Marcion Muhammad The Mahatma Exegetical Perspectives On The Encounter Of Cultures Faiths:

Marcion, Muhammad and the Mahatma Heikki Räisänen, 1997 Argues that the new historical consciousness of the relativity of all cultures profoundly affects our view of scripture

Challenges to Biblical Interpretation Heikki Räisänen, 2001-01-01 This book questions the authenticity of some sayings and stories counted to the bedrock of the Jesus tradition analyses the ambiguous relationship of early Christians to their Jewish heritage and offers a fresh discussion of fundamental questions of principle It offers a selection of the author's seminal recent articles focusing on Jesus Paul and questions of principle The author reflects on the use of New Testament in responsible modern theology defending classical historical criticism against recent challenges

The Fabricated Christ Paul Laffan, 2019-06-24 The last 150 years of biblical scholarship have revolutionised the understanding of the four Gospels The revolution remains however largely unknown to the general public Paul Laffan's *The Fabricated Christ* argues for the wider dissemination of this knowledge and tasks those engaged in biblical criticism with greater honesty and frankness about the results of their research

The Radical Jesus, the Bible, and the Great Transformation Douglas E. Oakman, 2021-01-25 The *Radical Jesus* offers a companion to the author's previous article collection *Jesus and the Peasants* Even more than in *Jesus and the Peasants* these eleven chapters sharpen the focus on the political economic meaning of Jesus then and the deeper values embodied in him that perhaps are still pertinent for now Part One considers his activities and aims within the political economy of first century Galilee Part Two offers perspectives on the critical hermeneutical task of linking the values of Jesus and the Bible to a world that has undergone what Karl Polanyi called the Great Transformation Polanyi argued persuasively in his 1944 book that economy in the pre industrial age was embedded in social relations and served necessary social purposes while society after the Great Transformation became embedded within market capitalist economy to the detriment of social relations This book finds in sustained critical dialog with the *Radical Jesus* another transforming force and a guiding light toward a more humane economy and society that will serve human need rather than selfish greed

Identity Matters Raimo Hakola, 2005-03-01 This book challenges current scholarly consensus concerning John's references to the Jews in two ways First the author suggests that John's portrayal of the Jews cannot be understood as a response to the violent policy of John's opponents Second the author claims that John's portrayal of Jewishness is much more ambivalent than is often claimed today The first part of the book offers a detailed criticism on the so called two level reading strategy which claims that John's references to the Jews emerge from the conflict with rabbinic Judaism The second part examines in detail John's relationship to some basic markers of Jewishness The book contributes to the ongoing discussion of anti Judaism in John and efforts to understand John's historical setting

Jesus and the Peasants Douglas E. Oakman, 2008-01-01 While some of the chapters focus on systemic issues others probe the depths of individual Gospel passages The author's keen eye for textual detail archaeological data comparative materials and systemic overviews make this volume a joy for anyone interested in understanding Jesus in

his own context The volume is organized into three interrelated parts 1 political economy and the peasant values of Jesus 2 the Jesus traditions within peasant realities and 3 the peasant aims of Jesus **Three Skeptics and the Bible** Jeffrey L. Morrow, 2016-01-19 Biblical scholars by and large remain unaware of the history of their own discipline This present volume seeks to remedy that situation by exploring the early history of modern biblical criticism in the seventeenth century prior to the time of the Enlightenment when the birth of modern biblical criticism is usually dated After surveying the earlier medieval origins of modern biblical criticism the essays in this book focus on the more skeptical works of Isaac La Peyrere Thomas Hobbes and Baruch Spinoza whose biblical interpretation laid the foundation for what would emerge in the eighteenth and nineteenth centuries as modern biblical criticism **The Genesis Meditations** Neil Douglas-Klotz, 2003 This book teaches how Jesus actually may have meditated and recreates the step by step examples the reader can follow *Either Jew Or Gentile* Eung Chun Park, 2003-01-01 In this book Eung Chun Park reconstructs a focused and coherent narrative of the last two decades of the life of Paul as it revolved around the Gentile mission The result is a detailed and thorough analysis of the Pauline letters that demonstrates how Paul's theology changed over the course of his life as a consequence of his struggle to defend the gospel against the attacks from people who advocated a different kind of gospel This book traces the development of the two gospels one that advocated freedom from circumcision and one that advocated observance of circumcision as they encountered such landmark events as the Apostolic Council in Jerusalem the Antioch incident the Galatian incident the Corinthian incident and Paul's last visit to Jerusalem **Biblical Interpretation in Early Christian Gospels** Thomas R. Hatina, 2008-08-18 The second title in a proposed five volume work volume two following on from the volume on Mark's Gospel concentrates on Matthew's Gospel Contributors consider the function of embedded scripture texts in the context of the Gospels written and read heard in their early Christian settings The project is wide ranging with essays on the function of scripture in the compositional history of the gospels and the collection is broad in scope as a result of current interest in the integration of methods especially historical and narrative ones Advancements over the last 20 years in the study of genre and narrative criticism have left a void in the study of the function of embedded biblical texts in the Gospels This collection of essays will move the study of scripture within scripture forwards **Her Master's Tools?** Caroline Vander Stichele, Todd C. Penner, 2005 **Is He Out There?** Paul Laffan, 2022-12-01 Is He Out There is an interdisciplinary examination of the Christian reaction to Dawkins' The God Delusion That reaction has offered a wide range of counter arguments among them that Dawkins' demonstration of how God almost certainly doesn't exist addresses an out dated conception of God that science and religion are not conflictual as Dawkins contends and indeed may well be converging upon an understanding of how God acts in the universe that Dawkins' denigration of the Bible depends on an overly literal reading and that Dawkins assumes a narrative of progress in which human beings take the place of God in controlling the course of history Is He Out There responds to these arguments in the context of current scientific

understanding biblical criticism and philosophy Paul Laffan demonstrates how the desire to meet the challenge posed by Dawkinss viewpoint has led to the perversion of scientific theories and accepted positions in other important fields of inquiry It suggests that Christianity is wedded to a God who is the cause of the universe a classical conception of cause that is anachronistic that denying the Bible was read for most of the Christian era as offering a literal account of divine creation is a significant misrepresentation of doctrinal history and that a complete dismissal of progress requires the dismissal of scientific achievement The author considers the extent to which attractive secular values like tolerance and freedom of opinion are Christian in source and whether moral systems require God to underwrite them The wide ranging nature of Is He Out There not only provides a review of the state of contemporary Christian apology but is a measured address of the arguments put forward in The God Delusion and indeed of the substantive commentary on Dawkinss thesis **Making**

Sense of Old Testament Genocide Christian Hofreiter,2018-02-23 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles Making Sense of Old Testament Genocide Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today **Modern Western Christian Theological Understandings of Muslims Since the Second Vatican**

Council Mahmut Aydin,2002 *Sino-Christian Theology* Pan-Chiu Lai,2010 Sino Christian theology usually refers to an intellectual movement emerged in Mainland China since the late 1980s The present volume aims to provide a self explaining sketch of the historical development of this theological as well as cultural movement In addition to the analyses on the theoretical issues involved and the articulations of the prospect concrete examples are also offered to illustrate the characteristics of the movement **The Arch-heretic Marcion** Sebastian Moll,2010 Originally presented as the author s

thesis Ph D University of Edinburgh 2009 *Justin against Marcion* Andrew Hayes, 2017-04-01 In a period where Christianity was only beginning to form a definitive identity Marcion played a remarkable and generative role Andrew Hayes takes the measure of his impact on second century Christianity through a close examination of the topics and structure of Justin Martyr's writings especially the Dialogue with Trypho demonstrating that Justin repeatedly described Christianity in a contra Marcionite fashion Arguing that the early part of the Dialogue is in fact a contra Marcionite prelude to all the major themes in the rest of the piece Hayes claims that the chief task Justin took for himself was to seize back from Marcion the terms of Christian self definition Marcion is thus far more important for Justin's work than the few places where he is explicitly named might suggest and Hayes shows that these texts are far from anomalous they reveal Justin's deeper agenda of presenting Marcion as a demonic instrument Students of the second century of Marcion and of Justin alike will find much to reevaluate in these pages *Making Sense of Religious Pluralism* Alan Race, 2013-06-20 Is Christian faith the only or best route to relationship with God New relationships shared common action and dialogue between people whose experiences differ are changing the way Christian theologians are thinking about religious pluralism No longer objects of ridicule or condemnation world religions are genuine vehicles of spiritual vision capable of transforming human hearts and minds It has taken Christian theology many years to come to this point and there is no going back Alan Race is an outstanding expert in the interreligious field and has throughout his career and ministry built up a high reputation for understanding and dialogue between faith communities Here he deals with the use of Scripture inclusivism and exclusivism pluralism and particularism mission and dialogue The next phase of Christian thought he argues will be shaped by new appreciation and insight stemming from the fact that Christianity is one religion among many *A Companion to Second-Century Christian 'Heretics'* Antti Marjanen, Petri Luomanen, 2008 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites **Unruly Books** Esther Brownsmith, Liv Ingeborg Lied, Marianne Bjelland Kartzow, 2024-12-12 This volume explores the idea of the unruly book from books now known by their titles alone to books that subverted structures of power and gender The contributors show how these books functioned as sticky objects and they examine the story of what such books signified to the people who wrote read discussed yearned for or even prohibited them The books examined are those of the first millennium of the Common Era and the writings of Judaism Christianity Islam and related traditions In particular the contributors examine the bounty of books within this period that are hard to pin down whether extant lost or imagined books that challenge modern scholars to reconceptualize our notions of books biblical or otherwise religion manuscript culture and intellectual history Through the critical analyses presented in this volume the contributors negotiate the diverse stories told by unruly books and show that by listening to the stories that books tell we learn more about the worlds that imagined and

discussed them
