Chinese Marxism Adrian Chan, 2003-06-29 This groundbreaking study of Chinese Marxism examines the ideology and praxis of Marxism as it has developed in China from its earliest beginnings to current debates This is the first systematic full length analysis of the development and nature of Marxist ideology in China Adrian Chan challenges established scholarship in both the West and China which continues to be overshadowed by Cold War dogma and party orthodoxy respectively It has long been argued that Chinese Marxism was merely an offshoot of Soviet thought blended with ill defined traditional Chinese ideas Using previously neglected Chinese sources including newspapers political journals and communist party documents Chan refutes this Showing how the first Chinese revolutionaries were directly influenced by the writings of Marx Chinese Marxism argues that Bolshevism was a secondary influence on Chinese communist thought Mao himself drew upon Marxian themes in the creation of party orthodoxy In doing so he signalled his differences from Lenin and Stalin on important issues of theory and practice However not all party leaders accepted this Marxian praxis This has led to continuous conflict between proponents of Maoist Marxism and Soviet type scientific Marxism Leninism Chinese Marxism presents detailed studies of the Great Leap Forward and the Cultural Revolution to illustrate the consequences of this ongoing ideological conflict and brings the story up to the present day with an analysis of the current Thermidorean Reaction and the controversial embracing of Confucianism

The Image of China in Western Social and Political Thought D. Jones, 2001-10-16 David Martin Jones examines how China has been portrayed in European and subsequently North American social and political thought and what if anything this depiction tells us about the character of this thought Such a question immediately evokes the spectre of orientalism and subsequent chapters explore whether the identification of an orientalist project invalidates the knowledge claims of European and North American social and political thought as it evolved from the eighteenth to the twentieth century

Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945 Nick Knight, 2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers Qu Qiubai Ai Siqi Li Da and Mao Zedong Two of these philosophers Qu and Mao were also political activists and leaders but their contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction elaboration

and dissemination proceeded Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it By the same token each of these philosophers took philosophy seriously each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism

Urbanization in China Richard J R Kirkby, 2018-01-12 Originally published in 1985 Urbanisation in China is based on extensive original research and fieldwork considers the whole problem of urbanisation in China Starting with an outline of the pre communist legacy the author traces population changes and urban growth throughout the communist period assesses policies aimed at restricting urban growth and contrasts the reality of urban China with the image the authorities have tried to project The policy changes that occurred following the death of Mao are analysed and concludes with a consideration of likely developments up to the end of the century

China and Africa Ian Taylor, 2007-01-24 With China's rise to the status of world power trade and political links between Africa and China have been escalating at an astonishing rate Ian Taylor an expert in this field gives a comprehensive assessment of relations between China and Africa

Democracy and Organisation in the Chinese Industrial Enterprise (1948-1953) William Brugger, 2010-06-10 Originally published in 1976 this book examines how a new system of factory management was implemented in China after the liberation of 1948 9 At that time the Chinese Communist Party attempted to integrate a commitment to broad participation in management by industrial workers with a rigid system of control deriving from the Soviet Union The integration was not accomplished successfully and the events of the period 1948 53 discussed by Dr Brugger set the stage for the rejection of the Soviet model in the mid 1950s The focus of the book is broadly political and sociological rather than economic and the author examines closely the political background against which economic change was introduced This book formed part of a growing genre of writing which rejected earlier assumptions of an uncritical acceptance in China of models of industrialism imported from the Soviet Union

Carl Schmitt, Mao Zedong and the Politics of Transition Qi Zheng, 2015-10-22 This book develops a new way of reading and benefiting from Schmitt's legal and

political theories It explores Schmitt's theories from the perspective of what I refer to as the politics of transition It also contributes to identifying the real theoretical relationship between Schmitt and Mao

China's Role in World Affairs

Michael B. Yahuda, 2025-03-03 First published in 1978 China's Role in World Affairs analyses China's foreign policy within a framework suggested by the conceptualisation of the outside world and China's place within it as articulated and acted upon by China's leaders Divided into two parts the book discusses China's role as an ally of the Soviet Union and as an independent socialist system following the Sino-Soviet rupture The main operational concepts and themes of China's foreign policy are also traced Of particular interest is the conflict between those leaders in the early 1960s who still believed that China should be linked with the Soviet Union and those who like Mao thought of China's role as an independent socialist country leading an internationalist united front against the superpowers Examination is made of the origin and place of the Third World states in China's global perspectives This is the first book to trace the development of the Chinese theory of the three worlds and to show its importance for the Chinese conception of a new world order

Revolution and Liberation W. S.

K. Waung, 1971 *Using the Past to Serve the Present* Jonathan Unger, 2015-04-08 An historiographical examination of the political debates of the 1980s over despotism in Chinese history and over Party history The extent of popular culture and its reinterpretation of history is also assessed as governmental control of the media has decreased

Perceptions of China and White House Decision-Making, 1941-1963 Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations

The International Environment and China's Twin Models of Development Lai Sing Lam, 2007 Mao's twin political cum economic development models did not evolve alone from the internal environment Rather they were historically constructed in relation to the developments in the Sino-US and Sino-USSR relations This work traces the complex role that these relations had in the formation of Mao's worldview of the West and the Soviet Union as a hostile international

environment The author looks at the intricate interactions between China and each of the twin superpowers or both in unison Mao's leadership and the masses and his development model during his time as well as the post Mao's development model he created in a favourable international environment starting in 1971 The book seeks to explain how political economic and cultural changes were produced through various processes of interactions whether the Great Leap Forward the Cultural Revolution the present on going modernization revolution trade or global participation *Daedalus*, 1973 *A Critical Introduction to Mao* Timothy Cheek, 2010-08-23 Mao Zedong's political career spanned more than half a century The ideas he championed transformed one of the largest nations on earth and inspired revolutionary movements across the world Even today Mao lives on in China where he is regarded by many as a near mythical figure and in the West where a burgeoning literature continues to debate his memory In this book leading scholars from different generations and around the world offer a critical evaluation of the life and legacy of China's most famous some would say infamous son The book brings the scholarship on Mao up to date and its alternative perspectives equip readers to assess for themselves the nature of this mercurial figure and his significance in modern Chinese history *Political Victory* Brian Crozier, 2018-05-11 Success in war has always been difficult to measure What is judged successful by military leaders may not be judged so by political leadership nor by the wider public at least in a Western style democracy The public is generally inclined to applaud military victory but it instinctively reserves the right to ask afterwards Was it really worth it In *Political Victory* Brian Crozier looks at modern wars involving democracies to evaluate victory and defeat by the success or failure of political outcomes Crozier begins with the two world wars where in both cases the German aggressor was defeated by three key democracies the United States the United Kingdom and France In World War I military victory was squandered by treaty terms that led to the advent of Hitler and Nazism By contrast the total defeat of Nazism in 1945 left the Western Allies in charge of some two thirds of Germany's population thus enabling the victors to convert the vanquished to democracy Crozier also deals with the break up of empires following World War II comparing how Britain avoided full scale war in contrast with France's violent confrontations in Southeast Asia and Algeria America's involvement in Vietnam is analyzed in the wider context of the Cold War and the mounting challenge of international communism to Western democracies His assessment stresses the lack of popularity in America for the idea of democratizing a region to which the U S has no historical or sentimental attachment Among the smaller conflicts considered in this volume are the Suez crisis of 1956 the Falkland Island war between Britain and Argentina and the fateful Soviet involvement in Afghanistan that helped bring about the collapse of the Soviet system Crozier concludes with analyses of the 1991 Gulf War and the Western intervention in the former Yugoslavia Crozier's final chapters focus on looming threats around the world with particular emphasis on international terrorism and the challenge of radical Islam Both historical and timely *Political Victory* will be of interest to military historians political scientists and foreign affairs specialists **China's Child Contracts** Bao-Er, 2007 **Muhafazakar Düşünce Dergisi Sayı 25-26** Vehbi
