The Publisher Alan Brinkley, 2011-04-05 Acclaimed historian Alan Brinkley gives us a sharply realized portrait of Henry Luce arguably the most important publisher of the twentieth century As the founder of Time Fortune and Life magazines Luce changed the way we consume news and the way we understand our world Born the son of missionaries Henry Luce spent his childhood in rural China yet he glimpsed a milieu of power altogether different at Hotchkiss and later at Yale While working at a Baltimore newspaper he and Brit Hadden conceived the idea of Time a news magazine that would condense the week's events in a format accessible to increasingly busy members of the middle class They launched it in 1923 and young Luce quickly became a publishing titan In 1936 after Time's unexpected success and Hadden's early death Luce published the first issue of Life to which millions soon subscribed Brinkley shows how Luce reinvented the magazine industry in just a decade The appeal of Life seemingly cut across the lines of race class and gender Luce himself wielded influence hitherto unknown among journalists By the early 1940s he had come to see his magazines as vehicles to advocate for America's involvement in the escalating international crisis in the process popularizing the phrase World War II In spite of Luce's great success happiness eluded him His second marriage to the glamorous playwright politician and diplomat Clare Boothe was a shambles Luce spent his later years in isolation consumed at times with conspiracy theories and peculiar vendettas The Publisher tells a great American story of spectacular achievement yet it never loses sight of the public and private costs at which that achievement came

each country The author's meticulous analysis of a vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre-existing stereotypes pressure groups and geopolitical aspirations

**Shot on Location** R. Barton Palmer, 2016-02-18 In the early days of filmmaking before many of Hollywood's elaborate sets and soundstages had been built it was common for movies to be shot on location Decades later Hollywood filmmakers rediscovered the practice of using real locations and documentary footage in their narrative features Why did this happen What caused this sudden change Renowned film scholar R Barton Palmer answers this question in Shot on Location by exploring the historical ideological economic and technological developments that led Hollywood to head back outside in order to capture footage of real places His groundbreaking research reveals that wartime newsreels had a massive influence on postwar Hollywood film although there are key distinctions to be made between these movies and their closest contemporaries Italian neorealist films Considering how these practices were used in everything from war movies like *Twelve O'Clock High* to westerns like *The Searchers* Palmer explores how the blurring of the formal boundaries between cinematic journalism and fiction lent a reality effect to otherwise implausible stories Shot on Location describes how the period's greatest directors from Alfred Hitchcock to Billy Wilder increasingly moved beyond the confines of the studio At the same time the book acknowledges the collaborative nature of moviemaking identifying key roles that screenwriters art designers location scouts and editors played in incorporating actual geographical locales and social milieus within a fictional framework Palmer thus offers a fascinating behind-the-scenes look at how Hollywood transformed the way we view real spaces

**Researching Newsreels** Ciara Chambers, Mats Jönsson, Roel Vande Winkel, 2018-09-14 This volume addresses the underscrutinised topic of cinema newsreels These short multi-themed newsfilms usually accompanied by explanatory intertitles or voiceovers were a central part of the filmgoing experience

around the world from 1910 through the late 1960s and in many cases even later. As the only source of moving image news available before the widespread advent of television, newsreels are important social documents recording what the general public was told and shown about the events and personalities of the day. Often disregarded as quirky or trivial, they were heavily utilised as propaganda vehicles offering insights into the socio-political norms reflected in cinema during the first half of the twentieth century. The book presents a range of current research being undertaken in newsreel studies internationally and makes a case for a reconsideration of the importance of newsreels in the wider landscape of film history.

*A Social History of the Media* Asa Briggs, Peter Burke, 2005-07-29. It will be an ideal text for students in history, media and cultural studies and journalism, but it will also appeal to a wide general readership.

*Selling War* Nicholas John Cull, 1996-09-26. British propaganda brought America to the brink of war and left it to the Japanese and Hitler to finish the job. So concludes Nicholas Cull in this absorbing study of how the United States was transformed from isolationism to belligerence in the years before the attack on Pearl Harbor. From the moment it realized that all was lost without American aid, the British Government employed a host of persuasive tactics to draw the US to its rescue. With the help of talents as varied as those of matinee idol Leslie Howard, Oxford philosopher Isaiah Berlin and society photographer Cecil Beaton, no section of America remained untouched and no method from Secret Service intrigue to the publication of horrifying pictures of Nazi atrocities remained untried. The British sought and won the support of key journalists and broadcasters including Edward R. Murrow, Dorothy Thompson and Walter Winchell. Hollywood film makers also played a willing part. Cull details these and other propaganda activities covering the entire range of the British effort. A fascinating story of how a foreign country provoked America's involvement in its greatest war. *Selling War* will appeal to all those interested in the modern cultural and political history of Britain and the United States.

*Media and the British Empire* C. Kaul, 2006-03-28. The only true history of a country, wrote Thomas Macaulay, is to be found in its newspapers. This book explores how the media shaped and defined the economic, social, political and cultural dynamics of the British Empire by viewing it from the perspective of the colonised as well as the colonisers.

This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old, with essays that provide essential information on the subject as well as comment on the significance of the particular person, organization or topic being examined.

*Motion Picture Photography* H. Mario Raimondo-Souto, 2014-11-18. In 1891, William Dickson, a researcher at Thomas Edison's firm, developed the Kinetograph, a motion picture camera that used Eastman Kodak's new celluloid film. Almost immediately, an industry was born. The new artistic and technical discipline of motion picture photography matured as the film industry grew. From the
