The Myths of Mexico & Peru Lewis Spence, 2022-05-17 In *The Myths of Mexico Peru* Lewis Spence intricately weaves a tapestry of the rich mythological traditions from two of the most storied cultures in the Americas. The book delves into the creation myths, gods, and legendary heroes found in Aztec and Incan narratives, framed within a scholarly context that reflects Spence's vast research. His eloquent prose and methodical analysis play a pivotal role in illuminating these ancient tales, revealing their thematic depth and cultural significance while simultaneously situating them within the broader scope of global mythology. Spence's work is noteworthy for its aim to preserve the nuances of indigenous storytelling in the face of colonial narratives and erasure. Lewis Spence, a noted Scottish writer and folklorist, was motivated by a passion for mythology and a desire to shed light on often overlooked cultural heritages. His extensive background in Scottish folklore and his commitment to documenting various mythologies reveal a broader cultural exploration significantly contributing to early 20th-century understanding of non-Western traditions. Spence's critical approach not only reflects his knowledge but also his sensitivity to the spiritual and societal functions of these myths. The Myths of Mexico & Peru Lewis Spence,2021-02-15 In recent years a reawakening has taken place in the study of American arch ology and antiquities owing chiefly to the labours of a band of scholars in the United States and a few enthusiasts in the continent of Europe For the greater part of the nineteenth century it appeared as if the last word had been written upon Mexican arch ology The lack of excavations and exploration had cramped the outlook of scholars and there was nothing for them to work upon save what had been done in this respect before their own time The writers on Central America who lived in the third quarter of the last century relied on the travels of Stephens and Norman and never appeared to consider it essential that the country or the antiquities in which they specialised should be examined anew or that fresh expeditions should be equipped to discover whether still further monuments existed relating to the ancient peoples who raised the teocallis of Mexico and the huacas of Peru True the middle of the century was not altogether without its Americanist explorers but the researches of these were performed in a manner so perfunctory that but few additions to the science resulted from their labours
