Naked Masks 5 Plays:

Naked masks Eric Bentley, 1952 **The Text in Play** Robert Baker-White, 1999 Many modern playwrights have dramatized the process of theatrical creation within their plays In doing so they have disregarded the do not disturb sign on the rehearsal room door and have opened the art of theater to a particular kind of scrutiny This scrutiny is unusual given the long standing tradition of secrecy that surrounds theatrical rehearsal Viewing modern drama generally as a drama that juxtaposes authority and freedom and viewing contemporary criticism as essentially an extended debate on the issue of meaning s closure this study invokes the critical perspectives M M Bakhtin Roland Barthes and Bertolt Brecht to create a general theory of rehearsal practice that differentiates it from the practice of performance Working with notions of textual authority explored in a variety of critical contexts this volume attempts to explore the theoretical ramifications of metatheatrical representations of rehearsal **Creating Communities** Nourit Melcer-Padon, 2018-05-15 How does historical reality interrelate with fiction And how much are readers themselves involved in the workings of fictional literature With innovative interpretations of various well known texts Nourit Melcer Padon introduces the use of literary masks and illustrates literature s engagement of its readers ethical judgement She promotes a new perception of literary theory and of connections between thinkers such as Iser Castoriadis Sartre Jung and Neumann The book offers a unique view on the role of the community in post existentialist modern cultural reality by emphasizing the importance of ritual practices in literature as a cultural manifestation Tragedy and After Ekbert Faas, 1986 Faas has written a provocative book challenging the familiar literary and philosophical theories of tragedy from Aristotle onwards His judicious use of Nietzschean insights both stimulates and compels assent Exuberant scholarship from first page to last Irving Layton *Hamlet's Fictions* Maurice Charney, 2014-02-03 But in a fiction in a dream of passion In an extended commentary on this passage this book offers a rationale for the excellence and primacy of this play among the tragedies Throughout emphasis is placed on Hamlet s fantasies and imaginations rather than on ethical criteria and on the depiction of Hamlet as a revenge play through an exploration of its dark and mysterious aspects The book stresses the importance of Passion and Its Fictions in the play and attempts to explore the very Pirandellian topic of Hamlet s passion and dream of passion It goes on to examine the organization of dramatic energies in the play the use Shakespeare makes of analogy and infinite regress and of scene rows broken scenes and impacted scenes and the significance of the exact middle of Hamlet The final section is devoted to conventions of style imagery and genre in the play what is the stage situation of asides soliloquies and offstage speech How is the imagery of skin disease and sealing distinctive In what sense is Hamlet a comedy or does it use comedy significantly *Qualitative Sociology* Howard Schwartz, Jerry Jacobs, 1979-02 Efforts to reconstruct the reality of a social scene have evolved numerous theoretical and methodological strategies Qualitative sociology fills the gap in existing literature by providing a comprehensive and detailed treatment of the broad range of non quantitative methods currently being used in

sociological research with the conceptual rationales for each method Recognizing the need for a clear concise discussion of both the theoretical and practical aspects of reality reconstruction and formal sociology Drs Schwartz and Jacobs draw on the theories and strategies of Weber Mead Blumer Glaser Straus Simmel Goffman Schutz Garfinkel and Cicourel among others to justify explain and illustrate field studies participant observation ethnography interviewing life histories and personal accounts the analysis of unobtrusive measures audio visual techniques methods of studying and subjectivity phenomenology and more Thus the authors not only describe the various theories and methods but they add to the reader s understanding by providing insight into who has used the methods and why and by evaluating the strengths and weaknesses of each method They also supplement the text throughout with a collection of case studies which illustrate the kind of substantive work qualitative research can produce No other available text covers as many methods as are described in Qualitative Sociology All the methods are examined in an informal conversational style making the discussion accessible to the student with no previous knowledge of qualitative theories and practices

Staging Dario Fo and Franca Rame Stefania Taviano,2017-03-02 This is the first extended treatment of the English translations stagings and reception of the political plays of Dario Fo and Franca Rame Focusing on the United Kingdom and the United States Stefania Taviano offers a critique of the cultural stereotyping and political conservatism that have pursued these playwrights in translation and argues for the possibility of remaining true to Fo and Rame s political commitment while preserving the comic nature of their plays Taviano shows how the choices made by the translators and staggers of Fo and Rame s political theatre reveal attitudes toward foreign cultures and theatre generally and Italy in particular Among the questions she poses are What characterizes the process of acculturation that takes place when political theatre is transposed from one culture to another To what extent are images of foreign literary production affected by dominant translation practices and theatre traditions Perhaps most important What constitutes political theatre in a given society and how are such definitions used to categorize and contain theatre texts that are disturbing challenging and difficult to stage Her book concludes with an investigation of the meaning of Fo and Rame s political theatre today that points the way for future critical studies of the politics behind the translation and stage production of political theatre outside its culture of origin **Living**

Masks Umberto Mariani,2008-11-25 The Nobel Prize winning dramatist Luigi Pirandello 1867 1936 is undoubtedly one of the most innovative playwrights of the twentieth century and also one of the most complex While his influence spread throughout modernist and postmodernist works many first time audiences and readers are confronted with the difficulty associated with such a radical aesthetic experience In Living Masks Umberto Mariani presents a clear and comprehensive introduction of Pirandello s major plays for general readers students and scholars new to Pirandello Functioning as a guide to understanding the fundamental themes of Pirandello s plays the author also examines the critical aesthetic and technical problems associated with these plays He provides extensive reflection on some of the failings of early and contemporary criticism on Pirandello s works and offers many corrections of interpretative direction that will be significant and helpful to directors and performers In particular Mariani presents a deeper understanding and greater appreciation of Pirandello s works as a challenge to the tendency to adapt and modify them which drastically deprive the works of their original power and beauty A concise and accessible introduction to a twentieth century literary master Living Masks will be of interest to dramatists literary scholars and students and scholars of Italian studies **Antiquarian Bookman** ,1961-07 *Laughter,*

Pain, and Wonder David Richman,1990 This work s chief aim is to restore to readers performers and audiences the richness and vitality of Shakespeare s comedies Richman explores the way in which a reader s relations to Shakespeare s literary texts

differ from those of the relations between performers of Shakespeare's works and their audiences Richman also examines the forms of humor and empathy that Shakespeare's comedies elicit **The Indian Journal of English Studies** ,1975

Modern/Postmodern Silvio Gaggi,2015-08-10 Silvio Gaggi's survey of the vast terrain of twentieth century arts and ideas is unique not only for its scope but also for the clarity and cohesiveness it brings to wide ranging seemingly disparate works By identifying underlying epistemological aesthetic and ethical issues Gaggi draws connections among such modern and postmodern masterpieces as Pirandello's and Brecht's theater Fowles's and Barth's fiction Warhol's paintings Godard's and Bergman's films and Derrida's literary theory Modern Postmodern begins with a discussion of the profound skepticism about traditional beliefs and about our ability to know the self that lies at the heart of both modernism and postmodernism Gaggi identifies the modernist response to this doubt as the rejection of mimesis in favor of a purely formalistic or expressionistic art The postmodern response on the other hand is above all to create art that is self referential concerned with art itself the history of art or its processes Drawing from the work of Pirandello and Brecht paradigms that can be applied to many different art works Gaggi emphasizes how these works from diverse media relate to one another and what their relationships are to the contemporary artistic and philosophical climate He concentrates on the works themselves but examines theory as a parallel manifestation of the same obsessions that inform recent literature and art Gaggi asks finally if self referential art can also be politically and ethically engaged with the reality outside it He concludes that the postmodern obsession with language narrativity and artifice is not necessarily a decadent indulgence but is at its best an honest inquiry into the problems questions and paradoxes of language Modern Postmodern is a lively approach to postmodern art that will interest all students and scholars of contemporary art and literature **How Plays Work** Martin Meisel,2007-06-28 Meisel begins

with a look at matters often taken for granted in coding and convention and then under Beginnings at what is entailed in establishing and entering the invented world of the play Each succeeding chapter is a gesture at enlarging the scope The final chapters explore ways in which both the drive for significant understanding and the appetite for wonder can and do find satisfaction and delight Cultivated in tone and jargon free *How Plays Work* is illuminated by dozens of judiciously chosen examples from western drama from classical Greek dramatists to contemporary playwrights both canonical and relatively obscure It will appeal as much to the serious student of the theatre as to the playgoer who likes to read a play before seeing it performed **BOOK JACKET** *A History of Modern Drama, Volume I* David Krasner,2011-11-07 Covering the period 1879 to

1959 and taking in everything from Ibsen to Beckett this book is volume one of a two part comprehensive examination of the plays dramatists and movements that comprise modern world drama Contains detailed analysis of plays and playwrights connecting themes and offering original interpretations Includes coverage of non English works and traditions to create a global view of modern drama Considers the influence of modernism in art music literature architecture society and politics on the formation of modern dramatic literature Takes an interpretative and analytical approach to modern dramatic texts

rather than focusing on production history Includes coverage of the ways in which staging practices design concepts and acting styles informed the construction of the dramas *The Book Buyer's Guide* ,1952 **Understanding Luigi**

Brown,1989-03-07 For too long argues Richard Harvey Brown social scientists have felt forced to choose between imitating science's empirical methodology and impersonating a romantic notion of art the methods of which are seen as primarily a matter of intuition interpretation and opinion Developing the idea of a cognitive aesthetic Brown shows how both science and art as well as the human studies that stand between them depend on metaphoric thinking as their logic of discovery and may be assessed in terms of such aesthetic criteria of adequacy as economy elegance originality scope congruence and form By recognizing this aesthetic common ground between science and art Brown demonstrates that a fusion can be achieved within the human sciences of these two principal ideals of knowledge the scientific or positivist one and the artistic or intuitive one A path then is opened for creating a knowledge of ourselves and society which is at once objective and subjective at once valid scientifically and significantly humane
