**China in Revolution** Joseph W. Esherick, 2022-08-04 This book includes eleven seminal essays by one of America s leading authorities on modern Chinese history with an illuminating preface by Prof Elizabeth Perry of Harvard University it covers a range of topics from the impact of imperialism to the 1989 protests that led to the Tiananmen massacre Chapters include an explanation of how China expanded its borders far beyond the Han Chinese heartland and maintained those borders in the transition from empire to nation how Sun Yat sen unexpectedly emerged as the Father of the Country and how a series of unexpected and contingent events brought the empire down in 1911 Despite conventional representations of a static and unified China this book proves Chinese society to be diverse and constantly changing especially after the Communist revolution which was a transformative event in modern Chinese history Esherick denounces traditional imagery of cultural uniformity which derives from excessive attention to the unitary state through chapters that explore the impact of the 1937 45 War of Resistance against Japan the dramatic wartime transformation of Chinese society in both Communist and Nationalist Guomindang areas and the nature of the new Communist regime in

Northwest China In his book Esherick examines both the Marxist Leninist theory behind Mao's notion of the restoration of capitalism against which he waged the Cultural Revolution of the 1960s and the political theater of the 1989 protest movement Throughout the book the contingency of history the need for careful empirical research and the important yet limited role of history is highlighted as the key to understanding the present or predicting the future of China *Small Groups and Political Rituals in China* Martin King Whyte, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Biology and Revolution in Twentieth-Century China** Laurence Schneider, 2005-10 Using the field of genetics as a case study this book follows the troubled development of modern natural science in China from the 1920s through Mao's China to the present post socialist era Through detailed portraits of key scientists and institutions basic dilemmas are **Routledge Library Editions: Education in Asia** Various, 2021-07-14 This set of reissued books examines education in Asia from a variety of different angles From the westernisation of early twentieth century Chinese education to the impact of the Communist revolution to education and society in Korea to Asian women's experiences of education this set collects some key texts by a range of original thinkers *Revolution and Terror* Graeme Gill, 2024 This book is a study of the relationship between revolution and terror Graeme Gill uses a detailed analysis of the French Russian and Chinese revolutions to show that in order to understand that relationship it is necessary to distinguish between different types of terror revolutionary transformational and inverted **Village China at War** Dagfinn Gatu, 2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact the nature of this expansion remains disputed Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata The author also stresses the host of severe constraints that the party's policy ambitions ran up against such as massive destruction of the local economy by the Japanese army the economic burden of running the resistance peasant ambivalence to revolutionary changes and the shortage of trained cadres Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves This in turn allowed localities an autonomous dynamic that often conflicted

with higher party echelons Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution History accelerated

*Propaganda and Culture in Mao's China* Timothy Cheek,1997 This biography of Deng Tuo 1912 1966 is a social history of intellectuals as agents in China's socialist revolution It places Deng Tuo's writings and ideas in the rich context of his social experience as a member of the Communist bureaucracy and as an elite artist and aesthete The tension between service to politics and service to culture was ultimately disastrous for Deng and for China's revolution his ghost haunts the halls of power in Beijing today

**Liu Shaoqi and the Chinese Cultural Revolution** Lowell Dittmer,2015-02-12 By addressing the issues that decimated China's monolithic elite in the late 1960s this text illuminates not only the life and fate of Liu Shaoqi but also the policy making process of a revolutionary state facing the diverting exigencies of economic modernization and political development
