Map Of Innovation Creating Something Out Of Nothing:

The Map of Innovation Kevin O'Connor, Paul B. Brown, 2003-08-12 How did Kevin O'Connor help create DoubleClick the innovative marketing technology company two software companies dozens of products and now the disappearing DVD a product that will turn the home video market on its head Sheer brilliance While O'Connor is very smart indeed he credits his success to applying Thomas Edison's famous saying that genius is one percent inspiration and ninety nine percent perspiration In other words the breakthrough product or service that is the result of sheer genius alone is the exception Great ideas that form the basis of new companies or that can make a hero of someone toiling in the corporate world are within reach of us all But wait says O'Connor ideas are cheap Just as important is doing something with them a process that will turn the best ideas into something that people need In other words O'Connor argues convincingly innovation can be systematically forced The Map of Innovation is O'Connor's step by step approach to devising lucrative new products and services and bringing them to market through a process that has proven itself time and again in many different industries Too often people trying to innovate focus on things that don't matter or waste their time trying to find answers to questions that can't be answered O'Connor shows why the map of innovation centers on getting right the five make or break fundamentals creating a large number of viable ideas picking the right idea to pursue creating a highly focused strategy to bring the idea to market getting the money to fund the strategy and hiring the best people With Kevin O'Connor the proof of the value of methodical innovation is in the pudding He helped start companies that have employed thousands of people and created billions in shareholder value Anyone can get lucky once but for success to strike three times and to include many successful products there has to be a method and map and any company big or small working on any product or service can benefit from O'Connor's time tested tactics

James Harrington, Frank Voehl,2016-08-19 In today s fast moving high technology environment the focus on quality has given way to a focus on innovation From presidents of the United States to presidents of Fortune 500 companies it is clear that everyone thinks innovation is extremely important The challenge is that few people stop to define why innovation is important to understand

what's driving the need for more innovation. We all agree that more frequent innovation is important even necessary. There is actually a growing body of evidence that indicates that looking outside of your company rather than purely looking internally and to customers' needs using the tools in this Handbook will lead to more innovative ideas. Responding to customers' needs is the key to a successful business. You can use these tools to talk to customers: satisfied ones, unsatisfied ones, potential customers, people who would never buy your product or service, and also people you have never considered as a potential customer. In addition, these tools will help you ask your competitors' customers about what makes them happy with the current businesses and offerings in the industry, why they buy or do not buy from you, your competitors, and other industries. These tools will help you understand the steps in the customer journey they need to take, what delights and frustrates them, and what their pain points are. The three volumes of *The Innovation Tools Handbook* cover 76 top-rated tools and methods from the hundreds available that every innovator must master to be successful. Covering evolutionary and/or improvement innovative tools and methodologies, Volume 2 presents 23 tools/methodologies related to innovative evolutionary products, processes, and services or the improvement of existing ones. For each tool, the book provides a definition, identifies the user of the tool, explains what phases of the innovation process the tool is used in, describes how the tool is used, supplies examples of the outputs from the tool, identifies software that can maximize its effectiveness, and includes references and suggestions for further reading. Ideation is about developing ideas on how to seize identified opportunities. What are the possible answers to your breakthrough questions? Having a deep understanding about the customer, their needs, and pain points, as well as the existing solutions and business models in the industry, will naturally lead to new ideas. How seriously you do your discovery homework using the tools in these Handbooks will determine not only how fast you create ideas but about how likely these ideas are to succeed. Tools and methodologies covered include 5 why questions, Affinity diagrams, attribute listing, brainwriting, 6-3-5, cause and effect diagrams, creative problem solving model, design for tools, flowcharting, force field analysis, Kano analysis, nominal group technique, plan-do-check-act, reengineering, redesign, reverse engineering, robust design, SCAMPER, simulations, six thinking hats, social networks, solution analysis diagrams, statistical analysis, tree diagram, and value analysis. The authors believe that by making effective use of the tools and methodologies presented in this book, your organization can increase the percentage of creative innovative ideas by five to eight times its present performance level.

El sabor de las ideas María Isabel Gómez, 2011-01-01. La serie *Empresarios EAFITenses* fue creada con el fin de motivarla innovación, la creación y el posicionamiento de empresas para lograr dichos objetivos. Se pretende inculcar la formación académica y el espíritu emprendedor entre estudiantes y egresados. En cada nuevo título se cuentan las experiencias de un emprendedor dejando entrever en la narración algunas metodologías utilizadas para la creación de empresas. Los libros de la colección se centran en una temática específica de dicho proceso de creación. En este título la autora cuenta la historia de Marco, un joven egresado de la universidad EAFIT, con una gran herencia emprendedora por parte de su familia. Las

peripecias trascurren desde que el joven estudia en la universidad y le toma gusto a las materias de Mercadeo y de Gerencia hasta el día en que aplicando los conocimientos adquiridos se decide a crear su propia empresa de salsas y aderezos El sabor de las ideas muestra el proceso desde la generación de una idea de negocio hasta que esta se convierte en realidad
