## **Many Sides Of A Woman's Heart:**

**Many Sides of a Woman's Heart** Brenda Hunter, 1997-04 Psychologist and internationally published author Brenda Hunter recognizes that today's busy women need richer relationships with their mothers, daughters and friends and expert advice to help them face the challenge of finding a balance between career and family. This volume brings together two timely and compassionate books that address both issues. In *The Company of Women and Home by Choice* Dr Hunter provides methods for a woman to build life sustaining relationships with the important women in her life and reveals the latest research about the impact of a mother's presence in her child's life. **A Woman's Heart**, The Woman's Heart John A. Elefteriades, 2010-08-27 If you ask the average American what the leading cause of mortality in women is most would probably guess breast cancer. In fact heart disease is the 1 killer of women and more women die each year from heart disease than men. Moreover the symptoms of heart problems in women are very different from those in men making detection more difficult. In this invaluable and engaging guide to the woman's heart two leading heart specialists focus on the unique factors affecting women's cardiovascular health. Writing in language that is completely accessible to the general reader they provide crucial potentially life saving information and guidance to help women monitor their own heart health. Among the topics discussed in clear easy to follow language are: In what ways is a woman's heart different from a man's? How do pregnancy and childbirth affect the heart and circulation? What are the symptoms of heart disease in women? What are the most prevalent diseases of the heart among women including mitral valve prolapse and how dangerous are they really? What cardiac tests should women be taking? When are medications enough and when is surgery necessary? How is the heart affected by menopause and aging? What are the future prospects for improving heart health and treatment for women? For both healthy women and those already coping with heart disease this comprehensive owner's manual on the female heart provides essential information for living life to its fullest. John A Elefteriades MD New Haven CT is the William W L Glenn Professor of Cardiothoracic Surgery, chief of cardiothoracic surgery and professor of surgery at Yale University School of Medicine and Yale New Haven Hospital. He is a past president of the International College of Angiology and serves on the editorial board of the American Journal of Cardiology, the Journal of Cardiac Surgery and Cardiology. The winner of the prestigious Socrates Award for the teaching of cardiac surgery he is the author with Lawrence S Cohen MD of *Your Heart: An Owner's Guide* and *House Officer Guide to ICU Care*. Teresa Caulin Glaser MD FACC Columbus OH is Director of Preventive Cardiology and Research at the McConnell Heart Health Center, Riverside Methodist Hospital, OhioHealth and a clinical associate professor of Internal Medicine at Ohio State University. She is the coauthor of four medical textbooks and numerous journal articles.

**A Woman's Heart** Angela Maas, 2020-09-24 DID YOU KNOW women are 50% more likely to be misdiagnosed following a heart attack more than twice as many women die from coronary heart disease than from breast cancer in the UK two thirds of clinical research into heart disease focuses on men. Coronary heart disease remains the single biggest killer of women.

worldwide yet it is still not seen as a woman's problem Every day the female heart patient is measured by male standards which leads to confusion unclear diagnosis and often the wrong treatment In fact women are incomparable to men down to each body cell which has consequences for both health and disease When it comes to medical science cardiology is the most prominent example in which gender matters In *A Woman's Heart* Professor Maas explores how the female heart works and provides practical advice for women including The biology of the female heart how it works and ages differently to a male's The effects of female specific issues such as menopause Heart attacks in women Lifestyle tips to prevent heart disease This vital book is the result of decades of international research It exposes the gender bias in cardiology and paves the way for better heart health for women everywhere **Every Woman's Encyclopaedia**, 1912 Other Men's Minds, Or, Seven

Anthony, 2021-12-10 History of Woman Suffrage Volume III Matilda Joselyn Gage Elizabeth Cady Stanton Susan B Anthony The labors of those who have edited these volumes are not only finished as far as this work extends but if three score years and ten be the usual limit of human life all our earthly endeavors

must end in the near future After faithfully collecting material for several years and making the best selections our judgment has dictated we are painfully conscious of many imperfections the critical reader will perceive But since stereotype plates will not reflect our growing sense of perfection the lavish praise of friends as to the merits of these pages will have its antidote in the defects we ourselves discover We may however without egotism express the belief that this volume will prove specially interesting in having a large number of contributors from England France Canada and the United States giving personal experiences and the progress of legislation in their respective localities One of the greatest minds of the century has thrown a ray of light on this gloomy picture by tracing the origin of woman s slavery to the same principle of selfishness and love of power in man that has thus far dominated all weaker nations and classes This brings hope of final emancipation for as all nations and classes are gradually one after another asserting and maintaining their independence the path is clear for woman to follow The slavish instinct of an oppressed class has led her to toil patiently through the ages giving all and asking little cheerfully sharing with man all perils and privations by land and sea that husband and sons might attain honor and success Justice and freedom for herself is her latest and highest demand Another writer asserts that the tyranny of man over woman has its roots after all in his nobler feelings his love his chivalry and his desire to protect woman in the barbarous periods of pillage lust and war But wherever the roots may be traced the results at this hour are equally disastrous to woman Her best interests and happiness do not seem to have been consulted in the arrangements made for her protection She has been bought and sold caressed and crucified at the will and pleasure of her master But if a chivalrous desire to protect woman has always been the mainspring of man s dominion over her it should have prompted him to place in her hands the same weapons of defense he has found to be most effective against wrong and oppression It is often asserted that as woman has always been man s slave subject inferior dependent under all forms of government and religion slavery must be her normal condition This might have some weight had not the vast majority of men also been enslaved for centuries to kings and popes and orders of nobility who in the progress of civilization have reached complete equality And did we not also see the great changes in woman s condition the marvelous transformation in her character from a toy in the Turkish harem or a drudge in the German fields to a leader of thought in the literary circles of France England and America

**A Woman's Inheritance** Amanda Minnie Douglas, 1885

**The Diva's Ruby** Francis Marion Crawford, 1907-01-01 There is a ruby mine hidden in the heart of the mountains near a remote little city of Central Asia unknown to European travellers and the secret of the treasure belongs to the two chief families of the place and has been carefully guarded for many generations handed down through the men from father to son and often the children of these two families have married yet none of the women ever learned the way to the mine from their

fathers or their brothers or their husbands none excepting one only and her name was Baraka which may perhaps mean Blessed but no blessing came to her when she was born She was much whiter and much more beautiful than the other girls of the little Tartar city her face was oval like an ostrich egg her skin was as the cream that rises on sheep s milk at evening and her eyes were like the Pools of Peace in the Valley of Dark Moons her waist also was a slender pillar of ivory and round her ankle she could make her thumb meet her second finger as for her feet they were small and quick and silent as young mice But she was not blessed When she was in her seventeenth year a traveller came to the little city who was not like her own people he was goodly to see and her eyes were troubled by the sight of him as the Pools of Peace are darkened when the clouds lie on the mountain tops and sleep all day for the stranger was tall and very fair and his beard was like spun gold and he feared neither man nor evil spirit going about alone by day and night Furthermore he was a great physician and possessed a small book about the size of a man s hand in which was contained all the knowledge of the world By means of this book and three small buttons that tasted of mingled salt and sugar he cured Baraka s father of a mighty pain in the midriff which had tormented him a whole week He brought with him also a written letter from a holy man to the chiefs of the town therefore they did not kill him though he had a good Mauser revolver with ammunition worth much money and other things useful to believers
