Mapping the Tibetan World, 2000 **The Silk Roads** Vadime Elisseeff, 2000 A look at the cultural or intercultural exchange that took place in the Silk Roads and the role this has played in the shaping of cultures and civilizations **A Historical Atlas of Tibet** Karl E. Ryavec, 2015-05-08 This pioneering work documents cultural and religious sites across the Tibetan Plateau and its bordering regions from the Paleolithic Era to today Western fascination with Tibet has soared in recent decades yet this historic and globally celebrated region has barely been mapped With this groundbreaking atlas Karl E Ryavec sweeps aside the image of Tibet as Shangri La offering a comprehensive vision of the region as it really is The product of twelve years of research and eight more of mapmaking the results are absolutely stunning A Historical Atlas of Tibet ranges through the five main periods in Tibetan history offering introductory maps of each followed by details of western central and eastern regions It beautifully visualizes the history of Tibetan Buddhism tracing its spread throughout Asia with thousands of temples mapped both within Tibet and across North China and Mongolia all the way to Beijing There are maps of major polities and their territorial administrations as well as of the kingdoms of Guge and Purang in western Tibet and of Derge and Nangchen in Kham There are town plans of Lhasa and maps that focus on history and language on population natural resources and contemporary politics Extraordinarily comprehensive and absolutely gorgeous this volume makes a major contribution in the realms of cartography Asian studies and Buddhist studies *Mapping Shangrila* Emily T. Yeh, Christopher R. Coggins, 2014-07-11 In 2001 the Chinese government announced that the precise location of Shangrila a place that previously had existed only in fiction had been identified in Zhongdian County Yunnan Since then Sino Tibetan borderlands in Yunnan Sichuan Gansu Qinghai and the Tibet Autonomous Region have been the sites of numerous state projects of tourism development and nature conservation which have in turn attracted throngs of backpackers environmentalists and entrepreneurs who seek to experience protect and profit from the region's landscapes Mapping Shangrila advances a view of landscapes as media of governance representation and resistance examining how they are reshaping cultural economies political ecologies of resource use subjectivities and interethnic relations Chapters illuminate topics such as the role of Han and Tibetan literary representations of border landscapes in the formation of ethnic identities the remaking of Chinese national geographic imaginaries through tourism in the Yading Nature Reserve the role of The Nature Conservancy and other transnational environmental organizations in struggles over culture and environmental governance the way in which matsutake mushroom and caterpillar fungus commodity chains are reshaping montane landscapes and contestations over the changing roles of mountain deities and their mediums as both interact with increasingly intensive nature conservation and state sponsored capitalism **Tibet** Michael Buckley, 2012 Exploring ethnic Tibet independently is a challenge With the land of snows having some of the wildest and roughest road routes in high Asia motoring mountain biking and trekking options are all given due attention in this new edition High quality numerous maps

set this guide apart from other guides on Tibet and the trekking section has been expanded to include more on the main treks including Everest Base Camp Genden to Samye Namtso trek and Kailash region treks Particular attention has been paid to the Amdo and Kham regions not usually covered in guidebooks Political and cultural issues make Tibet a sensitive destination for Westerners so Michael Buckley's authoritative advice includes guidelines on cultural etiquette local customs and travelling with minimum impact on the culture and environment The chapter on language includes a section covering Tibetan script
