Reginald, 2009-12-01 This was the first bibliography and guide to the American mass market paperback book and it remains one of the most definitive The major index is by author and lists author title publisher book number year of publication and cover price The title index lists titles and authors only The publisher index provides a history of that imprint with addresses number ranges and general physical description of the books issued This is the place that all study of the American paperback must begin *No Accident* Neil Arason, 2014-04-29 It is possible to eliminate death and serious injury from Canada's roads In other jurisdictions the European Union centres in the United States and at least one automotive company aim to achieve comparable results as early as 2020 In Canada though citizens must turn their thinking on its head and make road safety a national priority Since the motor vehicle first went into mass production the driver has taken most of the blame for its failures In a world where each person's safety is dependent on a system in which millions of drivers must drive perfectly over billions of hours behind the wheel failure on a massive scale has been the result When we neglect the central role of the motor vehicle as a dangerous consumer product the result is one of the largest human made means for physically assaulting human beings It is time for Canadians to embrace internationally recognized ways of thinking and enter an era in which the motor vehicle by product of human carnage is relegated to history *No Accident* examines problems related to road safety and makes recommendations for the way forward Topics include types of drivers human related driving errors related to fatigue speed alcohol and distraction and roads pedestrians cyclists and public transit road engineering motor vehicle regulation auto safety design and collision avoidance technologies such as radar and camera based sensors on vehicles that prevent crashes This multi disciplinary study demystifies the world of road safety and provides a road map for the next twenty years The Living Age ,1913 *Littell's Living Age* ,1913 **Killed by a Traffic**

Engineer Wes Marshall,2024-06-04 Fixing the carnage on our roadways requires a change in mindset and a dramatic transformation of transportation This goes for traffic engineers in particular because they are still the ones in charge of our streets In Killed by a Traffic Engineer civil engineering professor Wes Marshall shines a spotlight on how little science there is behind the way that our streets are engineered which leaves safety as an afterthought While traffic engineers are not trying to cause deliberate harm to anyone he explains they are guilty of creating a transportation system whose designs remain largely based on plausible but unproven conjecture Killed by a Traffic Engineer is ultimately hopeful about what is possible once we shift our thinking and demand streets engineered for the safety of people both outside and inside of cars It will make you look at your city and streets and traffic engineers in a new light and inspire you to take action **Walkable City** Jeff Speck,2012-11-13 Jeff Speck has dedicated his career to determining what makes cities thrive And he has boiled it down to one key factor walkability The very idea of a modern metropolis evokes visions of bustling sidewalks vital mass transit and a vibrant pedestrian friendly urban core But in the typical American city the car is still king and downtown is a place that s easy to drive to but often not worth arriving at Making walkability happen is relatively easy and cheap seeing exactly what needs to be done is the trick In this essential new book Speck reveals the invisible workings of the city how simple decisions have cascading effects and how we can all make the right choices for our communities Bursting with sharp observations and real world examples giving key insight into what urban planners actually do and how places can and do change Walkable City lays out a practical necessary and eminently achievable vision of how to make our normal American cities great again **The Whole Works ...
