**Marching on Washington** Lucy G. Barber,2023-09-01 When Jacob Coxey s army marched into Washington D C in 1894 observers didn t know what to make of this concerted effort by citizens to use the capital for national public protest By 1971 however when thousands marched to protest the war in Vietnam what had once been outside the political order had become an American political norm Lucy G Barber s lively erudite history explains just how this tactic achieved its transformation from unacceptable to legitimate Barber shows how such highly visible events contributed to the development of a broader and more inclusive view of citizenship and transformed the capital from the exclusive domain of politicians and officials into a national stage for Americans to participate directly in national politics When Jacob Coxey s army marched into Washington D C in 1894 observers didn t know what to make of this concerted effort by citizens to use the capital for national public protest By 1971 however when thousands marched to protest the war in Vietnam

Breaking White Supremacy Gary Dorrien,2018-01-09 The award winning author of *The New Abolition* continues his history of black social gospel with this study of its influence on the Civil Rights movement The civil rights movement was one of the most searing developments in modern American history It abounded with noble visions resounded with magnificent rhetoric and ended in nightmarish despair It won a few legislative victories and had a profound impact on U S society but failed to break white supremacy The symbol of the movement Martin Luther King Jr soared so high that he tends to overwhelm anything associated with him Yet the tradition that best describes him and other leaders of the civil rights movement has been strangely overlooked In his latest book Gary Dorrien continues to unearth the heyday and legacy of the black social gospel a tradition with a shimmering history a martyred central figure and enduring relevance today This part of the story centers around King and the mid twentieth century black church leaders who embraced the progressive justice oriented internationalist social gospel from the beginning of their careers and fulfilled it inspiring and leading America s greatest liberation movement

**Marching Blacks, an Interpretive History of the Black Common Man** Adam Clayton Powell, Jr., **Toward Freedom Land** Harvard Sitkoff,2010-07-23 The ongoing struggle for civil rights and social justice lies at the heart of America s evolving identity The pursuit of equal rights is often met with social and political trepidation forcing citizens and leaders to grapple with controversial issues of race class and gender Renowned scholar Harvard Sitkoff has devoted his life to the study of the civil rights movement becoming a key figure in global human rights discussions and an authority on American liberalism *Toward Freedom Land* assembles Sitkoff s writings on twentieth century race relations representing some of the finest race

related historical research on record Spanning thirty five years of Sitkoff s distinguished career the collection features an in depth examination of the Great Depression and its effects on African Americans the intriguing story of the labor movement and its relationship to African American workers and a discussion of the effects of World War II on the civil rights movement His precise analysis illuminates multifaceted racial issues including the New Deal s impact on race relations the Detroit Riot of 1943 and connections between African Americans Jews and the Holocaust

**Encyclopedia of African American History, 1896 to the Present** Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century

**The Divided Mind of the Black Church** Raphael G Warnock, 2013-12-06 An altar call to action from the U S senator and senior pastor at Atlanta s Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community s fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm s length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced This book traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church s essential mission An informative work for historians theologians and humanities scholars interested in debating what the Black Church needs to be doing in the 21st century Journal of African American History As a person who is not Black reading this book provided a learning experience for me I could also see this book serving as a way to spark discussion involving all ethnic groups as to how we can all as fellow Christians blend the goals of saving lost people and moving the culture toward equality for everyone Ministry Well written and meticulously researched The Christian Century

**The Black Child-Savers** Geoff K. Ward, 2012-06-29 During the Progressive Era a rehabilitative agenda took hold of American juvenile justice materializing as a citizen and state building project and mirroring the unequal racial politics of American democracy itself Alongside this liberal manufactory of citizens a parallel structure was enacted a Jim Crow juvenile justice system that endured across the nation for most of the twentieth century In *The Black Child Savers* the first study of the rise and fall of Jim Crow juvenile justice Geoff Ward examines the origins and organization of this separate and unequal juvenile justice system Ward explores how generations of black child savers mobilized to challenge the threat to black youth and community interests and how this

struggle grew aligned with a wider civil rights movement eventually forcing the formal integration of American juvenile justice Ward's book reveals nearly a century of struggle to build a more democratic model of juvenile justice an effort that succeeded in part but ultimately failed to deliver black youth and community to liberal rehabilitative ideals At once an inspiring story about the shifting boundaries of race citizenship and democracy in America and a crucial look at the nature of racial inequality *The Black Child Savers* is a stirring account of the stakes and meaning of social justice

*Black Liberation/red Scare* Gerald Horne, 1994-07 *Black Liberation Red Scare* is a study of an African American Communist leader Ben Davis Jr 1904-64 Though it examines the numerous grassroots campaigns that he was involved in it is first and foremost a study of the man and secondarily a study of the Communist party from the 1930s to the 1960s By examining the public life of an important party leader Gerald Horne uniquely approaches the story of how and why the party rose and fell Ben Davis Jr was the son of a prominent Atlanta publisher and businessman who was also the top African American leader of the Republican party until the onset of the Great Depression Davis was trained for the black elite at Morehouse Amherst and Harvard Law School After graduating from Harvard he joined the Communist party where he remained as one of its most visible leaders for thirty years In 1943 after being endorsed by his predecessor Adam Clayton Powell Jr he was elected to the New York City Council from Harlem and subsequently reelected by a larger margin in 1945 Davis received support from such community figures as NAACP leader Roy Wilkins boxer Joe Louis and musician Duke Ellington While on the council Davis fought for rent control and progressive taxation and struggled against transit fare hikes and police brutality With the onset of the Red Scare and the Cold War Davis like the Communist party itself was marginalized The Cold War made it difficult for the U S to compete with Moscow for the hearts and minds of African Americans while they were subjected to third class citizenship at home Yet in return for civil rights concessions African American organizations such as the NAACP were forced to distance themselves from figures such as Ben Davis In 1949 he was ousted unceremoniously and perhaps illegally from the City Council He was put on trial jailed in 1951 and not released until 1956 when the civil rights movement was gathering momentum His friendship with the King family based upon family ties in Atlanta was the ostensible cause for the FBI surveillance of Dr Martin Luther King Jr and COINTELPRO the counterintelligence program of the FBI which was aimed initially at the CP USA made sure to keep a close eye on Davis as well But when the civil rights movement reached full strength in the 1960s Davis's controversial appearances at college campuses helped to set the stage for a new era of activism at universities Davis died in 1964 According to Horne the time has now come when he along with his good friend Paul Robeson and W E B DuBois should be regarded as a premier leader of African Americans and the U S Left during the twentieth century

David Cronon, 1960-03-15 In the early twentieth century Marcus Garvey sowed the seeds of a new black pride and determination Attacked by the black intelligentsia and ridiculed by the white press this Jamaican immigrant astonished all with his black nationalist rhetoric In just four years he built the Universal Negro Improvement Association UNIA the largest and most powerful all black organization the nation had ever seen With hundreds of branches throughout the United States the UNIA represented Garvey s greatest accomplishment and ironically the source of his public disgrace Black Moses brings this controversial figure to life and recovers the significance of his life and work Those who are interested in the revolutionary aspects of the twentieth century in America should not miss Cronon s book It makes exciting reading The Nation A very readable factual and well documented biography of Marcus Garvey The Crisis NAACP In a short swiftly moving penetrating biography Mr Cronon has made the first real attempt to narrate the Garvey story From the Jamaican s traumatic race experiences on the West Indian island to dizzy success and inglorious failure on the mainland the major outlines are here etched with sympathy understanding and insight Mississippi Valley Historical Review Now the Journal of American History Good reading for all serious history students Jet A vivid detailed and sound portrait of a man and his dreams Political Science Quarterly      **Black Globalism** Sterling Johnson, 2019-05-23 First published in 1998 Black Globalism The International Politics of a Non state Nation examines the international political behaviour of African Americans From the slave revolts of Denmark Vesey and Nat Turner to the influence of the Congressional Black Caucus on US foreign policy the author examines the impact of the domestic racial environment on the international interests and activities of African Americans Black Globalism uses three levels of analysis to describe the dimensions of this international activity At the individual level the emigration debate which included Frederick Douglass David Walker Benjamin Russworm Paul Cuffee Martin Delany is considered Here the emigration efforts of Chief Alfred Sam Bishop Henry Turner and Marcus Garvey are examined The influence of scholar and activist W E B DuBois and the leadership of Malcolm X is examined with respect to their ideological impact on the transnational political activity on organizations such as the National Association for the Advancement of Coloured People the Nation of Islam and the Black Panther Party From the 1869 appointment of Andrew Young to the US Ambassador to the United Nations the impact of African Americans on US foreign policy decision making is examined This includes the Congressional Black Caucus influence on president Clinton s humanitarian intervention in Haiti This governmental level analysis includes an examination of the history and politics of desegregating the US Department of State Finally the relative economic status of African Americans in the domestic and global economic system is considered with respect to the shrinking of the welfare state and

the challenges of the post cold war global economy      The Education of African-Americans Charles V. Willie, Antoine M. Garibaldi, Wornie L. Reed, 1991-05-23 As part of a project on the status of African Americans that was initiated by the William Monroe Institute for the Study of Black Culture at the University of Massachusetts at Boston this volume takes a comprehensive look at the education of African Americans specifically early childhood through postsecondary education and relevant public policy issues since 1940 The list of contributors to the study includes both white and black scholars who are affiliated with primarily urban institutions located in the Northwest the South and on the East Coast who are deeply committed to educational research By focusing on the known status of the education of African Americans to date and the additional factors which need to be considered in order to develop appropriate educational strategies these essays evaluate current programs and provide recommendations for public policy improvements Each essay addresses some aspect of the history of the education of African Americans or the effectiveness of pertinent laws and policies enacted within the past fifty years Trends in the educational advancement of Blacks are clearly defined with particular focus on the forecasting of circumstances that could affect future progress Topics ranging from counseling and guidance of minority children to the need for more Black teachers and the continuing struggle with racial violence on campus demonstrate the broad scope of this volume Suggestions for further reading on a specific topic appear in the list of references at the end of each chapter      **Jet**, 1986-01-20 The weekly source of African American political and entertainment news      *The Black Image in the White Mind* Robert M. Entman, Andrew Rojecki, 2024-05-31 Living in a segregated society white Americans learn about African Americans not through personal relationships but through the images the media show them The Black Image in the White Mind offers the most comprehensive look at the intricate racial patterns in the mass media and how they shape the ambivalent attitudes of Whites toward Blacks Using the media and especially television as barometers of race relations Robert Entman and Andrew Rojecki explore but then go beyond the treatment of African Americans on network and local news to incisively uncover the messages sent about race by the entertainment industry from prime time dramas and sitcoms to commercials and Hollywood movies While the authors find very little in the media that intentionally promotes racism they find even less that advances racial harmony They reveal instead a subtle pattern of images that while making room for Blacks implies a racial hierarchy with Whites on top and promotes a sense of difference and conflict Commercials for example feature plenty of Black characters But unlike Whites they rarely speak to or touch one another In prime time the few Blacks who escape sitcom buffoonery rarely enjoy informal friendly contact with White colleagues perhaps reinforcing social distance in real life Entman and Rojecki interweave such astute observations with candid interviews of White Americans that make clear how these images of racial difference insinuate themselves into Whites thinking Despite its disturbing readings of television and film the book s cogent analyses and proposed policy guidelines offer hope that America s powerful mediated racial separation can be successfully bridged Entman and Rojecki look at how television news focuses on black poverty and crime out of

proportion to the material reality of black lives how black experts are only interviewed for black themed issues and how black politics are distorted in the news and conclude that while there are more images of African Americans on television now than there were years ago these images often don't reflect a commitment to racial comity or community building between the races Thoroughly researched and convincingly argued Publishers Weekly Drawing on their own research and that of a wide array of other scholars Entman and Rojecki present a great deal of provocative data showing a general tendency to devalue blacks or force them into stock categories Ben Yagoda New Leader Winner of the Frank Luther Mott Award for best book in Mass Communication and the Robert E Lane Award for best book in political psychology **Civil Rights Since 1787**
