The Art of Joaquín Torres-García Aarnoud Rommens,2016-08-05 Intertwining art history aesthetic theory and Latin American studies Aarnoud Rommens challenges contemporary Eurocentric revisions of the history of abstraction through this study of the Uruguayan artist Joaquín Torres García After studying and painting for decades in Europe Torres García returned in 1934 to his native home Montevideo with the dream of reawakening and revitalizing what he considered the true indigenous essence of Latin American art Abstract Spirit Rommens rigorously analyses the paradoxes of the painter s aesthetic philosophical doctrine of Constructive Universalism as it sought to adapt European geometric abstraction to the Americas Whereas previous scholarship has dismissed Torres García s theories as self contradictory Rommens seeks to recover their creative potential as well as their role in tracing the transatlantic routes of the avant garde Through the highly original method of reading Torres García s artworks as a critique on the artist s own writings Rommens reveals how Torres García appropriates the colonial language of primitivism to construct the artificial image of pure pre Columbian abstraction Torres García thereby inverts the history of art this book teases out the important lessons of this gesture and the implications for our understanding of abstraction today *Sheppard's International Directory of Print and Map Sellers* Richard Joseph Publishers Limited,1995
