depth study of this important movement in twentieth century art The author situates the work of the Ecole de Nice within the broader social currents that are so important in contextualizing this phenomenon within this internal region of France and underscores why this work was so significant at this historical moment within the context of the broader European art scene and contemporary American art with which it shared affinities Despite their stylistic differences and associations with groups that are generally considered distinct O'Neill discloses that these artists shared conceptual affinities theatrical modes of presentation based on appropriation use of the ready made and a determination to counter style driven painting associated with the postwar Ecole de Paris Art and Visual Culture on the Riviera 1956-1971 suggests that the emergence of an Ecole de Nice internally eroded the dominance of Paris as the national standard at this moment of French decentralization efforts and that these artists fostered a model of aesthetic pluralism that remained locally distinct yet fully engaged with international vanguard trends of the 1960s

Moss capture the full range of Jewish expression in a centrifugal age from mystical visions to unabashedly antitraditional Jewish political thought from cookbooks to literary criticism from modernist poetry to vaudeville They also highlight the most remarkable dimension of the 1880-1918 era an audacious effort by newly secular Jews to replace Judaism itself with a new kind of Jewish culture centering on this worldly aesthetic creativity by a posited Jewish nation and the secular modern and free individuals who composed it This volume is an essential starting point for anyone who wishes to understand the divided Jewish present
