

Marc Mulders Atelier

Minjie Lin

Marc Mulders Atelier:

Marc Mulders atelier Marc Mulders, Jaap Goedegebuure, Wendie Shaffer, 2004 **Beeldenstorm** Henk van Os, Thijs Tromp, I. Middag, 1997 Na het succes van de vorige twee delen in de reeks Beeldenstorm presenteert Amsterdam University Press deze zomer een nieuwe collectie pakkende en heldere beschouwingen van Henk van Os over kunstvoorwerpen uit Nederlandse musea. Opnieuw zijn Van Os aansprekende televisiecolumns gebundeld tot veertig korte hoofdstukken waarin zeer uiteenlopende onderwerpen uit de kunstgeschiedenis de revue passeren. Als geen ander weet Van Os bekende en onbekende topstukken uit Nederlandse en buitenlandse kunstcollecties in weinig woorden tot de verbeelding te laten spreken. Altijd slaagt hij erin net dat schijnbaar onbetekenende detail of net die ene boeiende anekdote naar voren te halen die een kunstwerk in een nieuw licht kunnen plaatsen. In Beeldenstorm 3 buigt Van Os zich onder meer over de gelijkenis tussen een Europa Cup beker en een Etruskische kantharos en verdiept hij zich in het cultuurpessimisme van een barpianist. Hij gaat op zoek naar het ideale Jezus imago en staat stil bij de huiveringwekkende kunst van Francis Bacon. Ter gelegenheid van de introductie van de euro bekijkt hij munten uit de Griekse Oudheid en de Italiaanse Renaissance aan de hand van werk van Rousseau en Mauve. Voert hij ons mee naar de oorsprong van de milieubeweging. Met zijn betogen over deze en tal van andere onderwerpen plaatst Van Os kunst opnieuw in een nieuwe, vaak verrassende context. Uiteraard is elk hoofdstuk weer ruim voorzien van fraaie kleurenreproducties van de besproken werken. Beeldenstorm 3 is kortom een must voor iedereen die genoten heeft van de vorige afleveringen op televisie of in boekvorm. Van Os weet stilistische bijzonderheden van een kunstwerk altijd te combineren met informatieve anekdotiek. Hij heeft altijd wel iets over kunst te vertellen waar je van opkijkt. Vrij Nederland over Beeldenstorm 2. Voor meer informatie zie ook <http://www.avro.nl/beeldenstorm> **Van**

Abbemuseum Stedelijk Van Abbemuseum, 2002 In the early 1930s Henri van Abbe began to dream of building a center in Eindhoven where its people could be introduced to the mysteries of contemporary art, a place where they could enjoy art. In 1936 he realized this dream by donating to the city the Van Abbemuseum, which at that time still consisted primarily of artworks purchased and placed on loan by Henri van Abbe himself. Sixty years later the Stedelijk Van Abbemuseum has grown into one of the most prominent museums for modern art in the world. Through the course of its history the visionary acquisition policies of its often distinguished directors have given rise to an impressive collection that includes works by modern masters such as Picasso, Braque, Chagall, Kandinsky, El Lissitzky and Mondrian, as well as by contemporary artists like Douglas Gordon, Pierre Huyghe, Mike Kelley and Marijke van Warmerdam. This publication of this first reference work on the Van Abbemuseum's collection marks the opening of the museum's new building in January 2003. A well-illustrated book, it offers detailed descriptions of the collection, the history of the museum and its collecting policies. Each chapter examines a theme such as De Stijl, CoBrA, Conceptualism and Minimal art and considers works from the collection in their historical context. The catalog offers a representative overview of the Van Abbemuseum collection but also serves as a general

introduction to the art of the twentieth century Published in conjunction with Stedelijk Van Abbemuseum Eindhoven **Dew**
 Marc Mulders, Wilma Sütö, Hans den Hartog Jager, Willem Jan Otten, 2005 Sir Charles Lyell 1797 1875 was one of the most
 renowned geologists of the nineteenth century His Principles of Geology also reissued in this series laid the foundations of
 evolutionary biology and greatly influenced Darwin Lyell s most important contribution to modern geology was his refining
 and popularising of the concept of uniformitarianism the idea that the earth has been formed through slow acting geological
 forces over billions of years These volumes first published in 1845 are the result of Lyell s 1841 lecture tour across the
 United States and Canada in the course of which he made many observations on the formation of the American landscape
 Using the popular format of a travel diary Lyell provides vivid and detailed descriptions of North American geology with
 discussions of important geological sites Volume 2 contains his travels in Canada The Ageing of Materials and Structures
 Klaas van Breugel, Dessi Koleva, Ton van Beek, 2017-11-23 This work is an overview of the state of art on Ageing of Materials
 and structures in the world Ageing of materials is a natural phenomenon Each material we use will age This ageing will
 influence the performance of the object where the materials is used Furthermore the ageing will be affected by the
 surroundings in which the object is placed The main focus of the book is on materials used in infrastructure energy buildings
 and industry The book in effect establishes the definition of ageing and its main research topics that are relevant for society
