**Insurgency in Nepal** Thomas A. Marks, 2003-12-31 A decade has passed since the end of the Cold War and insurgency remains a major factor on the world scene. Whether driven by separatism, religious alienation or ideological desire to restructure the state, insurgents are as active now as in the earlier Cold War era of state support. Indeed, forced to rely more upon their own devices, insurgencies have posed increasingly complex problems for the globe's numerous weak states which find themselves challenged by a growing array of development and population issues. This reality has driven continuous and extensive U.S. military involvement, thus a renewed need to focus upon the realities of internal war. Upheavals in once obscure spots such as Nepal have come routinely to demand our attention. The study of such cases will prepare military practitioners for effective engagement in strategies, operational art and tactics. Insurgency in Nepal has existed for perhaps 5 decades but burst into the open only with the declaration of people's war on February 13, 1996, by the Communist Party Maoist or CPN M, the most radical offshoot of the leftwing spectrum in Nepali politics. Desultory action ended when the Maoists, as they are universally termed, unilaterally abrogated talks with the government and launched a nationwide general offensive in November 2001. Since that time a steadily increasing level of violence has left as many as 8,000 Nepalis dead, a majority of them in little more than a year. Terror has been integral to the Maoist campaign. US involvement has played an important role in assisting this minor but strategically located democratic state to meet the challenges posed by ruthless radical actors

Unconventional Warfare in South Asia, 1947 to the Present Kaushik Roy, 2017-03-02 Unconventional war is an umbrella term which includes insurgencies, counter-insurgencies, terrorism and religious conflicts. Insurgencies and communal conflicts have become much more common in this region since 1947 and more people have died in South Asia due to unconventional wars than conventional warfare. The essays in this volume are organized in two sections. While the first section deals with insurgencies, counter-insurgencies and terrorism, the second section covers the religious aspects of the various intra-state conflicts which mar the multi-ethnic societies of South Asia

**Maoists at the Hearth** Judith Pettigrew, 2013-05-28 The Maoist insurgency in Nepal lasted from 1996 to 2006 and at the pinnacle of their armed success the Maoists controlled much of the countryside. *Maoists at the Hearth*, which is based on ethnographic research that commenced more than a decade before the escalation of the civil war in 2001, explores the daily life in a hill village in central Nepal during the People's War. From the everyday

routines before the arrival of the Maoists in the late 1990s through the insurgency and its aftermath this book examines the changing social relationships among fellow villagers and parties to the conflict War is not an interruption that suspends social processes Life in the village focused as usual on social challenges interpersonal relationships and essential duties such as managing agricultural work running households and organizing development projects But as Judith Pettigrew shows social life cultural practices and routine activities are reshaped in uncertain and dangerous circumstances The book considers how these activities were conducted under dramatically transformed conditions and discusses the challenges and sometimes opportunities that the villagers confronted By considering local spatial arrangements and their adaptation Pettigrew explores people's reactions when they lost control of the personal public and sacred spaces of the village A central consideration of Maoists at the Hearth is an exploration of how local social tensions were realized and renegotiated as people supported and sometimes betrayed each other and of how villager Maoist relationships and to a lesser extent villager army relationships which drew on a range of culturally patterned preexisting relationships were reforged transformed or renegotiated in the context of the conflict and its aftermath

**Handbook of Terrorist and Insurgent Groups** Scott N. Romaniuk, Animesh Roul, Pamela Fabe, János Besenyő, 2024-10-24 Handbook of Terrorist and Insurgent Groups A Global Survey of Threats Tactics and Characteristics examines the most current and significant terrorist and insurgent groups around the world The purpose is to create a descriptive mosaic of what is a pointedly global security challenge The volume brings together conceptual approaches to terrorism insurgency and cyberterrorism with substantive and empirical analyses of individual groups organisations and networks By doing so not only does the coverage highlight the past present and future orientations of the most prominent groups but it also examines and illustrates their key characteristics and how they operate including key leaders and ideologues Highlighting specific individual groups the chapters collectively present a robust and comprehensive outlook on the current geography of terrorism and insurgency groups operating in the world today This comprehensive volume brings the collective expertise and knowledge of more than 50 academics intelligence and security officials and professionals together all of whom are considered subject experts in their respective areas of research and practice The volume is based on both desk based and fieldwork conducted by experts in these areas incorporating analyses of secondary literature but also the use of primary data including first hand interviews on the various groups regions of operation their tactics and how their ideologies motivate their actions

The Maoist Insurgency in Nepal and the Political Economy of Violence Avidit Raj Acharya, 2010 This paper studies the incidence of political violence associated with the Maoist insurgency in Nepal I take a cross sectional approach where the unit of analysis is the district and dependent variable is total killings by state and Maoists normalized by district population I find no evidence that political and economic grievances are linked to the incidence of political violence There is also very little evidence that district prosperity or political ideology are associated with the incidence of violence On the other hand I find that the intensity of violence was greatest in the Midwestern districts

and in districts with low road density Historical evidence suggests that the dummy variable for Midwestern districts that appears robust and significant reflects the political entrepreneurship of leftist leaders more than half a century ago The results support a theory of conflict that treats an insurgency as analogous to a profit maximizing firm Terror, Insurgency, and the State Marianne Heiberg, Brendan O'Leary, John Tirman, 2007 The result of a multiyear project spearheaded by the late Marianne Heiberg Terror Insurgency and the State assembles the findings of more than a dozen scholars who have conducted extensive field research with rebel groups This comparative analysis documents the aim of longstanding insurgent groups Dynamics of Violent Extremism in South Asia Shafi Md Mostofa, 2023-02-02 This book offers a comprehensive analysis of the multifaceted dimensions of violent extremist groups in South Asia attending especially to the relationships between the local and regional forces influencing their emergence and activities In addition research in the book shows how political security sensitive events and processes are framed and the factors responsible for such framing Similarly it discusses prevalent discourses on anti violent extremism policy and the on the ground militarized preventive reactive interventions they guide which are inspired by ideologies that increasingly reflect controversial understandings of the experiences of people within conditions of state fragility In doing so the book balances attention to local conditions that frame the rise and fall or persistency of incidences of violent extremism The systems based ecological framing of issues in the book is influenced by a concern for the broader questions of securitization global governance poverty under development and armed conflicts in South Asia
