Alfred the Great: pocket GIANTS Barbara Yorke, 2015-06-01 Alfred is one of the most remarkable rulers of any time or place This clear readable and insightful book shows why Michael Wood Why is Alfred the Great A simple answer is that he has been seen as a man who saved England invented English identity and pioneered English as a written language He is the first Englishman for whom a biography survives so that we know more about Alfred and his ideals than we do for most people who lived over a thousand years ago A slightly longer answer would say that things are a bit more complicated and that one reason Alfred seems to be so great was that he made sure we were told that he was To get the measure of Alfred we need to look at what he actually managed to achieve Can we resurrect the real King Alfred There may be limits but even if we have to part company with some of the Victorian adulation we are still left with a pretty impressive and surprising person **Mercy and British Culture, 1760-1960** James Gregory, 2021-11-04 Spanning over 2 centuries James Gregory's *Mercy and British Culture 1760-1960* provides a wide reaching yet detailed overview of the concept of mercy in British cultural history While there are many histories of justice and punishment mercy has been a neglected element despite recognition as an important feature of the 18th century criminal code *Mercy and British Culture 1760-1960* looks first at mercy's religious and philosophical aspects its cultural representations and its embodiment It then looks at large scale mobilisation of mercy discourses in Ireland during the French Revolution in the British empire and in warfare from the American war of independence to the First World War This study concludes by examining mercy's place in a twentieth century shaped by total war atomic bomb and decolonisation *Siegfried Sassoon* Jean Moorcroft Wilson, 2020-11-25 This book encompasses the complete life and works of Siegfried Sassoon from his patriotic youth that led him to the frontline to the formation of his anti war convictions great literary friendships and flamboyant love affairs **Encounter** Stephen Spender, Irving Kristol, 1982

Leoussi, 1998-07-08 This is a comparative study of the national significance of the classical revival which marked English and French art during the second half of the nineteenth century It argues that the main focus of artists' interest in classical Greece was the body of the Greek athlete It explains this interest first by artists' contact with the art of Pheidias and Polycletus which portrayed it and second by the claim made by physical anthropologists that the classical body typified the race of the European nations **British Book**
