March Of The Mounties:

March of the Mounties Sir Cecil E. Denny, 1994-01-01 **The Mounted Police and Prairie Society, 1873-1919**
University of Regina. Canadian Plains Research Center, 1998 This collection of essays presents a variety of scholarly explorations of the nature and role of the Mounties in the Prairie Provinces from the formation of the North West Mounted Police in 1873-74 to its transformation into the Royal Canadian Mounted Police in 1919-20. The essays are grouped into five broad themes: relations with First Nations, law enforcement, social issues including relations with minority groups and labour movements, characteristics of the police force and crisis and change, police-immigrant relations, response to labour unrest and the origins of domestic intelligence and counter-subversion. An epilogue presents the case for the dramatic change of the force after 1919-20 and the new force's use of the positive image created by the old force. **Denny's Trek** Cecil E. Denny, 2011-02-01 Like many other pioneering North West Mounted Police officers, Cecil Denny was a colourful independent man with a career full of conquest and controversy. He and his comrades played key roles in the taming of Canada's wild and woolly west and in this compilation of selected writings from his books *The Law Marches West* and *The Riders of the Plains*, we get that story straight from the horse's mouth. Denny relates the fascinating saga of the newly formed police force's 800-mile trek west in 1874 to deal with outlaw whisky traders, then gives us a first-hand account of the challenges and adventures they experienced bringing law and order to this great lone land. Denny's Trek features an illuminating new introduction to this observant writer providing fresh insights into the times and the character of a steadfast man who helped shape Canada's West. **The Mounties** Elle Andra-Warner, 2011-02-01 Since 1873 the Mounties have brought the law to the furthest reaches of the Canadian frontier. Sam Steele, the Lion of the North, was involved in almost every significant event in the Canadian West. James Macleod and James Walsh negotiated peace with the First Nations peoples. Less famous, unsung heroes risked their lives enforcing justice in the Canadian wilds. From stopping the whisky trade to policing the chaotic gold rush and patrolling the lonely North, these true tales of the early days of the Force are sure to amaze and entertain. *The Frontier World of Edgar Dewdney* E. Brian Titley, 1999 In the late 19th century, western Canada was transformed by waves of immigrants who brought their own technology and institutions. This text explores this period and one such immigrant, Edgar Dewdney, who became a key participant in the decisions that shaped the country. *Making Good* Carolyn Strange, Tina Merrill Loo, 1997-01-01 Examines the official institutions which regulated moral conduct in Canada and analyses the ways in which different social groups had distinct relationships to legal modes of regulation. **The Mountie** Michael Dawson, 1998-04-01 Historian Michael Dawson digs deep into the written and pictorial record to reveal how the RCMP since its inception has constructed and zealously guarded its public image. Drawing on previously untapped sources, Dawson documents how consultants and entrepreneurs deliberately transformed and modernized the traditional symbolism of the Mountie. His trenchant analysis extends to the ironies of the recent licensing of the hallowed Mountie image to the ultimate
