Manuscripts Sacred And Secular:

Manuscripts, Sacred and Secular Endowment for Biblical Research, 1985 **The Instrumental Consort Repertory of the Late Fifteenth Century** Jon Banks, 2006 After a rigorous examination of the criteria by which music of this period may be judged to be instrumental Jon Banks isolates all such pieces and establishes them as an explicit genre alongside the more commonly recognized vocal forms of the period The distribution of these pieces in the manuscript and early printed sources of the time demonstrate how central instrumental consorts were to musical experience in Italy at this time Banks also explores the social background to Italian music making and particularly the changing status of instrumentalists with respect to other musicians This book restores an impressive but largely overlooked consort repertory to its rightful place in the history of music **Les Manuscrits de Chrétien de Troyes** Keith Busby, 1993 Manuscripts, Texts, Theology David C. Parker, 2009-07-14 David C Parker is one of the world's foremost specialists in the study of the New Testament text and of Greek and Latin manuscripts In addition to editions monographs and more popular writings he has published many articles on different aspects of textual criticism This volume brings together twentyfive of them in a revised and updated version The collection is divided into three topics The first deals with manuscript studies As well as three very different studies of Codex Bezae there are articles and reports on individual manuscripts and classes of manuscripts and reports on visits to libraries The second section has the theme of textual criticism It includes broader studies dealing with the theory of the discipline and more detailed discussions of particular problems including translations into Latin techniques for grouping Greek manuscripts and the comparison of modern editions The third section contains papers in which Parker has discussed the often overlooked relationship between textual criticism and theology These studies explore particular textual problems and their wider significance and cover topics as varied as Jesus and Textual Criticism Calvin's Biblical Text and The Early Tradition of Jesus Sayings on Divorce **Medieval Manuscripts and Their Provenance** A S G Edwards, 2024-07-02 Essays about the creation circulation and collection of medieval manuscripts The essays collected here celebrate the work of Barbara Shailor the distinguished scholar of medieval manuscripts They explore various aspects of their provenance The subjects addressed range from studies of the history of individual manuscripts to the evidence afforded by the understanding of their textual traditions to the significance of the identification of fragments to the roles of individual scholars and collectors As a whole the volume contributes to a wider understanding of how the history and ownership of medieval manuscripts can be fruitfully examined a flourishing area of interest in the field **Harley manuscript geographies** Daniel Birkholz, 2020-06-30 This study brings new methodologies of literary geography to bear upon the unique contents of a codex known as British Library MS Harley 2253 The Harley manuscript was produced upon England's Welsh March by a scribe whose generation died in the Black Death It contains a diverse set of writings love lyrics and devotional literature political songs and fabliaux saints lives courtesy texts bible stories and travelogues These works alternate between languages Middle English Anglo Norman and

Latin but operate in conversation with one another The introduction explores how this fragmentary miscellany keeps being sutured into wholeness by commentary upon it Individual chapters examine different genres and social groupings and demonstrate that there are many Harley landscapes still waiting to be discovered It will be of great value to those studying literary history medieval studies cultural geography gender studies Jewish studies and book history

Variants and Variance in Classical Textual Cultures Glenn W. Most, 2024-08-19 Given the limited durability of most textual supports texts must be reproduced if they are to survive And given the proliferation over time of users practices and places which need to have access to the texts that are important for cultural institutions this is particularly true for authoritative texts But the reproduction of texts by traditional means either orally or by hand inevitably produces variations These variations can arise because of inattention confusion misunderstanding deliberate modification physical damage and many other factors In general the more a text is reproduced the more variations are likely to occur But although the fact of textual variation in general is doubtless an anthropological universal the specific forms it takes and the specific attitudes to its occurrence seem to vary widely from culture to culture How variations develop in different cultures on the basis of which forms of scholarly practices collaborations and institutional frameworks what variants say about a culture's understandings of text authorship and collective authorship what happens when variants become creative and generate their own strands of tradition to what degree changes in transmission media and processes of distribution translations or the migration of texts into different cultural or institutional contexts can influence or be influenced by the development of variants these are the questions that this book addresses in a historical and culturally comparative perspective

One-Volume Libraries: Composite and Multiple-Text Manuscripts Michaela Friedrich, Cosima Schwarke, 2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i.e. they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses

Silver and Society in Late Antiquity Ruth E. Leader-Newby, 2017-05-15 The spectacular hoards of late antique silver Mildenhall Thetford Seacroft discovered since the middle of the last century have aroused much interest in this luxury art form But what did these pieces mean to their owners and why was silverware so

important in late antiquity Silver and Society in Late Antiquity examines such questions through an integrated synthetic analysis of the history of silver in the Roman empire between 300 and 650 AD focusing upon the cultural significance of this luxury art form in all its different manifestations sacred imperial and domestic Ruth Leader Newby looks at a wide range of objects from both the eastern and western halves of the Roman empire including Britain in order to determine silver's role in the wider sphere of late antique visual culture asking questions about the relative significance of individual forms of artistic production and their relationship with each other In doing so key issues for the artistic and cultural history of late antiquity are raised the use of the imperial image the visual construction of the sacred in Christianity the cohesive social role of elite intellectual culture and the Christianization of the domestic sphere As this book demonstrates when studied in its historical context silver can substantially enrich our understanding of late Roman art and culture **The Berkeley Manuscript**

The Rise of European Music, 1380-1500 Reinhard Strohm, 2005-02-17 This is a detailed and comprehensive survey of music in the late middle ages and early Renaissance By limiting its scope to the 120 years which witnessed perhaps the most dramatic expansion of our musical heritage the book responds in the 1990s to the tremendous increase in specialised research and public awareness of that period Three of the four main Parts I II IV describe the development of polyphony and its cultural contexts in many European countries from the successors of Machaut d 1377 to the achievements of Josquin des Prez and his contemporaries working in Renaissance Italy around 1500 Part III by contrast illustrates the musical life of the institutions and musical practices outside the realm of composed polyphony that were traditional and common all over Europe The book proposes fresh views in each chapter discussing dozens of musical examples adducing well known and hitherto unknown documents and referring to and evaluating the most recent scholarship in the field

The Making of the Bibles MoralisŽes: Volume I: The Manuscripts , Monteverdi and his Contemporaries Tim Carter, 2024-10-28 This collection of reprinted essays takes the trends of the author s Music Patronage and Printing in Late Renaissance Florence also in the Variorum series in a somewhat different direction If the focus there was primarily on archival documents here it is on the actual music The starting point is similar the rise of the new music for solo voice and basso continuo in late sixteenth and early seventeenth century Florence in particular the songs of Giulio Caccini But it moves on to broader aesthetic issues crystallized in contemporary theoretical

debate and musical practice not least the rise of aria based styles and concludes with a series of studies of Claudio Monteverdi's works for the theatre including the operas *Il ritorno d'Ulisse in patria* 1640 and the ever problematic *L'incoronazione di Poppea* 1643
