Myths And Symbols In Pagan Europe Early Scandinavian And Celtic Religions:

Myths and Symbols in Pagan Europe H. R. Ellis Davidson, 1988-06-01 Most people know of Valhalla the World Tree and the gods of Norse mythology or the strange hunts and voyages of the ancient Irish tales Yet few people realise the significance of the similarities and contrasts between the religions of the pre Christian people of north western Europe The Celts and Germans and Scandinavians had much in common in their religious practices and beliefs and this is the first serious attempt that has been made to compare them There are striking resemblances in their ideas about battle goddesses and protective spirits holy places sacrificial rituals divination and ideas about the Other World and Myths and Symbols in Pagan Europe poses questions like do such parallels go back to early times or are they owing to late Viking contact Hilda Ellis Davidson has worked for many years on pre Christian Scandinavian and Germanic religion and now compares them with the Celts from the background of previous studies using evidence from archaeology iconography later literature and folklore in a search for basic patterns which will add to our knowledge of the early peoples in Europe Aimed at teachers and libraries but also accessible to students of history religion and Celtic Norse and German languages and cultures **Myths and Symbols in Pagan Europe** Thor Templar, 2001-07-01 **A Brief Guide to Celtic Myths and Legends** Martyn Whittock, 2013-10-03 A very readable guide which fills the gap between academic analysis and less critical retellings of the myths and legends Marytn Whittock provides an accessible overview while also assessing the current state of research regarding the origins and significance of the myths Since all records of the myths first occur in the early medieval period the focus is on the survival of pre Christian mythology and the interactions of the early Christian writers with these myths A wide ranging and enthralling introduction to Celtic mythology from the Irish gods before gods the Fomorians to the children of Llyr the sea deity from the hunter warrior Fionn mac Cumhaill whose exploits are chronicled in the Fenian Cycle to C Chulainn the Hound of Ulster and from the Welsh heroes of the Mabinogion to Arthur King of Britain though the mythical Welsh version who predates the medieval legends **The Handbook of Religions in Ancient Europe** Lisbeth Bredholt Christensen, Olav Hammer, David Warburton, 2014-09-11 The Handbook of Religions in Ancient Europe surveys the major religious currents of Europe before Christianity the first continental religion with hegemonic ambition wiped out most local religions The evidence whether archaeological or written is notoriously difficult to interpret and the variety of religions documented by the sources and the range of languages used are bewildering The Handbook brings together leading authorities on pre Christian religious history to provide a state of the art survey The first section of the book covers the Prehistoric period from the Paleolithic to the Bronze Age The second section covers the period since writing systems began Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of

religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology Archaeology and Classical Studies

The Mythic Forest, the Green Man and the Spirit of Nature Gary R. Varner, 2006 A prolific writer about contemporary paganism and pagan themes generally Varner here turns his attention to The Green Man as an avatar of trees in particular and the vegetable world in general His first section sets the stage by reviewing ideas and beliefs about the spirit of nature sacred groves and May Day He draws heavily on research from t

The Christianization of the Anglo-Saxons
c.597-c.700 Marilyn Dunn, 2010-07-26 This groundbreaking work treats the Christianization of the Anglo Saxons as a process of religious change and is the first to establish the importance of Christian doctrines and popular intuitions about

death and the dead in the transition focusing on the outbreak of epidemic disease between 664 and 687 as a crucial period for the survival of Christianity in Anglo Saxon England It analyzes Anglo Saxon conceptions of the soul and afterlife as well as traditional mortuary rituals re interpreting archaeological evidence to argue that the change from furnished to unfurnished burial in the late seventh and early eighth century demonstrates the success of the church s attempts to counter popular fears that the plague was caused by the return of the dead to carry off the living The study employs ethnographic comparisons and anthropological theory to further our understanding of pagan Anglo Saxon deities ritual and ritual practitioners and also considers the challenges confronting the Anglo Saxon church as it faced not only popular attachment to traditional values and beliefs but also gendered responses to or syncretistic constructions of Christianity
