Map To The End Of Time Wayfarings With Friends And Philosophers:

A Map to the End of Time Ronald J. Manheimer, 1999 Manheimer relates the lessons he learned while teaching philosophy to a diverse group of retired people [Aging and the Art of Living](#) Jan Baars, 2012-08-20 In this deeply considered meditation on aging in Western culture Jan Baars argues that in today's world living longer does not necessarily mean living better He contends that there has been an overall loss of respect for aging to the point that understanding and dealing with aging people has become a process focused on the decline of potential and the advance of disease rather than on the accumulation of wisdom and the creation of new skills To make his case Baars compares and contrasts the works of such modern era thinkers as Foucault Heidegger and Husserl with the thought of Plato Aristotle Sophocles Cicero and other Ancient and Stoic philosophers He shows how people in the classical period less able to control health hazards had a far better sense of the provisional nature of living which led to a philosophical and religious emphasis on cultivating the art of living and the idea of wisdom This is not to say that modern society's assessments of aging are insignificant but they do need to balance an emphasis on the measuring of age with the concept of living in time Gerontologists philosophers and students will find Baars discussion to be a powerful perceptive conversation starter W Andrew Achenbaum author of *Older Americans Vital Communities* *Age Studies* Susan Pickard, 2016-04-24 With great rigour yet an enviable lightness of touch Susan Pickard has written an engaging and accessible book that students will love Rosaline Gill City University London A scholarly tour de force that brings into focus the various disciplines histories literatures and knowledges that have transformed us into modern subjects of age Stephen Katz Trent University *Age Studies* takes an invigorating approach to the study of age and ageing in contemporary society Encompassing ageing throughout the life course taking in childhood adolescence mid life and older age and situated explicitly within a sociological disciplinary framework *Age Studies* Explores current social science debates on the study of ageing linking these to core sociological concepts Links theory and application using a variety of examples and international case studies Includes chapter summaries further reading and guided questions A thought provoking companion to advanced undergraduates and postgraduate student studying ageing older people social gerontology and related courses **Critical perspectives on ageing societies** Miriam Bernard, Thomas Scharf, 2007-05-16 This important book brings together some of the best known international scholars working within a critical gerontology perspective Together they review and update our understanding of how the field has developed over the last twenty five years and through the lens of passionate scholarship provide a challenging assessment of the complex practical and ethical issues facing older people and those who conduct research on ageing in the 21st century The contributions extend the critical gerontological approach conceptually methodologically and practically They offer close and scholarly analysis of policies affecting the lives of older people and provide insights into why research is done in particular ways Special attention is paid to feminist contributions and new approaches to working in partnership with older people age discrimination and

decline from youth aging people were happier more courageous and more interested in being true to their inner selves than were young people Life Gets Better examines through first person stories as well as Lustbader s own observations how a lifetime of lessons learned can yield one of the most personally and emotionally fruitful periods of anyone s life As an eighty six year old who contributed her story to the book noted For me being old is the reward for outlasting all the big and little problems that happen to all of us along life s pathway The collected stories in Life Gets Better provide a hopeful corrective to the fear of aging aggressively instilled in us by the media Don t dread the future The best years of our lives just may be ahead
