Many And One A Social History Of The United States:

Social History of the United States Brian Greenberg, Linda S. Watts, Richard A. Greenwald, Gordon Reavley, Alice L. George, Scott Beekman, Cecelia Bucki, Mark Ciabattari, John C. Stoner, Troy D. Paino, Laurie Mercier, Andrew Hunt, Peter C. Holloran, Nancy Cohen, 2008-10-23 This ten volume encyclopedia explores the social history of 20th century America in rich authoritative detail decade by decade through the eyes of its everyday citizens Social History of the United States is a cornerstone reference that tells the story of 20th century America examining the interplay of policies events and everyday life in each decade of the 1900s with unmatched authority clarity and insight Spanning ten volumes and featuring the work of some of the foremost social historians working today Social History of the United States bridges the gap between 20th century history as it played out on the grand stage and history as it affected and was affected by citizens at the grassroots level Covering each decade in a separate volume this exhaustive work draws on the most compelling scholarship to identify important themes and institutions explore daily life and working conditions across the economic spectrum and examine all aspects of the American experience from a citizen s eye view Casting the spotlight on those whom history often leaves in the dark Social History of the United States is an essential addition to any library collection

Many and One Robert Cruden, 1980 The Early White Invaders Beginnings of the Black Community White Women in White America The Era of the Millionaire Blue Collar Militancy and Conservatism These chapter headings illustrate a sample of the subjects discussed in Many and One A Social History of the United States The book traces America s growth its successful revolt against the mightiest empire of the day its Civil War its freeing of slaves its welcome of refugees its civil and religious liberties its industrial giants and its high standard of living These accomplishments in the land of opportunity are contrasted with the struggles of those who never made it the masses of the working poor who barely scraped by the folk who are supported by private charity or public funds and the rejects of society prostitutes prison inmates the mentally ill and those whose ideas do not meet with majority approval The material shows how America was no success story for many members of its society As the author explains This book is concerned largely with the history of those Americans who never made it It tells their story by setting it against the record of the successful Praise for the book has been lavish One reviewer writes This text is unusual in being so brisk and well written I have never seen another like it for pace and readability Another adds This is a very good manuscript The author writes with clarity with a respect for facts and with grace He appears to be very well read and up to date

The Social History of the American Family Marilyn J. Coleman, Lawrence H. Ganong, 2014-09-02 The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s The four volumes of The Social History of the American Family explore the vital role of the family as the fundamental social unit across the span of American history Experiences of family life shape so much of an individual s development and identity yet the patterns of family structure family life and family transition vary across time space and socioeconomic contexts Both

the definition of who or what counts as family and representations of the ideal family have changed over time to reflect changing mores changing living standards and lifestyles and increased levels of social heterogeneity Available in both digital and print formats this carefully balanced academic work chronicles the social cultural economic and political aspects of American families from the colonial period to the present Key themes include families and culture including mass media families and religion families and the economy families and social issues families and social stratification and conflict family structures including marriage and divorce gender roles parenting and children and mixed and non modal family forms and family law and policy Features Approximately 600 articles richly illustrated with historical photographs and color photos in the digital edition provide historical context for students A collection of primary source documents demonstrate themes across time The signed articles with cross references and Further Readings are accompanied by a Reader s Guide Chronology of American Families Resource Guide Glossary and thorough index The Social History of the American Family is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions *The Bookman* ,1906 *The Mississippi Valley Historical Review* ,1925 Includes articles and reviews covering all aspects of American history Formerly the Mississippi Valley Historical Review **Harper's Magazine** ,1926 **A Global Encyclopedia of Historical Writing** D.R. Woolf,2014-06-03 First published in 1998 Routledge is an imprint of Taylor Francis an informa company **The Social History of Crime and Punishment in America** Wilbur R. Miller,2012-07-20 Several encyclopedias overview the contemporary system of criminal justice in America but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems Thus this five volume work surveys the history and philosophy of crime punishment and criminal justice institutions in America from colonial times to the present It covers the whole of the criminal justice system from crimes law enforcement and policing to courts corrections and human services Among other things this encyclopedia explicates philosophical foundations underpinning our system of justice charts changing patterns in criminal activity and subsequent effects on legal responses identifies major periods in the development of our system of criminal justice and explores in the first four volumes supplemented by a fifth volume containing annotated primary documents evolving debates and conflicts on how best to address issues of crime and punishment Its signed entries in the first four volumes supplemented by a fifth volume containing annotated primary documents provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U S system of law and justice Resources in Education ,1998 A Social History of Racial Violence Allen D. Grimshaw, No topic has been discussed at greater length or with more vigor than the racial confrontations of the 1960s Events of these years left behind hundreds dead thousands injured and arrested property damage beyond toll and a population both outraged and conscience stricken Researchers have offered a variety of explanations for this largely urban violence Although many

Americans reacted as if the violence was a new phenomenon it was not Racial Violence in the United States places the events of the 1960s into historical perspective The book includes accounts of racial violence from different periods in American history showing these disturbing events in their historical context and providing suggestive analyses of their social psychological and political causes and implications Grimshaw includes reports and studies of racial violence from the slave insurrections of the seventeenth century to urban disturbances of the 1960s The result is more than a descriptive record Its contents not only demonstrate the historical nature of the problem but also provide a review of major theoretical points of view The volume defines patterns in past and present disturbances isolates empirical generalizations and samples the substantial body of literature that has attempted to explain this ultimate form of social conflict It includes selections on the characteristics of rioters on the ecology of riots and on the role of law in urban violence as well as theoretical interpretations developed by psychologists sociologists political scientists and other observers The resulting volume will help interested readers better understand the violence that accompanied the attempts of black Americans to gain for themselves full equality

The Congregationalist and Christian World ,1905 *Public Health Nursing ...* ,1921 **Army History** ,1992

Encyclopedia of Christianity in the United States George Thomas Kurian, Mark A. Lamport, 2016-11-10 From the Founding Fathers through the present Christianity has exercised powerful influence in the United States from its role in shaping politics and social institutions to its hand in inspiring art and culture The Encyclopedia of Christianity in the United States outlines the myriad roles Christianity has played and continues to play This masterful five volume reference work includes biographies of major figures in the Christian church in the United States influential religious documents and Supreme Court decisions and information on theology and theologians denominations faith based organizations immigration art from decorative arts and film to music and literature evangelism and crusades the significant role of women racial issues civil religion and more The first volume opens with introductory essays that provide snapshots of Christianity in the U S from pre colonial times to the present as well as a statistical profile and a timeline of key dates and events Entries are organized from A to Z The final volume closes with essays exploring impressions of Christianity in the United States from other faiths and other parts of the world as well as a select yet comprehensive bibliography Appendices help readers locate entries by thematic section and author and a comprehensive index further aids navigation **Global Labour History** Jan

Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000 *The Columbia History of Latinos in the United States Since 1960* David G.

Gutiérrez, 2004-07-20 Latinos are now the largest so called minority group in the United States the result of a growth trend that began in the mid twentieth century and the influence of Latin cultures on American life is reflected in everything from politics to education to mass cultural forms such as music and television Yet very few volumes have attempted to analyze or provide a context for this dramatic historical development The Columbia History of Latinos in the United States Since 1960 is

among the few comprehensive histories of Latinos in America This collaborative interdisciplinary volume provides not only cutting edge interpretations of recent Latino history including essays on the six major immigrant groups Mexicans Cubans Puerto Ricans Dominicans Central Americans and South Americans but also insight into the major areas of contention and debate that characterize Latino scholarship in the early twenty first century This much needed book offers a broad overview of this era of explosive demographic and cultural change by exploring the recent histories of all the major national and regional Latino subpopulations and reflecting on what these historical trends might mean for the future of both the United States and the other increasingly connected nations of the Western Hemisphere While at one point it may have been considered feasible to explore the histories of national populations in isolation from one another all of the contributors to this volume highlight the deep transnational ties and interconnections that bind different peoples across national and regional lines Thus each chapter on Latino national subpopulations explores the ambiguous and shifting boundaries that so loosely define them both in the United States and in their countries of origin A multinational perspective on important political and cultural themes such as Latino gender systems religion politics expressive and artistic cultures and interactions with the law helps shape a realistic interpretation of the Latino experience in the United States

Readers' Guide to Periodical Literature ,1910 **Annual Register** University of Chicago,1905 *Federal Probation* ,1962 **Reader's Guide to American History** Peter J. Parish,1997 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company
