Ogilvy, 2002-04-11 As a founder and managing director of Global Business Network James Ogilvy helped develop the technique of scenario planning which has become an integral part of strategic thinking in both business and government Now Ogilvy shows how we can use this cutting edge method for social change in our own neighborhoods In *Creating Better Futures* Ogilvy presents a profound new vision of how the world is changing and how it can be changed for the better Ogilvy argues that self defined communities rather than individuals or governments have become the primary agents for social change Towns professional associations and interest groups of all kinds help shape the future in all the ways that matter most from schools and hospitals to urban development The key to improvement is scenario planning a process that draws on groups of people both lay and expert to draft narratives that spell out possible futures some to avoid some inspiring hope Scenario planning has revolutionized both public and private planning leading to everything from the diverse product lines that have revived the auto industry to a timely decision by the state of Colorado to avoid pouring millions into an oil shale industry that never materialized But never before has anyone proposed that it be taken up by society as a whole Drawing on years of experience in both academia and the private sector where he developed both a keen sense of how businesses work best and an abiding passion for changing the world James Ogilvy provides the tools we need to create better communities better health better education better lives

*The Adult Development of C.G. Jung (RLE: Jung)* John-Raphael Staude, 2014-07-17 Originally published in 1981 this study presents Jung's theory of adult personality development and analyses and interprets in its biographical and historical context the genesis and development of Jung's theory of the individuation process Dr Staude argues that an in depth study of Jung's life offers insights into the patterns and processes of adult development and he focuses particularly on Jung's writings during and immediately after his mid life transition He shows how Jung articulated his hard won insights into adult development in his books and essays and into his analytic practice and considers how Jung's developmental theory relates to the changes he experienced in his own life and in his socio historical environment Dr Staude concludes that Jung's emphasis on impersonal universals of human psychic development complements and supplements the personal emphasis of ego development theory and provides the foundations for a more holistic understanding of adult developmental psychology

Fuller, 2010 By the author of the bestselling Some bodies and Nobodies Overcoming the Abuse of Rank Argues that rankism abuse of the power that comes with superior rank does serious damage to our private relationships and public institutions Details how to design social institutions that overcome rankism and protect human dignity Learn more at [www.BreakingRanks.net](http://www.BreakingRanks.net) In his groundbreaking book Some bodies and Nobodies Robert Fuller identified a form of domination that everyone has experienced but few dare to protest rankism abuse of the power inherent in rank to exploit and humiliate someone of lower rank It plays a role in just about every form of social oppression n racism sexism homophobia and religious intolerance all have a significant element of rankism in them Most everyone has felt the sting of rankism at the hands of a dictatorial boss a condescending teacher an arrogant doctor or an imperious bureaucrat But equally most everyone has inflicted it on someone of lower rank That we are all of us both victims and perpetrators of rankism mandates a novel multifaceted strategy for confronting it Fuller isn't proposing that we do away with rank without it organizations become dysfunctional He's not advocating an egalitarian society where all are equal in rank but rather a dignitarian one where all are equal in dignity a society in which rank holders are held accountable rankism is shunned and dignity is broadly protected In All Rise Fuller lays the groundwork for a dignitarian society by delineating the scope and impact of rankism and then shows how a dignitarian movement can defeat it by addressing issues such as What

would workplaces schools health care organizations politics religion and international relations look like if they were to embody dignitarian values What policies could we develop to defend dignity in our various social institutions How can we embody these principles in our lives and create a culture of universal dignity All Rise offers hope and practical solutions for fashioning a world where human relationships are governed by respect and every person's right to dignity is affirmed

**"Four Mighty Ones are in Every Man"** Dóra Janzer Csikós, 2003 The dissertation focuses on one of the most debated prophecies of Blake The Four Zoas The approach is basically psychological and before the main thesis is elaborated a brief survey is given about the most frequently studied parallels such as Freud and Jung The dissertation then proceeds to examine a new aspect a parallel is drawn between the hypotheses of Lipot Szondi disciple to Freud and Blake's visionary

universe Szondi's System of Drives helps illuminate several questionable passages of Blake's dream vision furthermore as the parallel points out an interesting change is discernible in Blake's concepts about Enlightenment and Rationalism whereby the previously rejected ideas become integrated into a fourfold world of wholeness and intellectual sanity
