Property rights after market liberalization reforms Ricardo Fort,2023-08-28 This book discusses the links between land access property rights and economic development analyzing the results and limitations of a public intervention Land Titling and Registration that constitutes one of the main instruments for contemporary land policy in Peru It attempts to provide a comprehensive analysis and discussion of the importance of institutions like land property rights in the context of market liberalization reforms In operational terms this means verifying whether land titling constitutes a necessary and or sufficient condition to promote investments and increase land values This book reveals that titling and registration can be considered as a necessary condition to improve investment opportunities when its implementation procedure is based on the recognition of previous informal land rights and community networks because its effect on the reduction of transaction costs at a regional level improves the dynamics of land markets and

facilitates the entrance of formal financial institutions A decentralized program is more likely to understand and correctly assess local conditions as well as to concentrate its work on poorer farmers confronting stronger limitations to acquire tenure security by other means Targeting must be applied also at the regional level identifying less developed areas that can benefit from the externality effects provided by increased levels of titling density The presence of other limitations that constrain the participation of small farmers in the formal credit market and the inability of titling to solve them by itself makes it difficult to consider this policy as a sufficient condition to improve the livelihood of poorer farmers Complementary policies that provide small farmers with the opportunity to increase their land holdings as well as the possibility to acquire insurance against negative shocks need urgent implementation

The Unobtrusive Relational Analyst Robert Grossmark, 2018-04-17 Psychoanalysts increasingly find themselves working with patients and states that are not amenable to verbal and dialogic engagement Such patients are challenging for a psychoanalytic approach that assumes that the patient relates in the verbal realm and is capable of reflective function Both the classical stance of neutrality and abstinence and a contemporary relational approach that works with mutuality and intersubjectivity can often ask too much of patients The Unobtrusive Relational Analyst introduces a new psychoanalytic register for working with such patients and states involving a present and engaged analyst who is unobtrusive to the unfolding of the patient's inner world and the flow of mutual enactments For the unobtrusive relational analyst the world and idiom of the patient becomes the defining signature of the clinical interaction and process Rather than seeking to bring patients into greater dialogic relatedness the analyst companions the patient in the flow of enactive engagement and into the damaged and constrained landscapes of their inner worlds Being known and companioned in these areas of deep pain shame and fragmentation is the foundation on which psychoanalytic transformation and healing rests In a series of illuminating chapters that include vivid examples drawn from his work with individuals and with groups Robert Grossmark illustrates the work of the unobtrusive relational analyst He reconfigures the role of action and enactment in psychoanalysis and group analysis and expands the understanding of the analyst's subjectivity to embrace receptivity surrender and companioning Offering fresh concepts regarding therapeutic action and psychoanalytic engagement The Unobtrusive Relational Analyst will be of great interest to all psychoanalysts and psychoanalytic psychotherapists

These Survivals Lynne Huffer, 2025-04-04 A collage style work in fragments Lynne Huffer's *These Survivals* brings together philosophy memoir poetry and original multimedia artworks to articulate an ethics of living on a devastated planet Focusing on climate change and mass species extinction Huffer approaches ruination through assemblages rendered in sharp edged prose vibrant

color images and experimental features that include black out poems weather reports and abecedarian essays She considers her struggles with everyday life and confronts the immensity of extinction across the expanse of geological time recognizing the self's insignificance in the context of the planet's 4.5 billion year existence As she moves across autobiographical political and literary registers her abiding theme is the repeated phrase the fragment remains while the whole crumbles At every turn Huffer insists on the fragmentary provisional nature of anything taken to be whole as well as the impartial conditions under which we write at times experienced as constraint and at others freedom Reveling in interruption obliquity and layering Huffer opens space for thought to emerge in unexpected and innovative ways ways that are grounded in the material practices of writing and living
