**THE "BOOMERS" ARE COMING** Jerry Rhoads,2012-12-10 The foundation of democracy is the pursuit of the Greater Good As a country we pursue what is good for most of the people most of the time But that is not our approach for the care of our elderly Of the 330 million people in America 77 million are baby boomers In the next 10 years a staggering majority of them turned 60 Even though it would be for the Greater Good of America there are no provisions for taking care of these aging lives There are only time bombs Currently there are 2 3 million falls per year among the elderly in nursing homes There will be 80 million per year when the baby boomers come of nursing home age On the average baby boomers will have 4 to 5 chronic illnesses by the time they are 65 that equates to 350 million chronic conditions 77 million families will be impacted by the disabilities and chronic conditions imposed on them by aging baby boomers 77 million households are not

equipped and never will be to handle chronic illnesses and dependent lives 77 trillion dollars will be imposed annually on the budgets of State and Federal Governments to care for the aging boomers The 46 million uninsured will become 100 million as the baby boomers become retirement age and unemployed There are currently 1 7 million nursing home patients in 18 000 nursing homes and 4 million assisted living residents in 23 000 assisted living facilities We will need 12 times as many nursing homes and 15 times as many assisted living facilities to handle the 77 million baby boomers in a supportive setting 2 million physicians 2 million nurses 7 500 hospitals and 750 000 other health professionals cannot handle the needs of 77 million aging baby boomers But they do want their share of the health care dollars Making the radical change from health maintenance to prevention and health preservation would serve the greater good and make more Medicare money available On top of these time bombs we have 77 million high expectations If we are expecting these 77 million baby boomers to just accept nursing homes and assisted living as they are think again They tend to be dependent on others for their approach to health care and generally are not staying healthy nor are they schooled on preserving their health and do not pay more for poor health Compounding this their health care providers are not schooled in detecting cause or in pursuing measurable outcomes But they are paid regardless of results
