**Myths and Mysteries of Same-Sex Love** Christine Downing, 2006 *Myths and Mysteries of Same Sex Love* makes a powerful statement about the realities of gay and lesbian psyche A gay and lesbian psychic perspective may at first be startling but once examined it proves to be unforgettable *The Advocate* Same-Sex Love Robert H. Hopcke, 1993-02-16 This is the first book to examine the unique ways in which gay men and lesbians make the journey toward the psychic wholeness and balance needed in every life a process C G Jung called individuation Here eighteen prominent therapists and writers offer thought provoking insights into the deep meaning of homosexuality Contributions from Robert A Johnson Christine Downing Robert Bosnak Joseph Henderson John Beebe Robert H Hopcke Howard Teich Morgan Farley Caroline T Stevens Will Roscoe Karin Lofthus Carrington Lyn Cowan Scott Wirth Suzy Naiberg Donald Sandner David J Tacey Eugene Monick and Susan Griffin **Lesbians and Lesbianisms** Claudette Kulkarni, 2012-11-12 Claudette Kulkarni explores lesbian experience from a Jungian and feminist perspective through interviews with women who see themselves as lesbians or who are in a lesbian relationship Although a feminist treatment of the subject challenges the heterosexism of Jungian theory the author presents a link between theory and experience that is consistent with both approaches She concludes that when a woman finds herself loving another woman she is often responding to a profound psychological instinct to act in spite of internal conflict or external opposition and that this is a significant move in the service of personal and collective individuation and a movement toward achieving self understanding *Reader's Guide to Lesbian and Gay Studies* Timothy Murphy, 2013-10-18 *The Reader's Guide to Lesbian and Gay Studies* surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report A Story of Her Own Nancy Kulish, Deanna Holtzman, 2008-01-01 *A Story of Her Own* is a reformulation of the psychoanalytic concept of the female oedipal complex a term that encompasses the triangular development phase and the important conflicts and experiences in girls and women Inspired by the mythic role in human experience and in the unique aspects of femininity Nancy Kulish and Deanna Holtzman formulate a new name The Persephone Complex for this concept They integrate traditional psychoanalytic theory contemporary theories and data about female development and psychology and clinical experience with female patients into a comprehensive theory that is not based on male models With accumulated knowledge from their clinical work they present new psychoanalytic and therapeutic perspectives on the experience of girls and women attempting to uncover a sense of agency in their lives They touch upon the unique ways women cope with their sexuality and feelings about their bodies with feelings of anger competition and jealousy and with their ever evolving relationships with their mothers fathers peers and lovers *Jung and the Jungians on Myth* Steven F. Walker, 2002 In this

book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth. He defines key terms and distinguishes dream from fantasy in psychological experience. He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology. By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition, Walker fills a conspicuous gap in the current literature on Jung from back cover.

Jung and the Jungians on Myth Steven Walker, 2014-04-08 Carl Gustav Jung (1875-1961) was never more insightful and intriguing than when he discussed mythology. The key to understanding the Jungian approach to mythology lies in the concept of the image, which provides the basis for his theory of the unconscious. By emphasizing the image over the word, Jungian psychology distinguishes itself dramatically from Freudian, Lacanian, and other psychologies that stress the task of interpreting the language of the unconscious. In *Jung and the Jungians on Myth*, Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts. Whether one is sympathetic toward Jung's ideas or critical of them, one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology.

*Gay and Lesbian Studies in Art History* Whitney Davis, 2013-11-19 Find original research and interpretive studies of the relations between homosexuality and the visual arts. Evidence for the role of homosexuality in artistic creation has often not survived in part because the direct expression of homosexuality has often been condemned in Western societies. *Gay and Lesbian Studies in Art History* presents examples of contemporary art historical research on homoeroticism and homosexuality in the visual arts, chiefly painting and sculpture of the Western tradition from the ancient to the modern periods. Chapters explore the dynamic interrelation of sexuality and visual art and emphasize problems of historical evidence and interpretation and the need to reconstruct social and cultural realities, sometimes quite different from our own. *Gay and Lesbian Studies in Art History* addresses contemporary art historians' interest in studying sexuality in the visual arts, examining such questions as: What are some of the present-day reasons for and problems of this research? How is it related to other research areas within art history and to wider public debates about the meaning, value, and propriety of works of art? While the book examines a variety of research problems and theoretical perspectives, most chapters focus on the historical interpretation of a particular work of art, artist, or visual convention. Chapters present new documentation of the importance of homosexuality in the production and reception of artworks in the Western tradition, develop models for approaching the question of how sexuality and visual creation are related, and explore researchers' experiences and obligations in working in the area of gay and lesbian studies in art history today. Contributing authors stress problems of historical evidence and reconstruction, the social and cultural construction of homosexuality, and the active role of visual conventions in shaping perceptions of homosexuals, homosexuality, and homosexual desire. They discuss both the biography of artists and the significance of individual works of art and the social reception and circulation of works of art in the context of

wider religious legal medical political and economic relations The book may revise readers beliefs about the significance and value of a number of works of art hitherto forgotten neglected under appreciated or misinterpreted Gay and Lesbian Studies in Art History is an enlightening and informative book for art historians museum professionals scholars in the field of lesbian and gay studies and art history students and professors

**On Intimate Terms** Beverly Burch,1993 On Intimate Terms looks at the internal logic of lesbian relationships arguing that they are not patterned after heterosexual ones but rely on the interplay of psychosexual differences between women The book suggests that everyone seeks psychic complementarity with an Other in intimate relationships as a way of supporting personal growth and development A complementary partner is one who is different in some individually meaningful way not necessarily in terms of gender Drawing upon interviews with individuals and lesbian couples literature on lesbian psychology and contemporary psychoanalytic theory Beverly Burch observes a special attraction between primary lesbians women who have been attracted to other women from an early age and lesbians who formerly were heterosexual This difference may be a source of tension for lovers but it also attracts and bonds them in conscious and unconscious ways The intimacy between lesbian partners permits interpersonal exchanges that foster the continuing development of each according to Burch This development can occur in three areas with the significance of each varying from couple to couple It can be a source of both conscious and unconscious psychosexual exchanges a way in which each partner can experience the road not taken through her relationship with the other The partners different histories can reflect different ways of negotiating difference itself a pivotal theme in the development of adult women And gender role identities related to different developmental experiences can be played with expanding the experience of being female in a way that can challenge gender categories

**Warped: Gay Normality and Queer Anti-Capitalism** Peter Drucker,2015-02-04 Recent victories for LGBT rights especially the spread of same sex marriage have gone faster than most people imagined possible Yet the accompanying rise of gay normality has been disconcerting for activists with radical sympathies Global in scope and drawing on a wide range of feminist anti racist and queer scholarship and analysis Warped Gay Normality and Queer Anti Capitalism shows how the successive same sex formations of the past century and a half corresponding to different phases of capitalist development have led both to the emergence of today s homonormativity and homonationalism and to ongoing queer resistance The book s second half summarises different sexual rebellions and the queer dimension of multifarious movements for social justice and transformation seeing in them harbingers of a unified and powerful queer anti capitalism
