

Mapping In The Age Of Digital Media

Juliet Pinto, Stephen Mainzer, Lola Xie

Mapping In The Age Of Digital Media:

Mapping in the Age of Digital Media Michael Silver, Diana Balmori, 2003-06-23 Digital mapping techniques have altered profoundly the ways we measure and represent space Combining the insights of designers theorists engineers and artists this volume examines these and related issues providing an examination of emerging cartographic practices such as MRI and 3D scanning technology in the digital age

Literary Mapping in the Digital Age David Cooper, Christopher Donaldson, Patricia Murrieta-Flores, 2016-05-20 Drawing on the expertise of leading researchers from around the globe this pioneering collection of essays explores how geospatial technologies are revolutionizing the discipline of literary studies The book offers the first intensive examination of digital literary cartography a field whose recent and rapid development has yet to be coherently analysed This collection not only provides an authoritative account of the current state of the field but also informs a new generation of digital humanities scholars about the critical and creative potentials of digital literary mapping The book showcases the work of exemplary literary mapping projects and provides the reader with an overview of the tools techniques and methods those projects employ

Mapping in Architectural Discourse Marc Schoonderbeek, 2021-11-29 This book explores the notion of mapping in architectural discourse First locating positioning and theorizing mapping it then makes explicit the relationship between research and design in architecture through cartography and spatial analysis It proposes three distinct modalities tool operation and concept showing how these methods lead to discursive aspects of architectural work and highlighting mapping as an instrument in developing architectural form It emphasizes the importance of place and time as fundamental terms with which to understand the role of mapping An investigation into architectural discourse this book will appeal to academics and researchers within the discipline with a particular interest in theory history and cartography

The Map Reader Martin Dodge, Rob Kitchin, Chris Perkins, 2011-05-09 WINNER OF THE CANTEMIR PRIZE 2012 awarded by the Berendel Foundation The Map Reader brings together for the first time classic and hard to find articles on mapping This book provides a wide ranging and coherent edited compendium of key scholarly writing about the changing nature of cartography over the last half century The editorial selection of fifty four theoretical and thought provoking texts demonstrates how cartography works as a powerful representational form and explores how different mapping practices have been conceptualised in particular scholarly contexts Themes covered include paradigms politics people aesthetics and technology Original interpretative essays set the literature into intellectual context within these themes Excerpts are drawn from leading scholars and researchers in a range of cognate fields including Cartography Geography Anthropology Architecture Engineering Computer Science and Graphic Design The Map Reader provides a new unique single source reference to the essential literature in the cartographic field more than fifty specially edited excerpts from key classic articles and monographs critical introductions by experienced experts in the field focused coverage of key mapping practices techniques and ideas a valuable resource suited to a broad spectrum of researchers and students working

in cartography and GIScience geography the social sciences media studies and visual arts full page colour illustrations of significant maps as provocative visual think pieces fully indexed clearly structured and accessible ways into a fast changing field of cartographic research **The Handbook of Geographic Information Science** John P. Wilson,A. Stewart Fotheringham,2008-04-15 This Handbook is an essential reference and a guide to the rapidly expanding field of Geographic Information Science Designed for students and researchers who want an in depth treatment of the subject including background information Comprises around 40 substantial essays each written by a recognized expert in a particular area Covers the full spectrum of research in GIS Surveys the increasing number of applications of GIS Predicts how GIS is likely to evolve in the near future Geographers Hayden Lorimer,Charles W. J. Withers,2015-12-14 Volume twenty nine of Geographers Biobibliographical Studies has as its subject matter seven essays covering British and French regionalists one of the world s leading cultural geographers a quantitative geographer turned historical geographer and student of geopolitics a pioneering medical geographer and a leading theoretician of geography s multiple engagements with the urban experience In their different ways and with reference to Australia Britain France Sweden and the United States of America all were products of and direct influences upon the emergence strength and thematic diversity of geography in the twentieth century Geographers 29 thus provides key insight into the shaping of a discipline and of its practitioners in modern context

Geography and Vision Denis Cosgrove,2012-11-25 Leading geographer Denis Cosgrove provides a series of personal reflections on the complex connections between seeing imagining and representing the world geographically In a series of eloquent essays he draws upon pictorial images including maps sketches cartoons paintings and photographs to explore and elaborate upon the many and varied ways in which the vast and varied earth and at times the heavens beyond have been both imagined and represented as a place of human habitation The essays include reflections upon geographical discovery urban cartography and utopian visions ideas of landscape and the shaping of America wilderness and masculinity conceptions of the Pacific and the imaginative grip of the Equator Extensively illustrated this engaging work reveals the richness of the geographical imagination as expressed over the past five centuries **Mapping Cultures** L. Roberts,2012-05-29 An interdisciplinary collection exploring the practices and cultures of mapping in the arts humanities and social sciences It features contributions from scholars in critical cartography social anthropology film and cultural studies literary studies art and visual culture marketing museum studies architecture and popular music studies **The United Nations and Freedom of Expression and Information** Tarlach McGonagle,Yvonne Donders,2015-06-11 Maps the UN legal instruments relevant for the protection and promotion of the rights to freedom of expression and information *New Literary Hybrids in the Age of Multimedia Expression* Marcel Cornis-Pope,2014-11-15 Begun in 2010 as part of the Histories of Literatures in European Languages series sponsored by the International Comparative Literature Association the current project on New Literary Hybrids in the Age of Multimedia Expression recognizes the global shift toward the visual and the virtual in all areas

of textuality the printed verbal text is increasingly joined with the visual often electronic text This shift has opened up new domains of human achievement in art and culture The international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge both inside the volume's sections and between them The four sections cover 1 Multimedia Productions in Theoretical and Historical Perspective 2 Regional and Intercultural Projects 3 Forms and Genres and 4 Readers and Rewriters in Multimedia Environments The essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media new and old They emphasize the extent to which hypertextual multimedia and virtual reality technologies have enhanced the sociality of reading and writing enabling more people to interact than ever before At the same time however they warn that as long as these technologies are used to reinforce old habits of reading writing they will deliver modest results One of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner teaching its interpretive competencies to other components of the cultural landscape

Islamic Algorithms Gary R. Bunt, 2024-04-04 This book examines how Islam is digitally mediated at a time of technological change enhanced digital literacy and proactive engagement in Islamic online content by authorities and influencers What is the impact of this on societies believers and understandings of Islam Islamic Algorithms provides a thorough exploration of Cyber Islamic Environments CIEs through representations of significant historical and religious influences across contexts and diversities This ranges from jinn and angels through to contemporary influencers Gary R Bunt raises issues of how digital content is embedded in contemporary understandings of Islam and their dissemination Bunt shows how the interpretation of pivotal figures in Islam including Muhammad and his family scholars and imams can be informed by new generations of digital influences such as apps and social networking which have become primary sources of information for many Muslims globally

Writing and Editing for Digital Media Brian Carroll, 2014-07-07 *Writing and Editing for Digital Media* 2nd edition teaches students how to write effectively for digital spaces whether crafting a story for a website blogging or using Twitter to cover a breaking news story or event The lessons and exercises in each chapter help students build a solid understanding of the ways that digital communications have introduced opportunities for dynamic storytelling and multi directional communication *Writing and Editing for Digital Media* also addresses the graphical multimedia hypertextual and interactive elements that come into play when writing for digital platforms and designing digital spaces The book teaches students not only to create content but also to become careful creative managers of that content Based on Brian Carroll's extensive experience teaching the course this revised and updated edition pays particular attention to opportunities presented by the growth of social media and mobile media Chapters aim to Assist digital communicators in understanding the social networked increasingly mobile always on geomapped personalized media ecosystem Help writers across multiple communication fields journalism marketing PR technical writing make the transition from print to digital

Teach communicators to approach storytelling from a multimedia multi modal interactive perspective A companion website with exercises and assignments gives students the tools they need to put theory into practice *Historic Newspapers in the Digital Age* Paul Gooding,2016-12-08 In recent years cultural institutions and commercial providers have created extensive digitised newspaper collections This book asks the timely question what can the large scale digitisation of newspapers tell us about the wider cultural phenomenon of mass digitisation The unique form and materiality of newspapers and their grounding in a particular time and place provide challenges for researchers and digital resource creators alike At the same time the wider context in which digitisation of cultural heritage occurs shapes the impact of digital resources in ways which fall short of the grand ambitions of the wider theoretical discourse Drawing on case studies from leading digitised newspaper collections the book aims to provide a bridge between the theory and practice of how these digitised collections are being used Beginning with an exploration of the hyperbolic nature of technological discourses the author explores how web interfaces funding models and the realities of contemporary user behaviour contrast with the hyperbolic discourse surrounding mass digitisation This book will be of particular interest to those who want to investigate how user studies can inform our understanding of technological phenomena including digital resource creators information professionals students and researchers in universities libraries museums and archives *Location Awareness in the Age of Google Maps* Rebecca Noone,2024-07-12 Location Awareness in the Age of Google Maps explores the mundane act of navigating cities in the age of digital mapping infrastructures Noone follows the frictions routing through Google Maps categorising and classifying of spatial information Complicating the assumption that digital maps distort a sense of direction Noone argues that Google Maps location awareness does more than just organise and orient a representation of space it also organises and orients imaginaries of publicness selfsufficiency legibility and error At the same time Location Awareness in the Age of Google Maps helps to animate the ordinary ways people are challenging and refusing Google Maps vision of the world Drawing on an arts based field study spanning the streets of London New York London Toronto and Amsterdam Noone s encounters of asking for directions open up lines of inquiry and spatial scores that cut through Google s universal mapping project Location Awareness in the Age of Google Maps will be essential reading for information studies and media studies scholars and students with an interest in embodied information practices critical information studies and critical data studies The book will also appeal to an urban studies audience engaged in work on the digital city and the datafication of urban environments Theories of Journalism in a Digital Age Steen Steensen,Laura Ahva,2018-02-02 Given the interdisciplinary nature of digital journalism studies and the increasingly blurred boundaries of journalism there is a need within the field of journalism studies to widen the scope of theoretical perspectives and approaches Theories of Journalism in a Digital Age discusses new avenues in theorising journalism and reassesses established theories Contributors to this volume describe fresh concepts such as de differentiation circulation news networks and spatiality to explain journalism in a digital age and provide concepts

which further theorise technology as a fundamental part of journalism such as actants and materiality Several chapters discuss the latitude of user positions in the digitalised domain of journalism exploring maximal minimal participation routines interpretation agency and mobility cross mediality participation Finally the book provides theoretical tools with which to understand in different social and cultural contexts the evolving practices of journalism including innovation dispersed gatekeeping and mediatized interdependency The chapters in this book were originally published in special issues of Digital Journalism and Journalism Practice

Science, technology and society for a post-truth age: Comparative dialogues on reflexivity Emine Öncüler Yayalar, Melike Şahinol, 2024-02-06 In an era shaped by misinformation conspiracy theories and anti science movements Science and Technology Studies Science Technology and Society STS provides a lighthouse of insight and interdisciplinary research This volume Science technology and society for a post truth age Comparative dialogues on reflexivity embarks on a transformative journey through the interdependencies of science technology and society offering vital perspectives and new insights on these challenging topics This book written by scholars in the field reshapes post truth discourse through STS and positions STS as a central force in addressing the post truth crisis It presents a compelling contribution that anchors STS at the heart of contemporary debates about truth and knowledge Science technology and society for a post truth age Comparative dialogues on reflexivity is a contemporary and thought provoking exploration of the evolving relationship between knowledge truth and society It makes the case that STS is a catalyst for reshaping our understanding of truth in an age characterised by scepticism and uncertainty

Changing Sports Journalism Practice in the Age of Digital Media Raymond Boyle, 2020-06-09 As the funding of journalism moves centre stage as a driver in shaping the new trajectories of journalism in the digital age this book focuses on how those working in sports journalism have had to adapt and re invent themselves Running through this international collection are key themes related to sports journalism in the digital environment These include aspects of disruption to established norms of journalistic practice institutional allegiance the authority and primary definer role of journalism and the career structure and development for journalists writing about sport The book draws on empirically led research that mixes qualitative and quantitative approaches and seeks to better understand and position what is going on across contemporary sports journalism In so doing this collection identifies change but also areas of continuity as well as new opportunities for journalists This book was originally published as a special issue of Digital Journalism

Communicating Resiliency and Efficacy in a Digital Age Juliet Pinto, Stephen Mainzer, Lola Xie, 2025-08-18 Communicating Resiliency and Efficacy in a Digital Age Mediated Communities takes an interdisciplinary look at the roles and processes associated with mediated communication in helping to foment community resiliency

LinguaScape: An Interactive Map of English Language and Literature in the Digital and Multicultural Age Doni Efrizah, 2025-06-18 This book is provided as a response to significant changes in the landscape of English language and literature studies which is today inextricably linked to digital technology artificial intelligence and

multicultural reality LinguaScape takes an interdisciplinary approach combining classical linguistic and literary theories with modern phenomena such as social media language AI generated poetry and English es variants that are emerging in diverse regions of the world including Indonesia The present work is intended not only for students lecturers and English teachers but also for anyone interested in the interplay between language literature and technology It is hoped that this book will serve as a bridge between academia and the digital world connecting text with experience and theory with practice

Museums in a Digital Age Ross Parry, 2013-01-11 The influence of digital media on the cultural heritage sector has been pervasive and profound Today museums are reliant on new technology to manage their collections They collect digital as well as material things New media is embedded within their exhibition spaces And their activity online is as important as their physical presence on site However digital heritage as an area of practice and as a subject of study does not exist in one single place Its evidence base is complex diverse and distributed and its content is available through multiple channels on varied media in myriad locations and different genres of writing It is this diaspora of material and practice that this Reader is intended to address With over forty chapters by some fifty authors and co authors from around the world spanning over twenty years of museum practice and research this volume acts as an aggregator drawing selectively from a notoriously distributed network of content Divided into seven parts on information space access interpretation objects production and futures the book presents a series of cross sections through the body of digital heritage literature each revealing how a different aspect of curatorship and museum provision has been informed shaped or challenged by computing Museums in a Digital Age is a provocative and inspiring guide for any student or practitioner of digital heritage

This Enthralling Realm of Kindle Books: A Comprehensive Guide Revealing the Advantages of Kindle Books: A World of Convenience and Flexibility E-book books, with their inherent portability and ease of access, have liberated readers from the constraints of physical books. Gone are the days of lugging bulky novels or meticulously searching for specific titles in bookstores. E-book devices, sleek and lightweight, effortlessly store an wide library of books, allowing readers to immerse in their favorite reads anytime, everywhere. Whether commuting on a busy train, relaxing on a sun-kissed beach, or simply cozying up in bed, Kindle books provide an exceptional level of convenience. A Literary World Unfolded: Discovering the Vast Array of E-book Mapping In The Age Of Digital Media Mapping In The Age Of Digital Media The E-book Shop, a digital treasure trove of literary gems, boasts an wide collection of books spanning diverse genres, catering to every readers taste and choice. From captivating fiction and thought-provoking non-fiction to classic classics and contemporary bestsellers, the Kindle Store offers an exceptional variety of titles to discover.
