*North Central Quarterly*, 1929      **Private Confederacies** James J. Broomall, 2019-01-10 How did the Civil War emancipation and Reconstruction shape the masculinity of white Confederate veterans As James J Broomall shows the crisis of the war forced a reconfiguration of the emotional worlds of the men who took up arms for the South Raised in an antebellum culture that demanded restraint and shaped white men to embrace self reliant masculinity Confederate soldiers lived and fought within military units where they experienced the traumatic strain of combat and its privations together all the while being separated from suffering families Military service provoked changes that escalated with the end of slavery and the Confederacy's military defeat Returning to civilian life Southern veterans questioned themselves as never before sometimes suffering from terrible self doubt Drawing on personal letters and diaries Broomall argues that the crisis of defeat ultimately necessitated new forms of expression between veterans and among men and women On the one hand war led men to express levels of emotionality and vulnerability previously assumed the domain of women On the other hand these men also embraced a virulent martial masculinity that they wielded during Reconstruction and beyond to suppress freed peoples and restore white rule through paramilitary organizations and the Ku Klux Klan      **The Journey North** Peter Warren, Roy McKinney, Edward Odom, 2013 The American Civil War still captivates our interest As the war entered its third summer the Confederate army met the Union army in July 1863 in Gettysburg Pennsylvania During the second day of this three day battle some of the most brutal fighting occurred at Little Round Top This story describes the bloody fighting that took place between the Union's 20th Maine and the South's 15th Alabama It also describes how two fictional soldiers meet on Little Round Top and become friends This meeting portrays those that often took place between opposing soldiers They were random acts of compassion during a brutal war These soldiers pushed aside their differences to become friends In an act of kindness one of these soldiers initiated their friendship while the other cemented their friendship by a personal sacrifice he later made It was a friendship that would last for years      *Calendar of the Patent Rolls Preserved in the Public Record Office* Great Britain. Public Record Office, 1901      **State-Building in the Middle East and North Africa** Mohammad-Mahmoud Ould Mohamedou, 2021-10-21 Why have state building projects across the MENA region proven to be so difficult for so long Following the end of the Ottoman Empire in the early 1920s the countries of the region began a violent and divisive process of state formation But a century later state building remains inconclusive This book traces the emergence and evolution of state building across the MENA region and identifies the main factors that impeded its success the slow end of the Ottoman Empire the experience of colonialism and the rise of nationalistic and religious movements The authors reveal the ways in which the post colonial state proved itself authoritarian and formed on the model of the colonial state They also identify the nationalist and Islamist movements that competed for political leadership across the nascent systems enabling the military to establish a grip on the security apparatus and national economies Finally in the context of the Arab Spring and its conflict

filled aftermath this book shows how external powers reasserted their interventionism In outlining the reasons why regional states remained hollow and devoid of legitimacy each of the contributors shows that recent conflicts and crises are deeply connected to the foundational period of one century ago Edited by Mohammad Mahmoud Ould Mohamedou the volume features contributions by stellar scholars including Faleh Abdel Jabar Lisa Anderson Bertrand Badie Fran ois Burgat Benoit Challand Ahmad Khalidi Henry Laurens Bruce Rutherford Jordi Tejel and Ghassan Salam     **Historical Dictionary of the Republic of Korea** James E. of American nuclear weapons in conflicts with a non nuclear China in the Korean War and the Taiwan Strait crises of 1954 1955 and 1958 this study analyzes the American tendency to become involved in confrontations with far weaker powers over issues of very little strategic significance to the United States Washington threatens these adversaries with the use of incommensurate levels of force then ultimately backs down in the face of international and domestic opposition to ill considered plans to use force Unlike works on nuclear history that have either focused on superpower nuclear conflicts and ignored cases of American nuclear diplomacy toward non nuclear adversaries or those that have focused merely on the outcomes of nuclear threats against non nuclear powers this book considers in depth American nuclear diplomacy toward China during the whole period of Sino American military confrontations Soman offers new insights on Truman s decision to enter the Korean War the extent of nuclear diplomacy during the war and the way in which the war ended He argues that the goal of American nuclear diplomacy in the spring of 1955 was to provoke a war with China rather than to deter a Chinese attack on Taiwan Finally he lays out for the first time in print the elaborate diplomacy that Secretary of State John Foster Dulles initiated to defuse the 1958 crisis involving a major shift in American policy that still remains hidden from the public as well as historians Highlighting the central role of nuclear diplomacy in these crises this book draws conclusions on the efficacy of such diplomacy the impact of these crises on the development of policies of massive retaliation and limited war the consequences of Dulles s brinkmanship and the revival of nuclear diplomacy by the Clinton administration in conflicts with non nuclear adversaries

"If We Are Striking for Pennsylvania", Volume 1: June 3-21, 1863 Scott L. Mingus,Eric J. Wittenberg,2024-01-05 Scott L Mingus Sr and Eric J Wittenberg the authors of more than forty Civil War books have once again teamed up to present a history of the opening moves of the Gettysburg Campaign in the two volume study If We Are Striking for Pennsylvania The Army of Northern Virginia and the Army of the Potomac March to Gettysburg This compelling study is one of the first to integrate the military media political social economic and civilian perspectives with rank and file accounts from the soldiers of both armies as they inexorably march toward their destiny at Gettysburg This first installment covers June 3 21 1863 while the second spanning June 22 30 completes the march and carries the armies to the eve of the fighting Gen Robert E Lee began moving part of his Army of Northern Virginia from the Old Dominion toward Pennsylvania on June 3 1863 Lee believed his army needed to win a major victory on Northern soil if the South was to have a chance at winning the war Transferring the fighting out of war torn Virginia would allow the state time to heal while he supplied his army from untapped farms and stores in Maryland and the Keystone State Lee had also convinced Pres Jefferson Davis that his offensive would interfere with the Union effort to take Vicksburg in Mississippi The bold movement would trigger extensive cavalry fighting and a major battle at Winchester before culminating in the bloody three day battle at Gettysburg As the Virginia army moved north the Army of the Potomac responded by protecting the vital roads to Washington D C in

case Lee turned to threaten the capital Opposing presidents Abraham Lincoln and Jefferson Davis meanwhile kept a close watch on the latest and often conflicting military intelligence gathered in the field Throughout northern Virginia central Maryland and south central Pennsylvania meanwhile civilians and soldiers alike struggled with the reality of a mobile campaign and the massive logistical needs of the armies Thousands left written accounts of the passage of the long martial columns Mingus and Wittenberg mined hundreds of primary accounts newspapers and other sources to produce this powerful and gripping account As readers will quickly learn much of it is glossed over in other studies of the campaign which cannot be fully understood without a firm appreciation of what the armies and civilians did on their way to the small crossroads town in Pennsylvania     *Hayden's Annual Cyclopedia of Insurance in the United States* ,1903     **The**

**Cyclopedia of American Biography** James Edward Homans,Herbert M. Linen,L. E. Dearborn,1918     Fighting the French Revolution Rob Harper,2019-02-28 This vivid history of late 18th century France chronicles the little known counterrevolution that threatened the First Republic 1793 was a year of great turmoil in France With foreign invasion along its borders and a political war raging in Paris a large scale revolt suddenly erupted in the western Department of the Vend e The Vend e Militaire almost brought the new born French Republic to its knees The immediate trigger for this Great War of the Vend e was the attempted imposition of conscription But the region seethed at the erosion of its traditional values and way of life The persecution of the Catholic Church and killing of the king symbolized to the Vend ens how dangerous the new Republic had become In a matter of weeks tens of thousands had flocked to fight for the Catholic and Royal cause This is the story of the new Republic s ferocious military campaigns against the armies of the Vend e which fought a dogged battle from March to December of 1793 Napoleon later called it The War of Giants and it directly led to the implementation of some of the Republic s most extreme laws     **Minutes of the General Conference of the Congregational Churches in Maine and Maine Missionary Society** Congregational Churches in Maine.
