 2010-10-16 In this comprehensive yet compact book, Michael J. Seth surveys Korean history from Neolithic times to the present. He explores the origins and development of Korean society, politics, and its still little-known cultural heritage from their inception to the two Korean states of today. Telling the remarkable story of the origins and evolution of a society that borrowed and adopted from abroad, Seth describes how various tribal peoples in the peninsula came together to form one of the world's most distinctive communities. He shows how this ancient, culturally and ethnically homogeneous society was wrenched into the world of late nineteenth-century imperialism, fell victim to Japanese expansionism, and then became arbitrarily divided into two opposed halves, North and South, after World War II. Tracing the past seven decades, the book explains how the two Koreas, with their deeply different political and social systems and geopolitical orientations, evolved into sharply contrasting societies. South Korea, after an unpromising start, became one of the few postcolonial developing states to enter the ranks of the first world, with a globally competitive economy, a democratic political system, and a cosmopolitan and dynamic culture. North Korea, by contrast, became one of the world's most totalitarian and isolated societies, a nuclear power with an impoverished and famine-stricken population. Seth describes and analyzes the radically different and historically unprecedented trajectories of the two Koreas, formerly one tight-knit society. Throughout, he adds a rich dimension by placing Korean history into a broader global perspective and by including primary readings from each era. All readers looking for a balanced, knowledgeable history will be richly rewarded with this clear and concise book.

[The Political Economy of Korea](#)
J. Uttam, 2014-12-10 Korea's twin transitions, agrarian to industrial and industrial to post-industrial, transformed the country's political economy. Moving away from the traditional focus on aspects such as market culture and colonialism, the author argues that Korea's second state was revitalized through the people's movement and citizens' movement.

Urban Renewal in Central Seoul
Hyung Min Kim, 2024-07-05 Kim details a brief history of urban renewal in central Seoul through articulating urban planning paradigm shifts. This book illustrates four main themes in central Seoul: the restoration of the Cheonggye stream, the redevelopment of the Sewoon Plaza, the enhancement of walkability and public transport networks, and history-centred urban renewal. Urban renewal is seen as a remedy for urban sprawl and is appreciated for its capacity to make use of pre-existing infrastructure and cultural assets in high-density urban

areas However it faces critical challenges such as fragmented property ownership and escalated land prices in comparison with peri urban areas The book focuses on how planning policies have shaped the urban renewal process in central Seoul South Korea Spatial development policies for central Seoul have been changed from modern transport facilities post war reconstruction informality industrialisation to walkability sustainability and social cohesion in line with economic restructuring In recent times there has been a significant change in thinking towards creating public spaces for walking preserving historical sites and heritage and maintaining green spaces These interconnected topics contribute to understanding the complexity of urban renewal This book is a useful read for researchers on urban planning and policies who are keen to understand the complicated process of urban renewal and ways to revitalise economic and human activities and transform built environments

Modern Korea and Its Others Vladimir Tikhonov, 2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea during which understandings of modernity were largely shaped by the images of Korea's neighbours to the east west and north China Japan and Russia represented at some moments modern threats but also denoted a range of alternative modernity possibilities and ultimately provided a model for Korea's pre colonial and colonial modernity This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945 It shows that Korea's modern nationalism was at the same time internationalist in its orientation as the vision of Korea's ideal place in the world and brighter national future was often linked to the examples positive and negative threats perceived and real and allies abroad Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms it offers nuance to the existing picture of the international connections and environment of the Korean national movements It shows that the picture of Japan inside the anti Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders modern achievements of Japan were admired even by anti colonial nationalists as a possible model for Korea The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum Introducing new sources presented in English for the first time and including themes such as race and ethnicity global revolution and gender this book will be of great interest to students and scholars of Korean East Asian and Russian history as well as historians of the colonial modern era more generally
