Mapping Boston:

Mapping Boston Alex Krieger, David A. Cobb, Amy Turner, David C. Bosse, 2001 A lavishly illustrated tour of Boston through its cartography uses a wide historical urban planning and regional maps as well as numerous illustrations to show how the city was born grew and changed over the last three decades **The Story of Mapping Boston** Boston Public Library, 2000* Mapping Boston , 1999 Gallery guide for the exhibition Mapping Boston on display at the Boston Public Library 12 October 1999 14 January 2000 The Map Thief Michael Blanding, 2015-06-02 The story of an infamous crime a revered map dealer with an unsavory secret and the ruthless subculture that consumed him Maps have long exerted a special fascination on viewers both as beautiful works of art and as practical tools to navigate the world But to those who collect them the map trade can be a cutthroat business inhabited by quirky and sometimes disreputable characters in search of a finite number of extremely rare objects Once considered a respectable antiquarian map dealer E Forbes Smiley spent years doubling as a map thief until he was finally arrested slipping maps out of books in the Yale University library The Map Thief delves into the untold history of this fascinating high stakes criminal and the inside story of the industry that consumed him Acclaimed reporter Michael Blanding has interviewed all the key players in this stranger than fiction story and shares the fascinating histories of maps that charted the New World and how they went from being practical instruments to quirky heirlooms to highly coveted objects Though pieces of the map theft story have been written before Blanding is the first reporter to explore the story in full and had the rare privilege of having access to Smiley himself after he d gone silent in the wake of his crimes Moreover although Smiley swears he has admitted to all of the maps he stole libraries claim he stole hundreds more and offer intriguing clues to prove it Now through a series of exclusive interviews with Smiley and other key individuals Blanding teases out an astonishing tale of destruction and redemption The Map Thief interweaves Smiley s escapades with the stories of the explorers and mapmakers he knew better than anyone Tracking a series of thefts as brazen as the art heists in Provenance and a subculture as obsessive as the oenophiles in The Billionaire s Vinegar Blanding has pieced together an unforgettable story of high stakes crime **Mapping Boston** , 2001 Gallery guide for the exhibition Mapping Boston on display at the Massachusetts State House January June 2001 **Mapping Boston** , 2002 *Boston Harbor Navigation Improvement and Berth Dredging Project* , 1995 **Boston in Transit** Steven Beaucher, 2023-03-07 A richly illustrated story of public transit in one of America s most historic cities from public ferry and horse drawn carriage to the MBTA A lively tour of public transportation in Boston over the years Boston in Transit maps the complete history of the modes of transportation that have kept the city moving and expanding since its founding in 1630 from the simple ferry serving an English settlement to the expansive network of the Massachusetts Bay Transportation Authority or MBTA The story of public transit in Boston once dubbed the Hub of the Universe is a journey through the history of the American metropolis With a remarkable collection of maps and architectural and engineering drawings at hand Steven Beaucher

launches his account from the landing where English colonists established that first ferry carrying passengers between what is now Boston's North End and Charlestown and sparing them what had been a two day walk around Boston Harbor In the 1700s horse drawn coaches appeared on the scene connecting Boston and Cambridge with the bigger better Omnibus soon to follow From horse drawn coaches horse drawn railways evolved making way for the electric streetcar networks that allowed the city's early suburbs to sprout culminating in the multimodal regional public transportation network in place in Boston today With photographs brochures pamphlets guidebooks timetables and tickets Boston in Transit creates a complete picture of the everyday experience of public transportation through the centuries At once a practical reference local history and travelogue this book will be cherished by armchair tourists day trippers and serious travelers alike

Seasholes,2018-04-13 Why and how Boston was transformed by landmaking Fully one sixth of Boston is built on made land Although other waterfront cities also have substantial areas that are built on fill Boston probably has more than any city in North America In *Gaining Ground* historian Nancy Seasholes has given us the first complete account of when why and how this land was created The story of landmaking in Boston is presented geographically each chapter traces landmaking in a different part of the city from its first permanent settlement to the present Seasholes introduces findings from recent archaeological investigations in Boston and relates landmaking to the major historical developments that shaped it At the beginning of the nineteenth century landmaking in Boston was spurred by the rapid growth that resulted from the

burgeoning China trade The influx of Irish immigrants in the mid nineteenth century prompted several large projects to create residential land not for the Irish but to keep the taxpaying Yankees from fleeing to the suburbs Many landmaking projects were undertaken to cover tidal flats that had been polluted by raw sewage discharged directly onto them removing the pestilential exhalations thought to cause illness Land was also added for port developments public parks and transportation facilities including the largest landmaking project of all the airport A separate chapter discusses the technology of landmaking in Boston explaining the basic method used to make land and the changes in its various components over time The book is copiously illustrated with maps that show the original shoreline in relation to today s streets details from historical maps that trace the progress of landmaking and historical drawings and photographs
