## **Manual Of Buddhism 1853:**

The Making of Buddhist Modernism David L. McMahan, 2008-11-14 In this book David McMahan charts the development of modern Buddhism. He presents modern Buddhism as a complex historical process constituted by a variety of responses to some of the most important concerns of the modern era. *The Buddha* Philip C. Almond, 2023-11-30 Alongside Jesus and Muhammad the Buddha is the most significant figure in the history of religion. Philip Almond's engaging new book is the first to combine a history of early traditions about Siddhartha Gautama's life with an authoritative account of how he and the tantalizing philosophy inspired by him came to the attention of the West. It takes the reader on a remarkable journey encompassing among other topics Alexander the Great, the courts of the Mongol Khans, Jesuit missions to China and Japan, and intrepid European travellers and scholars from the modern era. Melding Pali and Sanskrit sources with vivid reception, Almond presents the Buddha's story as multi-layered, one of transition from a world of angels and demons, water and tree spirits to an altogether different context where Buddhism mixed with the cultural preoccupations of those who tentatively, sometimes following false trails, tried to make sense of its fascinating complexity. **A Manual of Buddhism** R. Spence Hardy, 2014-03 This is a new release of the original 1853 edition. Subject-index to the author-catalogue. 1908-10. 2 v Imperial Library, Calcutta, 1908. **Spirit Matters** J. Jeffrey Franklin, 2018-03-15 Spirit Matters explores the heterodox and unorthodox religions and spiritualities that arose in Victorian Britain as a result of the faltering of Christian faith in the face of modernity, the rise of the truth-telling authority of science, and the first full exposure of the West to non-Christian religions. J. Jeffrey Franklin investigates the diversity of ways that spiritual seekers struggled to maintain faith or to create new faiths by reconciling elements of the Judeo-Christian heritage with Spiritualism, Buddhism, occultism, and scientific naturalism. Spirit Matters covers a range of scenarios from the Victorian hearth and the state Church altar to the frontiers of empire in Buddhist countries and Egyptian crypts. Franklin reveals how this diversity of elements provided the materials for the formation of new hybrid religions and the emergence in the 20th century of New Age spiritualities. Franklin investigates a broad spectrum of experiences through a series of representative case studies that together trace the development of unorthodox religious and spiritual discourses. The ideas and events discussed by Franklin through these case studies were considered outside the domain of orthodox religion yet still religious or spiritual rather than atheistic or materialistic. Among the works, obscure and canonical, he analyzes are Edward Bulwer-Lytton's *Zanoni* and *A Strange Story*, Forest Life in Ceylon by William Knighton Anthony Trollope's *The Vicar of Bullhampton*, Anna Leonowens's *The English Governess at the Siamese Court*, *Literature and Dogma* by Matthew Arnold, and Bram Stoker's *Dracula*. *Two Essays by Arthur Schopenhauer* Arthur Schopenhauer, 1891. **Coleridge, Romanticism and the Orient** David Vallins, Kaz Oishi, Seamus Perry, 2013-08-08 While postcolonial studies of Romantic period literature have flourished in recent years, scholars have long neglected the extent of Samuel Taylor Coleridge's engagement with the Orient in both his literary and philosophical writings. Bringing together

leading international writers Coleridge Romanticism and the Orient is the first substantial exploration of Coleridge's literary and scholarly representations of the east and the ways in which these were influenced by and went on to influence his own work and the orientalism of the Romanticists more broadly Bringing together postcolonial philosophical historicist and literary critical perspectives this groundbreaking book develops a new understanding of Orientalism that recognises the importance of colonial ideologies in Romantic representations of the East as well as appreciating the unique forms of meaning and value which authors such as Coleridge associated with the Orient

Theravada Buddhism and the British Encounter Elizabeth Harris, 2006-04-18 This major new work explores the British encounter with Buddhism in nineteenth century Sri Lanka examining the way Buddhism was represented and constructed in the eyes of the British scholars officials travellers and religious seekers who first encountered it Tracing the three main historical phases of the encounter from 1796 to 1900 the book provides a sensitive and nuanced exegesis of the cultural and political influences that shaped the early British understanding of Buddhism and that would condition its subsequent transmission to the West Expanding our understanding of inter religious relations between Christians and Buddhists the book fills a significant gap in the scholarship on Theravada Buddhism in Sri Lanka by concentrating on missionary writings and presenting a thorough exploration of original materials of several important pioneers in Buddhist studies and mission studies

Buddha's Life and Teaching Hermann Beckh, 2019-04-25 The book before us here is not some kind of dusty text or just another undergraduate level introduction to Buddhism It is nothing less than the still clear luminous centre of a hurricane Neil Franklin from the Foreword Although this classic text is more than one hundred years old its accurate scholarship detailed research and lucid presentation make it no less relevant today than when it was first published In 1916 Hermann Beckh was one of a handful of leading European authorities on Buddhist texts reading Tibetan Sanskrit and Pali fluently At the same time he was a member of the Anthroposophical Society and its Esoteric Section In consequence Beckh's seminal study on Buddhism has an entirely unique quality It invites the reader to engage freely with the Buddhist Path although in many ways re-expressed and renewed by Rudolf Steiner whilst discovering its universal validity through the original texts For the most part Beckh allows these texts to speak for themselves as eloquently now as ever In the first section Beckh presents Gautama Buddha's life from legend and history The second part of the book details the general viewpoints of Buddhist teaching and the individual stages of the Buddhist Path including meditation to ever higher levels Both sections are expertly collated out of a wide knowledge of the primary sources To this academic understanding Beckh sheds new light on the subject from his own research based on highly trained meditation guided by Rudolf Steiner with whom he carried out a long lasting correspondence that has only recently been uncovered Dr Katrin Binder has rendered the complete German text in a natural English idiom with great accuracy and professional insight thereby making this timeless book available to English readers for the first time in a lucid
