## **Maps Of The Ancient Sea Kings:**

Maps of the Ancient Sea Kings Charles H. Hapgood, 1966 Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century Hapgood believes that they mapped all the continents This would mean that the Americas were mapped thousands of years before Columbus Antarctica would have been mapped when its coasts were free of ice Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when

Alaska was still connected with Siberia by the Pleistocene Ice Age land bridge **Maps of the Ancient Sea Kings** Charles H. Hapgood, 1979 Maps of the Ancient Sea Kings Charles H. Hapgood, 1966 *Maps of the Ancient Sea Kings* Charles Hutchins Hapgood, 1966 **Lost Cities of Atlantis, Ancient Europe & the Mediterranean** David Hatcher Childress, 1996

Atlantis The legendary lost continent comes under the close scrutiny of archaeologist David Hatcher Childress From Ireland to Turkey Morocco to Eastern Europe or remote islands of the Mediterranean and Atlantic Childress takes the reader on an astonishing quest for mankind's past Ancient technology cataclysms megalithic construction lost civilisations and devastating wars of the past are all explored in this amazing book Childress challenges the sceptics and proves that great civilisations not only existed in the past but that the modern world and its problems are reflections of the ancient world of Atlantis

**Unsolved Mysteries of the Sea** Lionel Fanthorpe, Patricia Fanthorpe, 2004-03 Explores the intriguing mysteries of the sea How were the seas formed What gave rise to stories of mermaids sirens and sea monsters *Technology of the Gods* David Hatcher Childress, 2000 Technology of the Gods lays out the mind bending evidence that long lost civilizations had attained and even exceeded our modern level of advancement Westerners have been taught that humankind has progressed along a straight line path from the primitive past to the proficient present but the hard fast evidence literally written in stone proves that the ancients had technologies we cannot even replicate today **Fingerprints of the Gods** Graham

Hancock, 2025-06-17 Could the story of mankind be far older than we have previously believed Using tools as varied as archaeo astronomy geology and computer analysis of ancient myths Graham Hancock presents a compelling case to suggest that it is Graham Hancock is featured in the popular Ancient Apocalypse a Netflix original docuseries Hancock structure his arguments through the scientific method He's asking the right questions If it's true then it can significantly change the course of history and our understanding of our civilisations Medium In Fingerprints of the Gods Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past In ancient monuments as far apart as Egypt's Great Sphinx the strange Andean ruins of Tiwanaku and Mexico's awe inspiring Temples of the Sun and Moon he reveals not only the clear fingerprints of an as yet unidentified civilization of remote antiquity but also startling evidence of its vast sophistication technological advancement and evolved scientific knowledge A

record breaking 1 bestseller in Britain Fingerprints of the Gods contains the makings of an intellectual revolution a dramatic and irreversible change in the way that we understand our past and so our future And Fingerprints of the Gods tells us something more As we recover the truth about prehistory and discover the real meaning of ancient myths and monuments it becomes apparent that a warning has been handed down to us a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time a cataclysm that may be about to recur **Earth Changes Handbook** Ken

Ludden,2011-11-23 This handbook is designed to support the Earth Changes Workshop first given in northern California on December 2 4 2011 Ken Ludden Loron Lavoie Nelise Carbonare Matita Makarta Orion Trist and Ashley Philpot have combined their collective knowledge base and put together this workshop that teaches skills that will be needed to prepare for survive and re establish world civilization after the earth crust shift Dedicated to the survival of mankind this workshop prepares the individual to have the resourceful and flexible state of mind necessary to face the potential earth crust shift Not only is much of the science that supports the ECS theory presented in this workshop but the fundamental set of skills needed to survive in the wild are presented in an organized and illuminating fashion **Stonehenge and the Great Pyramid**

Bonnie Gaunt,1997 This first book on the sacred geometry of these two ancient and mystical sites the Great Pyramid and Stonehenge is a fascinating study of the geometry and inner mathematics encompassed by and encoded in these structures Gaunt concludes that the numbers encoded into these ancient structures are modern man's tangible link with antiquity and that together Stonehenge and the Great Pyramid may be a window through which the secrets of the universe and the origins of creation can be glimpsed Imagining Atlantis Richard Ellis,2012-01-11 Ever since Plato created the legend of the lost island of Atlantis it has maintained a uniquely strong grip on the human imagination For two and a half millennia the story of the city and its catastrophic downfall has inspired people from Francis Bacon to Jules Verne to Jacques Cousteau to speculate on the island's origins nature and location and sometimes even to search for its physical remains It has endured as a part of the mythology of many different cultures yet there is no indisputable evidence let alone proof that Atlantis ever existed What then accounts for its seemingly inexhaustible appeal Richard Ellis plunges into this rich topic investigating the roots of the legend and following its various manifestations into the present He begins with the story's origins Did it arise from a common prehistorical myth Was it a historical remnant of a lost city of pre Columbians or ancient Egyptians Was Atlantis an extraterrestrial colony Ellis sifts through the scientific evidence marshaled to prove these theories and describes the mystical and spiritual significance that has accrued to them over the centuries He goes on to explore the possibility that the fable of Atlantis was inspired by a conflation of the high culture of Minoan Crete with the destruction wrought on the Aegean world by the cataclysmic eruption around 1500 b c of the volcanic island of Thera or Santorini A fascinating historical and archaeological detective story Imagining Atlantis is a valuable addition to the literature on this essential aspect of our mythohistory *Mysteries of Ancient South America* Harold T. Wilkins,2000 The reprint of Wilkin's classic book on the

megaliths and mysteries of South America This book predates Wilkins book Secret Cities of Old South America published in 1952 Mysteries of Ancient South America was first published in 1947 and is considered a classic book of its kind With diagrams photographs and maps Wilkins digs into old manuscripts and books to bring us some truly amazing stories of South America a bizarre subterranean tunnel system lost cities in the remote border jungles of Brazil legends of Atlantis in South America cataclysmic changes that shaped South America and other strange stories from one of the world's greatest researchers

**End Times to 2019** David Montaigne, 2013-01-09 Does the end of the Mayan Calendar start the countdown to Judgment Day Biblical and historical researcher David Montaigne concludes that this is the case He says that the end of the Mayan Long Count is the official start of the Bible's seven year tribulation both were focused on the same astronomical events that occur from 2012 to 2019 The world as we know it will be gone by 2020 Texts from ancient India tell us about great cycles of destruction The Egyptians told the same basic story with different names The Maya reveal another version of the story and were very clear about the timing of events from December 2012 to 2019 Your average American is no expert on these cultures but most people do have a Bible at home and the clearest details on what is about to happen can be found in the Bible if you don't let someone else tell you which parts you should focus on No this isn't what you were taught in Sunday school Religious leaders guide us between the raindrops of curious comments in the Bible We are discouraged from focusing on the parts they say we weren't meant to understand But if we stop glossing over these important passages we will understand a flood of details about the End Times Our leaders are not ignorant of these events The elite already know what is about to happen and they have made preparations most rational people would not believe because evidence is suppressed to avoid chaos They want us to remain ignorant or at least to believe that the details are secrets that cannot be known But the coming events and their timing are not secrets Years ago this book's publication would not have been tolerated by those in power But by now it doesn't matter much their plans are not going to be interfered with at this point Your plans however can still be formulated if you make the choice to understand Topics include Bible Prophecy Matthew 24-36 Knowing the hour and the day The Mayan Calendar and Mythology Pole Shifts Galactic Superwaves Ancient Egypt Ancient India World Mythology The Georgia Guidestones The real Star of Bethlehem and the exact birthday of Christ Calculating the Second Coming and Judgment Day more

**Mystery in Acambaro** Charles H. Hapgood, 1999-12 The Acambaro collection comprises hundreds of clay figurines that are apparently thousands of years old however they depict such bizarre animals and scenes that most archaeologists dismiss them as an elaborate hoax The collection shows humans interacting with dinosaurs and various other monsters such as horned men Both Hapgood and Earl Stanley Gardner were convinced that the figurines from Acambaro were authentic ancient artifacts that indicated that men and dinosaurs had cohabited together in the recent past and that dinosaurs had not become extinct many millions of years ago as commonly thought David Hatcher Childress writes a lengthy introduction concerning Acambaro the latest testing and other evidence of living dinosaurs

White Athena Walter

Slack,2015-06-26 Return to the fray of the Afrocentrist movement in the second volume of White Athena Walter Slack follows up his first volume which took to task those who claim that the Greeks and others stole their philosophy science and culture from black Africans arguing that the world needs to give credit to the right people This volume is much less a comparison of diverse philosophies and cosmologies and much more an evaluation of claims regarding imagined imports of technical cultural religious and practical artifacts Slack examines numerous Afrocentrist claims including that cultural tutors from black Africa roamed early Europe Muslim Spain and pre Columbian Mesoamerica and even traveled to ancient China with all sorts of cultural intellectual and scientific contributions The author concludes that most damaging to the credibility of Afrocentrists is their willingness to adopt any and every theory that supports their ideological thesis of African cultural supremacy overtly or covertly based upon race Open your mind to an honest and impartial view of world history with White Athena Volume 2

**Catastrophobia** Barbara Hand Clow,2001-05-01 Bestselling author

Barbara Hand Clow examines legendary cataclysms and shows how we are about to overcome the collective fear they have instilled in us. The long awaited follow up that continues the revelations begun in *The Pleiadian Agenda* which has sold more than 60 000 copies. Explains why contrary to many prophets of doom we are actually on the cusp of an era of incredible creative growth. The recent discovery of the remains of ancient villages buried beneath the Black Sea is the latest instance of mounting evidence that many of the mythic catastrophes of history the fall of Atlantis the Biblical Flood were actual events. In *Catastrophobia* Barbara Hand Clow shows that a series of cataclysmic disasters caused by a massive disturbance in the Earth's crust 11 500 years ago rocked the world and left humanity's collective psyche permanently scarred. We are a wounded species and this unprocessed fear passed from generation to generation is responsible for our constant expectations of apocalypse from Y2K to the famed end of the Mayan calendar in 2012. *Catastrophobia* reveals the insidious global forces that have used these collective fears to control humanity for thousands of years. But we are in the midst of a tremendous shift in the Earth's 26 000 year precessional cycle and there is every indication that the changes in consciousness over the last 30 years are the beginnings of a collective healing from these deep fears heralding a new age where we will see that the era of cataclysms is ending and a time of extraordinary creative activity is at hand.

*The Bloomsbury Handbook of the Philosophy of the Historical Sciences and Big History* Aviezer Tucker, David Cernín, 2025-08-21. This handbook examines the philosophy of the historical sciences and their synthesis in concepts like Big or Deep History. Written by interdisciplinary philosophers, historians and scientists it acts as a valuable guide for anybody interested in scientific knowledge of the deep past. Big History and the philosophy of science. *The Bloomsbury Handbook of the Philosophy of the Historical Sciences and Big History* is the first philosophical reference work to recognize that History is not what it used to be. The historical sciences, Deep History, Big History and even the history of the Anthropocene have now expanded the scope of historiography beyond that of literate civilizations to cover all scientific inferences about the past from the Big Bang through the history of the planet and the history of life to the history of humanity. Different views about the scope of History have ontological, epistemic, methodological, explanatory, ethical and educational reasons and implications. The historical sciences and the knowledge they have generated are founded on theories of knowledge of the past. Epistemology of history. The contributions in this book consider whether there are common epistemic properties to all the historical sciences that distinguish them from non-historical or theoretical sciences. The first part of the handbook examines the recent expansion of the scope of the historical sciences in Big History, natural history, global history and environmental history and older broader concepts of history like universal history and philosophy of history. The second part of the handbook addresses the ontology and epistemology of the past including the basic concepts of the historical sciences such as origins, the end of history, determination and underdetermination, contingency and necessity, historical predictions and counterfactuals and historical pseudoscience. The third part examines the philosophies of the special historical sciences: historical linguistics, textual criticism, geology.

evolutionary biology systematics archaeology cosmology history of the environment and most significantly their integrations and combinations for example how genetics archaeology and historical linguistics have generated a whole new knowledge of deep human history This collection offers an overview of what the philosophy of the historical sciences is and is becoming for students and experts alike
