 Tardieu Index Martin Krause Know Yourself Ole Jakob Filtvedt, Jens Schröter, 2023-12-31 The book explores ancient
 interpretations and usages of the famous Delphic maxim know yourself The primary emphasis is on Jewish Christian and
 Greco Roman sources from the first four centuries CE The individual contributions examine both direct quotations of the
 maxim as well as more distant echoes Most of the sources included in the book have never previously been studied in any
 detail with a view to their use and interpretation of the Delphic maxim Thus the book contributes significantly to the origin
 and different interpretations of the maxim in antiquity as well as to its reception history in ancient philosophical and
 theological discourses The chapters of the book are linked to each other by numerous cross references which makes it
 possible to compare the different views of the maxim with each other It also helps readers to notice relationships and
 trajectories within the material The explorations of the relevant sources are also set in the context of ongoing debates about
 the shape and nature of ancient conceptions of self and self knowledge The book thus demonstrates the wide variety of
 philosophical and theological approaches in that the injunction to know oneself could be viewed and how these
 interpretations provide windows into ancient discourses about self and self knowledge **The Teachings of Silvanus and
 Clement of Alexandria** Jan Zandee, 2025-01-27 **Die Eucharistie ist Jesus** Herbert Schmid, 2007-09-30 Given the
 concept of salvation through knowledge in Valentinian Gnosis which is basically anti materialist one would not expect
 concrete physical rituals to play a large role in its practice The Nag Hammadi Gospel of Philip is widely recognized as a
 Valentinian text yet it contains portions of a treatise on the value of baptism anointing and the eucharist The text which
 arguably comes from the end of the second century presents the first developed theory and justification of these sacraments
 in Early Christianity The present study reconstructs this theory from the fragmentary text and considers its consequences for
 the organization of the community Thus the book is also an attempt to address the problem of institutionalization in early
 Christian communities **The Coptic Gnostic Library: Nag Hammadi codices II, 1; III, 1; and IV, 1 ; Nag Hammadi

Hedrick, 2020-10-26 This volume presents critical editions of three of the most fragmentary codices in the Nag Hammadi Library Their nine tractates are presented in an English translation with critically edited transcriptions of Coptic texts including introductions and notes A complete set of indices is provided for Coptic and Greek words proper names ancient texts and authors and modern authors The contents of these three ancient books reflect the rich diversity of the Library as a whole They include a fragmentary and apparently non Christian revelation descent narrative Hypsiphrona a non Christian Sethian text reflecting heavy platonizing influence Allogenes Hellenistic Greek wisdom literature Sentence of Sextus a non christian Sethian text secondarily Christianized Trimorphic Protennoia Valentinian Gnosticism A Valentinian Exposition a Christian Gnostic tractate with Valentinian affinities The Interpretation of Knowledge A Christian Gnostic perhaps Valentinian homily on the gospel the Gospel of Truth the first page of On the Origin of the World completely preserved in NHC II and an identified fragmentary tractate with ethical content There are also five Valentinian liturgical supplements appended to Allogenes The publication of these religio philosophical materials from Nag Hammadi provides the scholar and interested reader with critical editions of texts that help to fill in background and context of gnostic origins and that shed light on the interaction among early Christianity and gnostic movements in antiquity
