Mao Zedong Zhou Enlai And The Evolution Of The Chinese:

Mao Zedong, Zhou Enlai and the Evolution of the Chinese Communist Leadership Thomas Kampen, 2000 Analyses the power struggles within the leadership of the Chinese Communist Party between 1931 when several Party leaders left Shanghai and entered the Jiangxi Soviet and 1945 by which time Mao Zedong Liu Shaoqi and Zhou Enlai had emerged as senior CCP leaders In 1949 they established the People's Republic of China and ruled it for several decades Based on new Chinese sources this study challenges long established views that Mao Zedong became CCP leader during the Long March 1934-35 and that by 1935 the CCP was independent of the Comintern in Moscow The result is a critique not only of official Chinese historiography but also of Western especially US scholarship that all future histories of the rise of the CCP and power struggles within the PRC will need to take into account

Zhou Enlai Michael Dillon, 2020-01-23 Enigmatic Eminence grise the power behind the throne these phrases sum up Zhou Enlai's long and varied but always pivotal political career in the Chinese Communist Party from the 1920s to 1970s Born in 1898 Zhou witnessed several of the most important events in China's modern history and was a close associate of both the nationalist leader Chiang Kai Shek and communist leader Mao Zedong whom he served under as China's first premier from 1949 until 1976 Zhou was also a major ally of Deng Xiaoping a source for example of major influence on his Four Modernizations in agriculture industry science and technology and the military He was thus the prime architect of China's drive towards superpower status and one of the key determinants of China's central role in the modern world Zhou does not conform readily to any of the stereotypes of communist leaders Chinese or otherwise Cultivated and urbane he was a sympathetic and intellectual character who was well liked by non communists foreigners and his staff He was one of the most complex figures in the politics of contemporary China and certainly one of the most interesting although his influence was never all that obvious In this book Michael Dillon restores him to his rightful place in history and analyses the role of a man who was a genuine statesman rather than just a political operator

Zhou Enlai Barbara Barnouin, Changgen Yu, 2006 A biography of Zhou Enlai one of the most important and yet debatable political figures in the Chinese Communist Party The authors give an in depth analysis on the complex personality and controversial actions of Zhou both as a person and a leader of the CCP

Zhou Enlai Gao Wenqian, 2008-10-16 Zhou Enlai the premier of the People's Republic of China from 1949 until his death in 1976 is the last Communist political leader to be revered by the Chinese people He is considered a modern saint who offered protection to his people during the Cultural Revolution an admirable figure in an otherwise traumatic and bloody era Works about Zhou in China are heavily censored and every hint of criticism is removed so when Gao Wenqian first published this groundbreaking provocative biography in Hong Kong it was immediately banned in the People's Republic Using classified documents spirited out of China Gao Wenqian offers an objective human portrait of the real Zhou a man who lived his life at the heart of Chinese politics for fifty years who survived both the Long March and the Cultural Revolution not thanks to ideological or personal purity but because

he was artful crafty and politically supple He may have had the looks of a matinee idol and Nixon may have called him the greatest statesman of our era but Zhou's greatest gift was to survive at almost any price thanks to his acute understanding of where political power resided at any one time

Mao's Road to Power Stuart Schram, 2018-10-24 By 1939 Mao Zedong was a leader in the Chinese Communist Party through his political acumen his organizing energy and his executive ability At the same time his abilities to shift register to maintain a sense of the whole and also of the particular and to absorb seemingly contradictory realities in the social political and military arenas he

Marxism, History, and Intellectuals Suman Gupta, 2000 This study focuses on that area of revolutionary socialist philosophy which is devoted to conceiving the intellectual and allocating or refusing to do so a role to the intellectual in the revolutionary process and state Through an examination of the intellectual's role the author tries to reach an understanding of the connotations and pragmatics of transformative socialism in our time Primarily this study is a survey and reexamination of the constructions of and attitudes toward intellectuals in different revolutionary socialist philosophies with particular reference to the corresponding theories of history that are implicit therein The actual process of reconceptualizing transformative socialism in our context and in the light of the above reexamination is taken up toward the end of the book in a more or less polemical fashion

Re-examining the Cold War: U.S.-China

Diplomacy, 1954-1973 Robert S. Ross, Changbin Jiang, 2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations

A History of the Modern Chinese Army Xiaobing Li, 2007-06-01 Since the establishment of the Red Army in 1927 China's military has responded to profound changes in Chinese society particularly its domestic politics shifting economy and evolving threat perceptions Recently tensions between China and Taiwan and other east Asian nations have aroused great interest in the extraordinary transformation and new capabilities of the Chinese army In *A History of the Modern Chinese Army* Xiaobing Li a former member of the People's Liberation Army PLA provides a comprehensive examination of the PLA from the Cold War to the beginning of the twenty first century that highlights the military's central function in modern Chinese society In the 1940s the Chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling The Chinese military rapidly increased its mobility and weapon strength and the Korean War and Cold War offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped China to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats Yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top Chinese generals had any college credit hours However in 1995 the high command began to institute massive reforms to transform the PLA from a labor intensive force into a technology intensive army Continually seeking more urban conscripts and emphasizing higher education the PLA Reserve

Officer Training and Selection program recruited students from across the nation These reservists would become commissioned officers upon graduation and they majored in atomic physics computer science and electrical engineering Grounding the text in previously unreleased official Chinese government and military records as well as the personal testimonies of more than two hundred PLA soldiers Li charts the development of China's armed forces against the backdrop of Chinese society cultural traditions political history and recent technological advancements A History of the Modern Chinese Army links China's military modernization to the country's growing international and economic power and provides a unique perspective on China's establishment and maintenance of one of the world's most advanced military forces

Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and
