**The Map of Life, Conduct, and Character** William Edward Hartpole Lecky, 1899 Block analyzes the legal social and cultural implications of more than nine hundred documented incidents of sexual coercion and hundres more extralegal commentaries found in almanacs newspapers broadsides and other print and manuscript sources Highlighting the gap between reports of coerced sex and incidents that were publicly classified as rape Block demonstrates that public definitions of rape were based less on what actually happened than on who was involved She challenges conventional narratives that claim sexual relations between white women and black men became racially charred only in the late nineteenth century Her analysis extends racial toes to rape back into the colonial period and beyond the boundaries of the southern slave born system Early Americans treatment of rape Block argues both enacted and helped to sustain the social racial gender and political hierarchies of a New World and a new nation
