reaffirming their paramount commitment to their communities and Nations It will be of great value to Native writers as well as instructors and students in Native American studies women s studies anthropology cultural studies literature and writing and composition *The Payne-Butrick Papers, Volumes 4, 5, 6* John Howard Payne, Daniel Sabin Butrick, 2010-10-01 This landmark two volume set is the richest and most important extant collection of information about traditional Cherokee culture Because many of the Cherokees own records were lost during their forced removal to the west the Payne Butrick Papers are the most detailed written source about the Cherokee Nation during the late eighteenth and early nineteenth centuries In the 1830s John Howard Payne a respected author actor and playwright and Daniel S Butrick an American Board missionary hastened to gather information on Cherokee life and history fearing that the cultural knowledge would be lost forever Butrick who was conversant with the Cherokees culture and language after having spent decades among them recorded what elderly Cherokees had to say about their lives The collection also contains much of the Cherokee leaders correspondence which had been given to Payne for safekeeping This amazing repository of information covers nearly all aspects of traditional Cherokee culture and history including politics myths early and later religious beliefs rituals marriage customs ball play language dances and attitudes toward children It will inform our understanding and appreciation of the history and enduring legacy of the Cherokees **The Oxford Handbook of Ritual Language** David Tavárez, 2024-11-04 This volume brings together representative case studies and surveys that explore research into ritual language covering theoretical and methodological approaches that reflect traditional inquiries and more recent studies This recent literature contends that ritual language hinges on the construction of authoritative ontological models about the cosmos and its inhabitants Ritual speech also orchestrates performances that articulate representations of collective identities and rests on the diversity of hierarchical forms of authoritative knowledge displayed in both oblique and direct terms Moreover performances texts and narratives associated with ritual practices are closely entwined with historical accounts that navigate current memories recast in a diversity of ways about ancestral beings and distant or recent pasts or delimit a terrain in which dialectical relationships with colonial hegemony and Christian indoctrination emerge to transform the social order Ritual narrative often offers in its structure and delivery momentous representation of the social order social institutions social difference and collective identities and may also be constituted by claims about relations among species non human actors and material culture The Oxford Handbook of Ritual Language addresses foundational questions regarding the scope structuring use and consequences of ritual language The chapters examine the relationship between speakers consciousness and verbal ritual performances and between ritual language hegemony collective authority and the social world As the study of ritual speech hinges on extensive analyses of linguistic choices and styles the contributors draw on data from a wide range of language groups and societies in the Americas the Middle East the Pacific South Asia and the Indian Ocean *The Sacred Formulas of the Cherokees* James Mooney, 2013-07 The sacred formulas here given are selected from a collection of about six

hundred obtained on the Cherokee reservation in North Carolina in 1887 and 1888 and covering every subject pertaining to the daily life and thought of the Indian including medicine love hunting fishing war self protection destruction of enemies witchcraft the crops the council the ball play etc and in fact embodying almost the whole of the ancient religion of the Cherokees The original manuscripts now in the possession of the Bureau of Ethnology were written by the shamans of the tribe for their own use in the Cherokee characters invented by Sikwaya Sequoyah in 1821 and were obtained with the explanations either from the writers themselves or from their surviving relatives Some of these manuscripts are known to be at least thirty years old and many are probably older The medical formulas of all kinds constitute perhaps one half of the whole number while the love charms come next in number closely followed by the songs and prayers used in hunting and fishing The great number of love charms will doubtless be a surprise to those who have been educated in the old theory that the Indian is insensible to the attractions of woman The comparatively small number of war formulas is explained by the fact that the last war in which the Cherokees as a tribe were engaged on their own account closed with the Revolutionary period so that these things were well nigh forgotten before the invention of the alphabet a generation later The Cherokees who engaged in the Creek war and the late American civil war fought in the interests of the whites and their leaders were subordinated to white officers hence there was not the same opportunity for the exercise of shamanistic rites that there would have been had Indians alone been concerned The prayers for hunting fishing and the ball play being in more constant demand have been better preserved
