Technotopia Clemens Apprich, 2017-10-05 Many technologies and practices that define the Internet today date back to the 1990s such as user generated content participatory platforms and social media Indeed many early ideas about the future of the Internet have been implemented albeit without fulfilling the envisioned political utopias By tracing back the technotopian vision Clemens Apprich develops a media genealogical perspective that helps us to better understand how digital networks have transformed over the last 30 years and therefore to think beyond the current state of our socio technical reality This highly original book informs our understanding of new forms of media and social practices such that have become part of our everyday culture Apprich revisits a critical time when the Internet was not yet an everyday reality but when its potential was already understood and fiercely debated The historical context of net cultures provides the basis from which the author critically engages with current debates about the weal and woe of the Internet and challenges today s

predominant network model *Globalization* Andrew Jones, 2010-07-13 *Globalization Key Thinkers* offers a critical commentary on the leading thinkers in the contemporary globalization debate as well as new arguments about the future direction of globalization thinking The book guides the reader through the key arguments of leading thinkers explaining their place in the wider globalization debate and evaluating their critical reception Eleven thematic chapters focus on one or two key thinkers covering every aspect of the globalization debate including the theoretical arguments of Anthony Giddens and Manuel Castells to the positive arguments of Thomas Friedman and Martin Wolf and the reforming ideas of Joseph Stiglitz Other chapters variously address the ideas of Immanuel Wallerstein Arjun Appadurai Paul Hirst Naomi Klein Grahame Thompson David Held Anthony McGrew Michael Hardt Antonio Negri Saskia Sassen and Peter Dicken Each chapter also provides some carefully selected recommendations for further reading for the thinkers discussed The book ends with a concluding chapter that examines how thinking about globalization is likely to develop in future Whilst individual chapters can stand alone the book is designed as a whole to enhance the reader's understanding of how different thinkers' ideas relate and contrast to each other **End of Millennium** Manuel Castells, 1998-02-11 The final volume in Manuel Castells' trilogy is devoted to processes of global social change induced by interaction between networks and identity *Social Theory of Modern Societies* David Held, John Brookshire Thompson, John B. Thompson, 1989-12-07 This book offers a comprehensive appraisal of the work of Anthony Giddens who is known worldwide as one of the leading figures in social theory and the social sciences During the last decade Giddens has published a series of substantial volumes which have defined a distinctive and original theoretical approach The twin focal points of his approach are the theory of structuration and the analysis of modernity Giddens's writings on these and related themes are widely recognized as among the most important contributions to theoretical debate in the social sciences *Social Theory of Modern Societies* is the first volume to provide a systematic and critical assessment of Giddens's contributions The volume includes eleven critical essays all of which were specially commissioned for this volume by authors who are well known in their own fields Zygmunt Bauman Richard J Bernstein Derek Gregory Nicky Gregson David Held Bob Jessop Linda Murgatroyd Peter Saunders Martin Shaw John B Thompson and Erik Olin Wright In a long concluding chapter Anthony Giddens responds to the criticisms raised by these and other authors clarifying and elaborating his current views The result is a unique and engaging book which gives both a critical evaluation of Giddens's work and a guide to some of the theoretical issues which are at the forefront of the social sciences today It will be of interest to students and academics in sociology politics and geography and to students in the social sciences and humanities generally **Manuel Castells** Manuel Castells, CHET., 2000 **Theories of the Information Society** , **My First Recession** Geert Lovink, 2003 *My First Recession* starts when the party is over This study maps the transition of critical Internet culture from the mid to late 1990s Internet craze to the dotcom crash the subsequent meltdown of global financial markets and 9 11 In his discussion of the dotcom boom and bust cycle Geert Lovink lays out the challenges faced by

critical Internet culture today In a series of case studies Lovink meticulously describes the ambivalent attitude that artists and activists take as they veer back and forth between euphoria and skepticism As a part of this process Lovink examines the internal dynamics of virtual communities through an analysis of the use of moderation and collaborative filtering on mailing lists and weblogs He also confronts the practical and theoretical problems that appear as artists join the growing number of new media education programs Delving into the unexplored gold mines of list archives and weblogs Lovink reveals a world that is largely unknown to both the general public and the Internet visionaries
