A Companion to Second-Century Christian 'Heretics' Antti Marjanen, Petri Luomanen, 2008 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites **The Monastic Origins of the Nag Hammadi Codices** Hugo Lundhaug, Lance Jenott, 2015-10-19 Hugo Lundhaug and Lance Jenott offer a sustained argument for the monastic provenance of the Nag Hammadi Codices They examine the arguments for and against a monastic Sitz im Leben and defend the view that the Codices were produced and read by Christian monks most likely Pachomians in the fourth and fifth century monasteries of Upper Egypt Eschewing the modern classification of the Nag Hammadi texts as Gnostic the authors approach the codices and their ancient owners from the perspective of the diverse monastic culture of late antique Egypt and situate them in the context of the ongoing controversies over extra canonical literature and the theological legacy of Origen Through a combination of sources including idealized hagiographies travelogues monastic rules and exhortations

and the more quotidian details revealed in documentary papyri manuscript collections and archaeology monasticism in the Thebaid is brought to life and the Nag Hammadi codices situated within it The cartonnage papyri from the leather covers of the codices which bear witness to the monastic culture of the region are closely examined while scribal and codicological features of the codices are analyzed and compared with contemporary manuscripts from Egypt Special attention is given to the codices scribal notes and colophons which offer direct evidence of their producers and users The study ultimately reveals the Nag Hammadi Codices as a collection of books completely at home in the monastic manuscript culture of late antique Egypt

Sethian Gnosticism and the Platonic Tradition John Douglas Turner, 2001

The A to Z of the Coptic Church Gawdat Gabra, 2009-10-26 During the first century Saint Mark brought Christianity to Egypt and in so doing formed the basis for the Coptic Orthodox Church Today Copts members of the Coptic Church comprise the largest Christian Community in the Middle East The Coptic Church is more than 19 centuries old and has produced thousands of texts and biblical and theological studies During the last half of the 20th century however economic and political discrimination has forced between 400 000 and one million Copts to emigrate from Egypt with the majority settling in North America and Australia The A to Z of the Coptic Church details the history of one of the oldest Christian churches This is done through a chronology an introductory essay a bibliography and more than 400 cross referenced dictionary entries on important people organizations and structures the theology and practices of the church its literature and liturgy and monasteries and churches

Studies on Greek and Coptic Majuscule Scripts and Books Pasquale Orsini, 2018-11-19 The volume contains a critical review of data results and open problems concerning the principal Greek and Coptic majuscule bookhands based on previous research of the author revised and updated to offer an overview of the different graphic phenomena Although the various chapters address the history of different types of scripts i e biblical majuscule sloping poitend majuscule liturgical majuscule epigraphic and monumental scripts their juxtaposition allows us to identify common issues of the comparative method of palaeography From an overall critical assessment of these aspects the impossibility of applying a unique historical paradigm to interpret the formal expressions and the history of the different bookhands comes up due to the fact that each script follows different paths Particular attention is also devoted to the use of Greek majuscules in the writing of ancient Christian books A modern and critical awareness of palaeographic method may help to place the individual witnesses in the context of the main graphic trends in the social and cultural environments in which they developed and in a more accurate chronological framework

The Church as Paradise and the Way Therein: Early Christian Appropriation of Genesis 3:22-24 Christopher A. Graham, 2017-04-24 In The Church as Paradise and the Way Therein Early Christian Appropriation of Genesis 3 22 24 Christopher A Graham demonstrates that early Christian authors employed the words paradise and way as allusions to the expulsion narrative Genesis 3 22 24 to signify that the benefits available in protological Paradise were once again accessible in and through Jesus and the Church The centrality of the expulsion narrative in their literary milieus gave

these authors confidence that readers would discern these allusions After considering the reception of the expulsion in texts circulating within the early Christian milieu Graham turns to the texts of Luke and Irenaeus of Lyons Both authors drew from an interpretive tradition in which a return to Paradise was desirable Both celebrated Jesus s reversal of Adam s expulsion and the constitution of Jesus s followers as the location and means by which humanity could continue to access divine truth and life For both authors the Church is Paradise and the way therein *The Gnostic Bible* Willis Barnstone, Marvin

Meyer, 2009-06-30 A collection of Gnostic texts spanning centuries geographical locations and cultural traditions a wonderful achievement Elaine Pagels author of *The Gnostic Gospels* Gnosticism was a wide ranging religious movement of the first millennium CE with earlier antecedents and later flourishings whose adherents sought salvation through knowledge and personal religious experience Gnostic writings offer striking perspectives on both early Christian and non Christian thought For example some gnostic texts suggest that god should be celebrated as both mother and father and that self knowledge is the supreme path to the divine Only in the past fifty years has it become clear how far the gnostic influence spread in ancient and medieval religions and what a marvelous body of scriptures it produced The selections gathered here in poetic readable translation represent Jewish Christian Hermetic Mandaean Manichaean Islamic and Cathar expressions of gnostic spirituality Their regions of origin include Egypt the Greco Roman world the Middle East Syria Iraq China and France Also included are introductions notes an extensive glossary and a wealth of suggestions for further reading **The facsimile edition of the**

Snapshots of Evolving Traditions Liv Ingeborg Lied,Hugo Lundhaug,2017-01-23 Scholars of early Christian and Jewish literature have for many years focused on interpreting texts in their hypothetical original forms and contexts while largely overlooking important aspects of the surviving manuscript evidence and the culture that produced it This volume of essays seeks to remedy this situation by focusing on the material aspects of the manuscripts themselves and the fluidity of textual transmission in a manuscript culture With an emphasis on method and looking at texts as they have been used and transmitted in manuscripts this book discusses how we may deal with textual evidence that can often be described as mere snapshots of fluid textual traditions that have been intentionally adapted to fit ever shifting contexts The emphasis of the book is on the contexts and interests of users and producers of texts as they appear in our surviving manuscripts rather than on original authors and their intentions and the essays provide both important correctives to former textual interpretations as well as new insights into the societies and individuals that copied and read the texts in the manuscripts that have actually been preserved to us
